Amazing
Wow
I received a large number of fan letters and cup ramen
Yup
Everyone's pretty worried about Fujisaki
Cry
Alright, then let's start eating it now ♥
And then...
Mmm...yum.
Not only that, but the meals everyday became cup ramen.

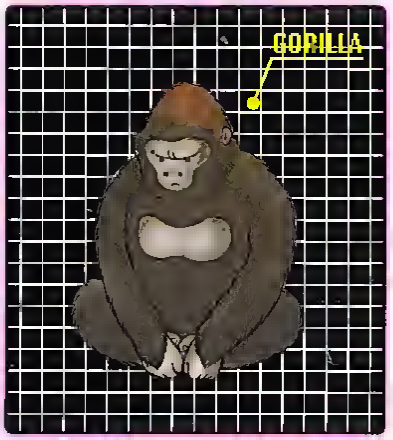
IROIRO NA WILD LIFE　VOL.12



その12　ゴリラ

ゴリラとは、ギリシャ語で「毛深い人間」という意味。脳のサイズも人間とほぼ同じで、大変頭のいい動物です。映画「キングコング」の影響で凶暴なイメージがありますが、実際には繊細で優しい性格をしています。ちょっとイタズラ好きな面もあり、人間に自分のウンチを投げつけることがあります。でも、子供や女性、あるいは身体の弱そうな人には、そんなことはしません。しかも偉い人なのかどうかを見分けることができるらしく、偉い人にはウンチを投げつけないようです。そんなところにも、ゴリラの頭の良さが表われていますね。

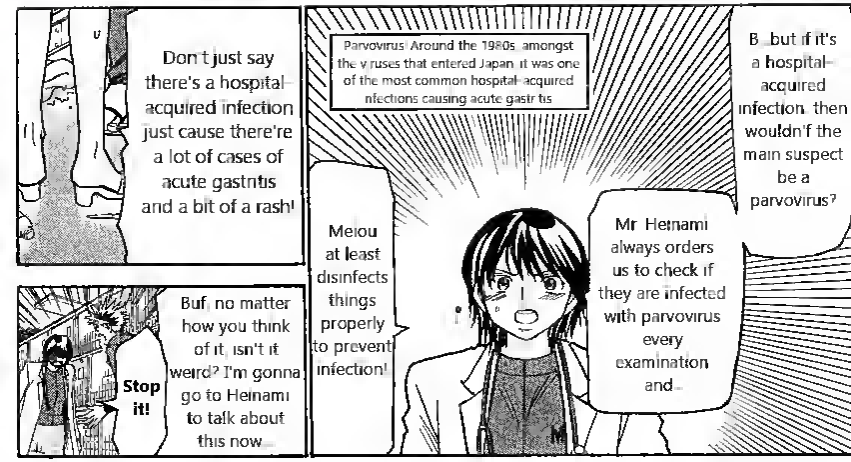
Chapter 96: The Professor's wall

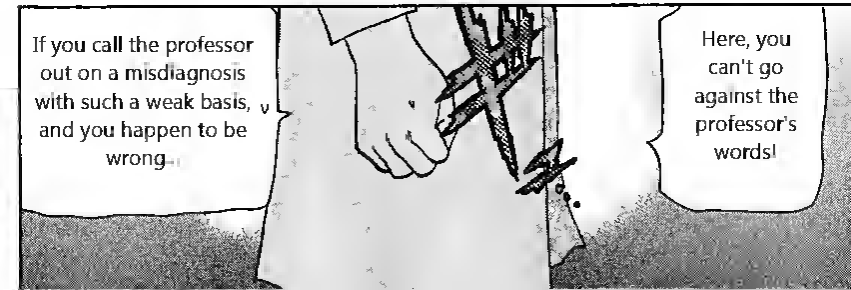
Even so, at RED acute gastritis barely happens,
Yet, for it to occur so often at Melou alone, isn't that odd!?
N-no but...
The stress that a patient feels from being in an unfamiliar environment should be the same in any hospital!

Yeah
A misdiagnosis!?
Then, are you intending on saying that Mr. Heinami's diagnosis that the acute gastritis being caused by stress is



Don't just say there's a hospital-acquired infection just cause there're a lot of cases of acute gastritis and a bit of a rash!
Parvovirus: Around the 1980s, amongst the viruses that entered Japan, it was one of the most common hospital-acquired infections causing acute gastritis
B-but if it's a hospital-acquired infection, then wouldn't the main suspect be a parvovirus?
Meiou at least disinfects things properly to prevent infection!
Mr. Heinami always orders us to check if they are infected with parvovirus every examination and-
Stop it!
Buf, no matter how you think of it, isn't it weird? I'm gonna go to Heinami to talk about this now-

2

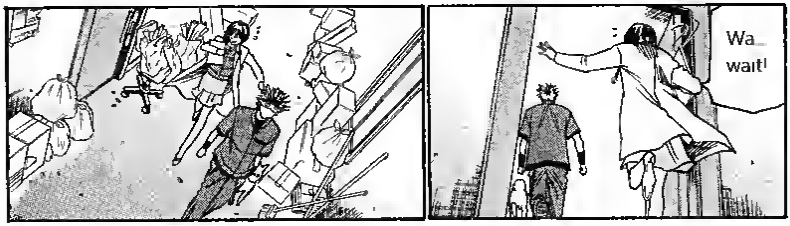


If you call the professor out on a misdiagnosis with such a weak basis, and you happen to be wrong-
Here, you can't go against the professor's words!

You will definitely be kicked out of Meiou!
Even though you've finally become able to properly take care of the nighttime emergency cases and the hospitalized patients
If you do that, it'll all go to waste!

So please!
...you know...
Don't do unneeded things!
Here, even if it's an opinion to save the patients,
Are you not allowed to speak it freely?

He might unexpectedly be an understanding guy!
He really easily allowed me to take on the emergency cases you know?
And just now, Heinami didn't approve of me bringing dog with me but...
That kind of reasoning can't convince me!
.....
Then I'm gonna go talk with Heinami!
che!



Wa... wait!

Even though I thought that Iwashiro-kun coming to Meiou would change it but...
No matter what you do, if you say that a professor's diagnosis is wrong, you won't get out of it unscathed...

He's way too reckless!

If you do that, you can't survive here!!

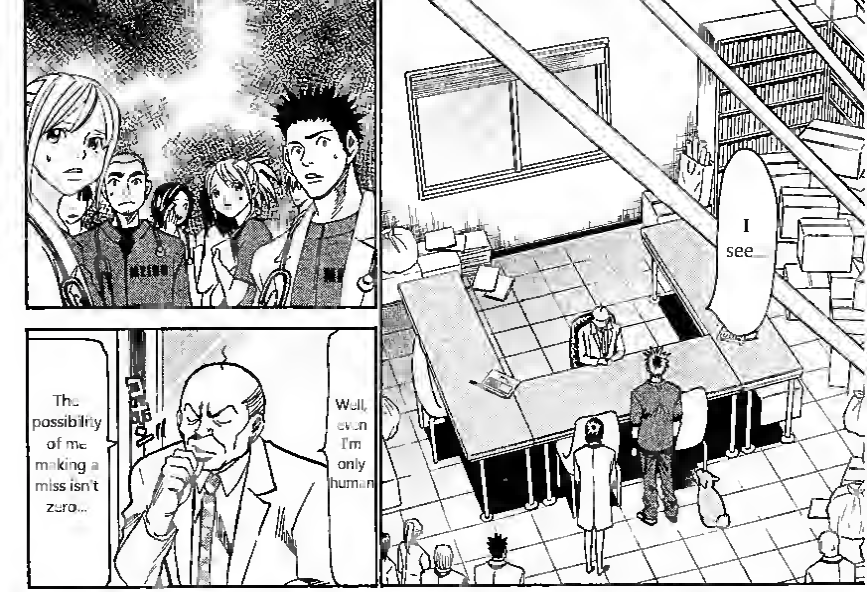
外科学第一研究室

Kanji: Surgical Department's First Laboratory

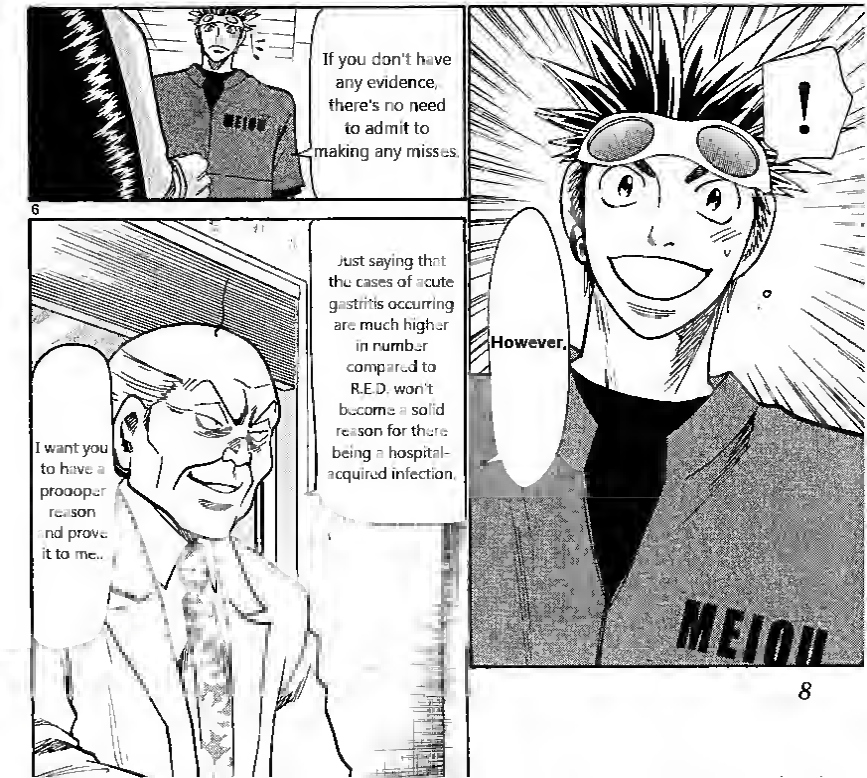
Dr Heinami!

I have something I'd like to talk to you about!

……?



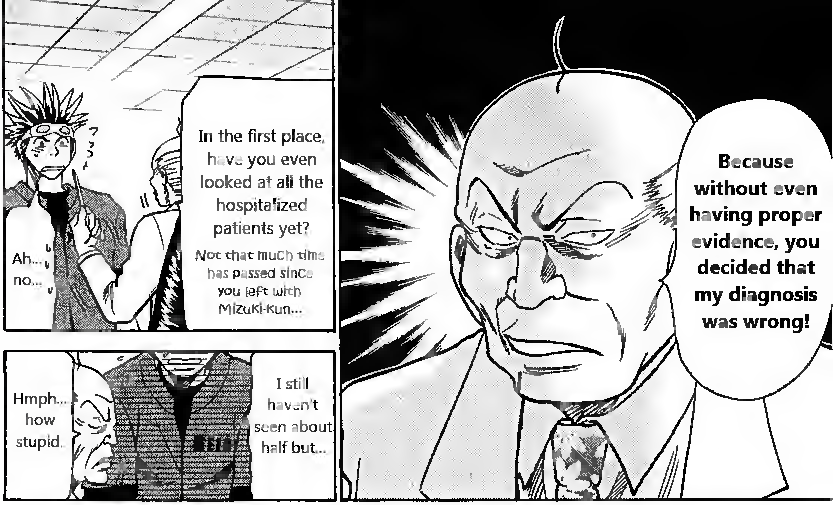
I see...
Well, even I'm only human
The possibility of me making a miss isn't zero...



If you don't have any evidence, there's no need to admit to making any misses.
6
!
However,
Just saying that the cases of acute gastritis occurring are much higher in number compared to R.E.D. won't become a solid reason for there being a hospital-acquired infection.
I want you to have a proooper reason nd prove it to me..
MEIOU

That's impossible.
For that, if we just examine all the patients with acute gastritis,
And figure out what virus is there, then I think we should be able to find it.
Without my permission, the inspection unit will not take on any testing requests.
Eh?

I'll just say this now but, without any evidence, don't expect me to admit to having made any mistakes
When I don't think I've made a misdiagnosis, why do I have to give permission for an inspection?
what!?
What are you saying!? Because we want to prove it for evidence an inspection is necessary!
To say that we're not doing it is insane isn't it!?
The one who is insane is you.



In the first place, have you even looked at all the hospitalized patients yet?
Not that much time has passed since you left with Mizuki-kun...
Ah... no...
Because without even having proper evidence, you decided that my diagnosis was wrong!
Hmph... how stupid.
I still haven't seen about half but...

However if you have nothing to show...
I'll give you one week, so give me some proper evidence by then.
In any case I'll have you take responsibility for your words

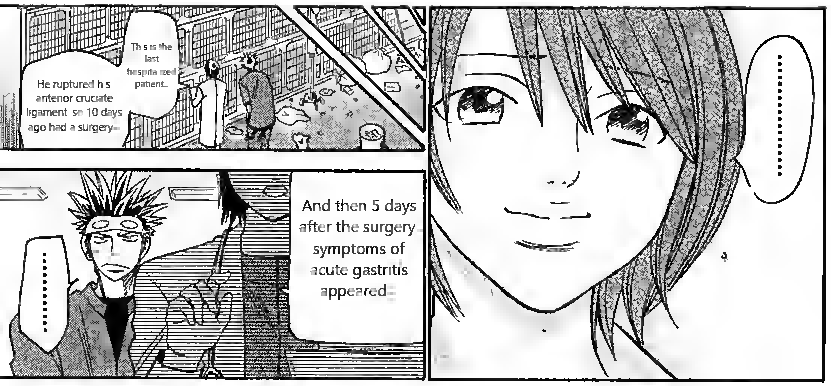
Idiot! You've self-destructed!
Exactly what will happen at that time... you get it right...?
.....

Well, more importantly Mizuki-kun
Once you've finished explaining all of the hospitalized patients, bring Iwashiro to the afternoon clinic to do examinations and teach him how things work.
Ahh yes.
Um... but...
Unlike us he's a proper physician already so what should he be doing?

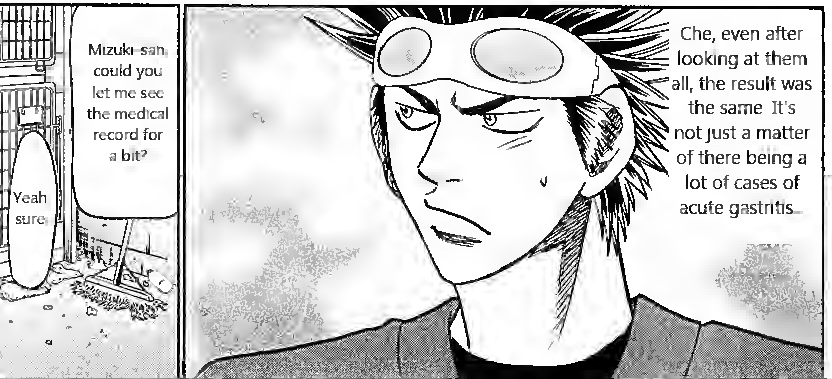
For that, he can just do things the same way as the rest of you.
Because as long as he's a member of this laboratory, he's my subordinate.
U
.....

If it's like this...
...that's why I told you...
Damn it!!
Gaahh
I won't actually send him flying!
Tha... that's no good!!
Eh...!?
I'll definitely... send that asshole flying!!
Hah!?
Wh-where are you...?
ズズ
ズズ
10
ヒト…

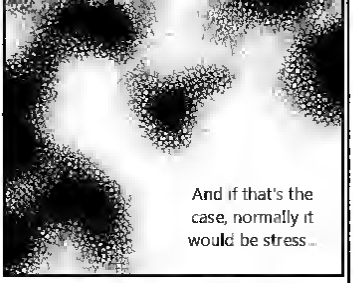
I can't just leave the patients alone... so right now I can't get fired...



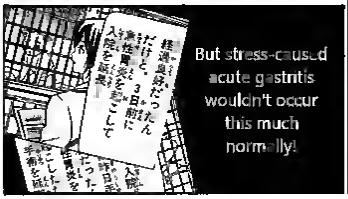
He ruptured his anterior cruciate ligament 10 days ago had a surgery...
This is the last hospitalized patient...
And then 5 days after the surgery symptoms of acute gastritis appeared...
.....
.....



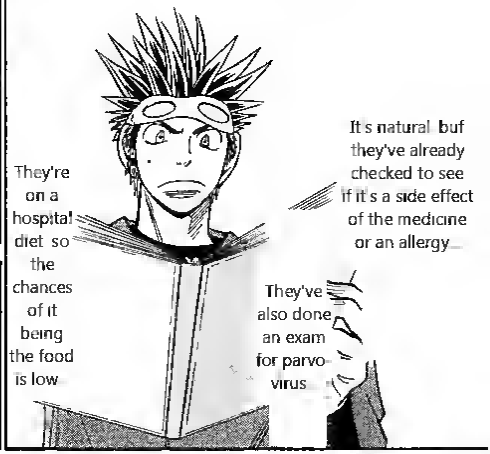
Mizuki-san, could you let me see the medical record for a bit?
Yeah sure.
Che, even after looking at them all, the result was the same. It's not just a matter of there being a lot of cases of acute gastritis...



And if that's the case, normally it would be stress...

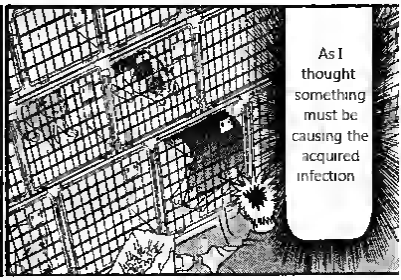


But stress-caused acute gastritis wouldn't occur this much normally!



They're on a hospital diet so the chances of it being the food is low...
It's natural but they've already checked to see if it's a side effect of the medicine or an allergy...
They've also done an exam for parvo-virus...

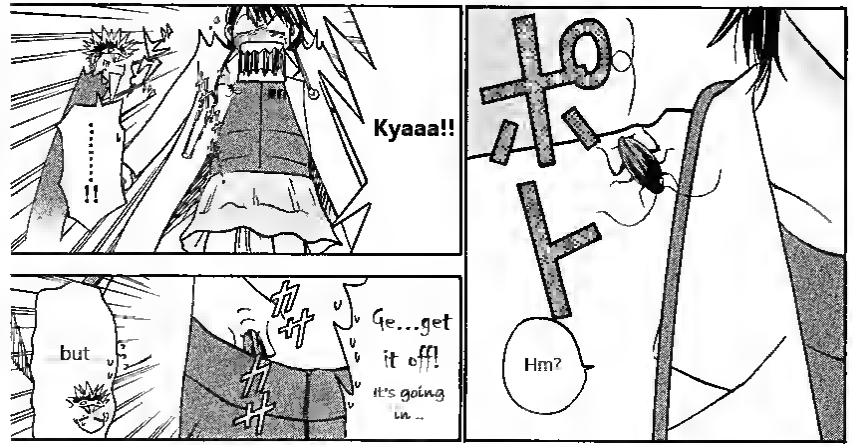
Even though I want to save all of you...
Damn...!



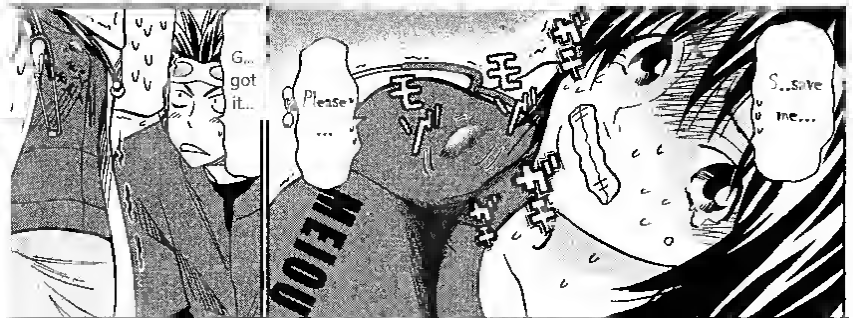
As I thought something must be causing the acquired infection

Isn't there some way I can do a test...
If I'm not allowed to do any sort of tests, I can't prove anything...

Scurry
Scurry
Scurry
Ah
Eh?
?
Wau
wau
wau!!



Kyaaa!!
.....
!!
but
Ge...get
it off!
It's going
in...
Hm?



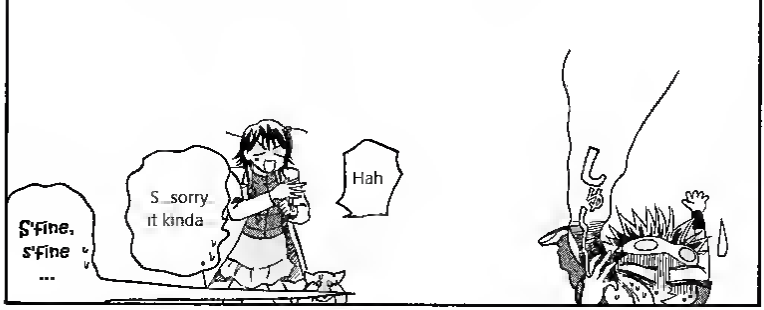
G...
got
it...
Please
...
MEIOU
S...Save
me...

'kay!
It ran
away!

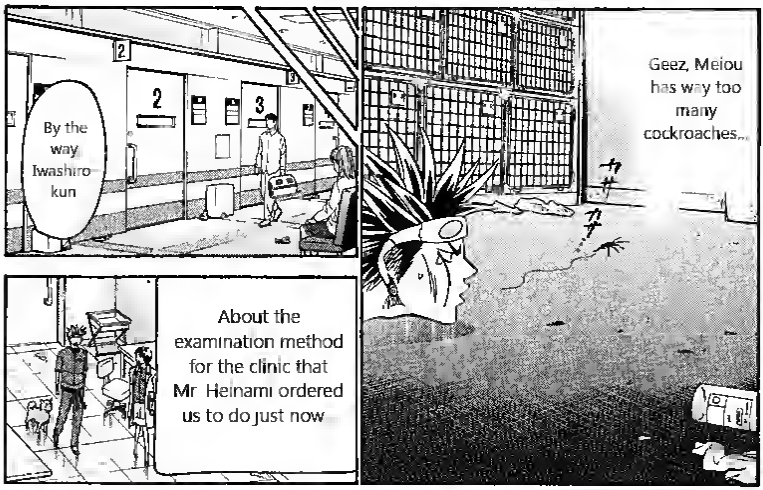
Thank
Fuu

I...
Iyaaa!!

you

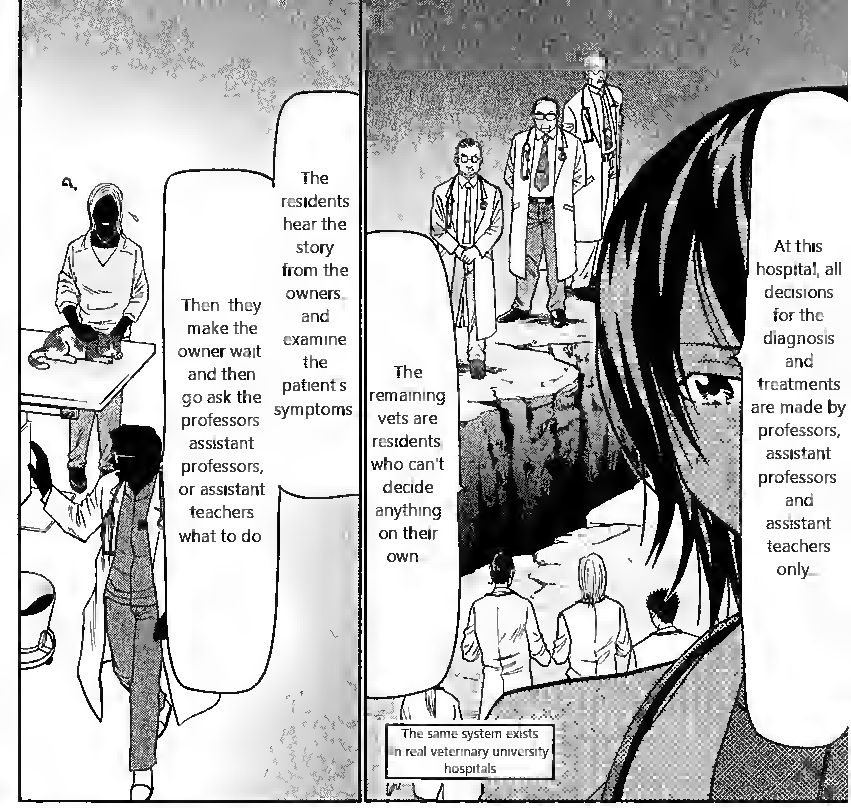


S'fine, s'fine ...
S...sorry it kinda...
Hah

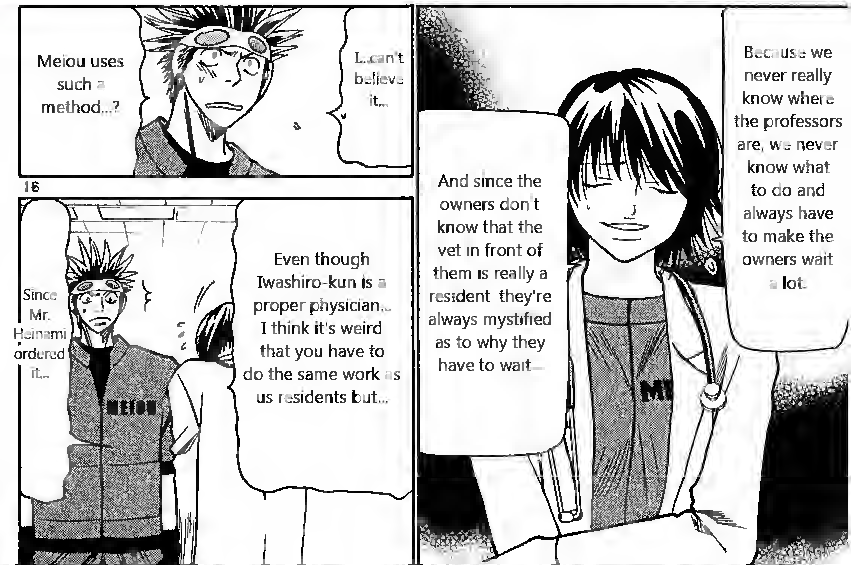


2
2
3
By the way Iwashiro kun
Geez, Meiou has way too many cockroaches...
About the examination method for the clinic that Mr. Heinami ordered us to do just now

Eh?
.....
Meiou is... that sort of place...
The **diagnosis and treatment** is up to Mr. Heinami's decisions, so please follow them.
Iwashiro-kun's job is to do **examinations only.**
MEIOU

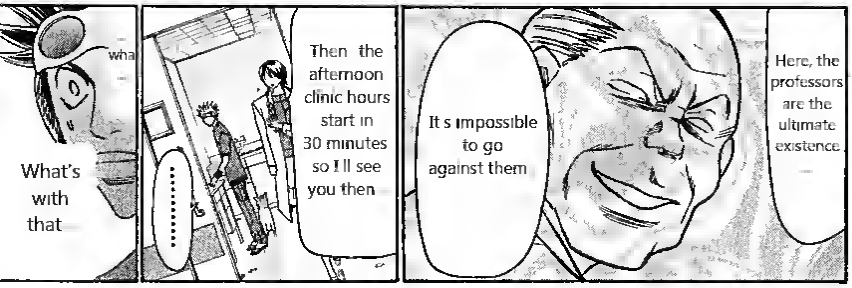


The residents hear the story from the owners and examine the patient's symptoms
Then they make the owner wait and then go ask the professors assistant professors, or assistant teachers what to do
The remaining vets are residents who can't decide anything on their own
At this hospital, all decisions for the diagnosis and treatments are made by professors, assistant professors and assistant teachers only
The same system exists in real veterinary university hospitals

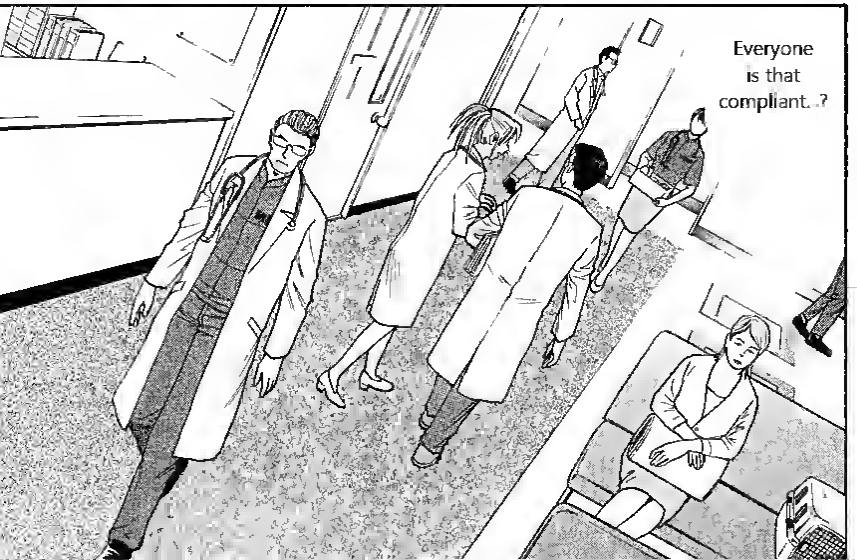


Meiou uses such a method...?
I...can't believe it...
16
Since Mr. Heinemi ordered it...
Even though Iwashiro-kun is a proper physician... I think it's weird that you have to do the same work as us residents but...
And since the owners don't know that the vet in front of them is really a resident they're always mystified as to why they have to wait
Because we never really know where the professors are, we never know what to do and always have to make the owners wait a lot

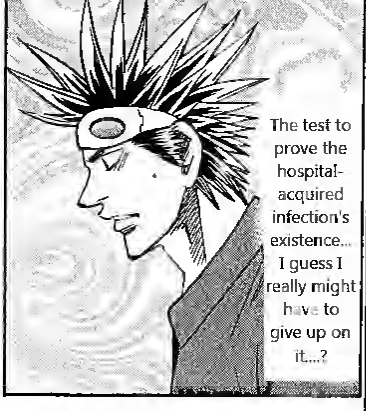
With this you understand it right?



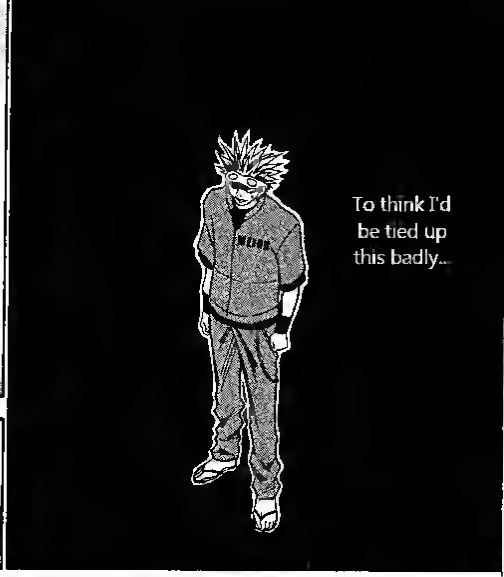
wha
What's with that
.....
Then the afternoon clinic hours start in 30 minutes so I'll see you then
It's impossible to go against them
Here, the professors are the ultimate existence



Everyone is that compliant..?

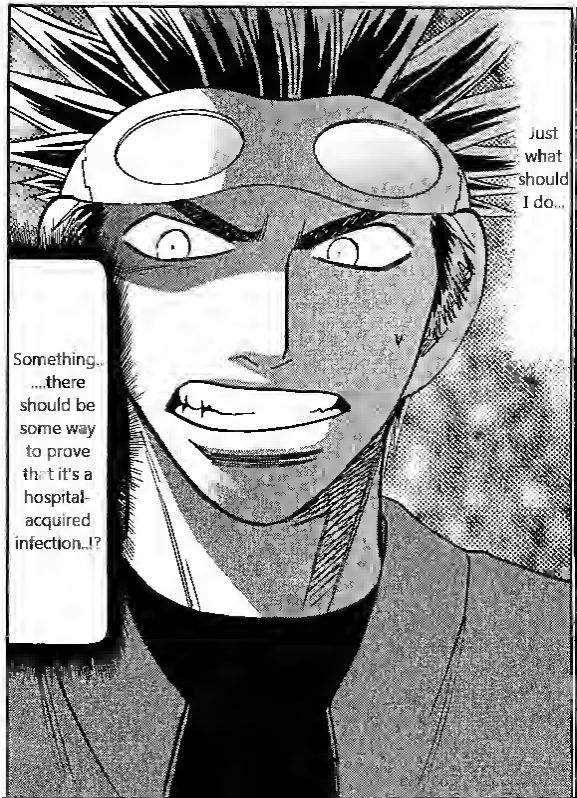


The test to prove the hospital-acquired infection's existence... I guess I really might have to give up on it....?

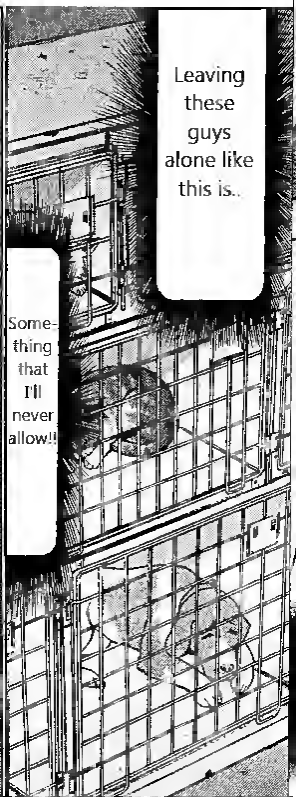


To think I'd be tied up this badly...

I can't let that stop me...!

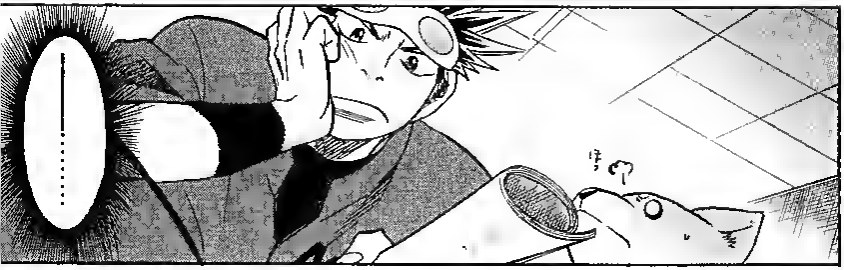


Just what should I do...
Something... ....there should be some way to prove that it's a hospital-acquired infection..!?



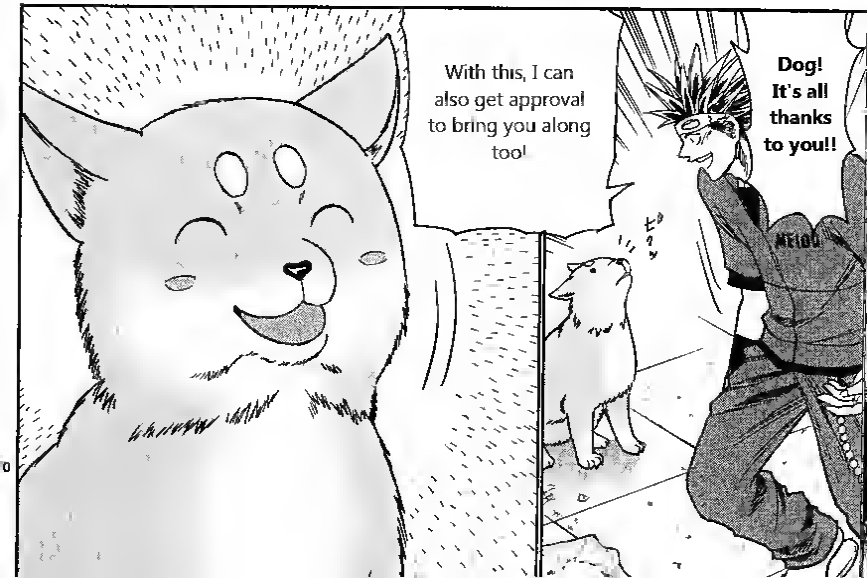
Leaving these guys alone like this is..
Some-thing that I'll never allow!!

Wau wau wau!!
!?
...cockroaches again...



C...could it be...
If it's like that...

Then there's one way...!!



With this, I can also get approval to bring you along too!
Dog! It's all thanks to you!!
ﾄﾞｯｸﾝ

I hope you enjoyed the chapter!!

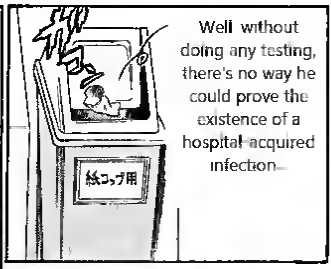
1 week later

Chapter 97:

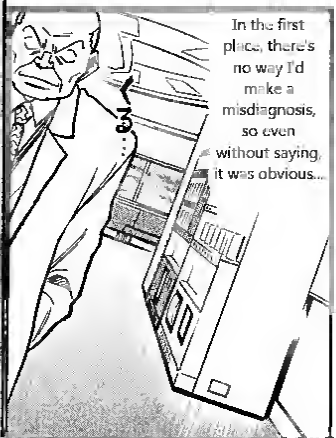
Special first-class nursing dog

As expected, that blond brat hasn't said anything since then...



Well without doing any testing, there's no way he could prove the existence of a hospital-acquired infection...

1



In the first place, there's no way I'd make a misdiagnosis, so even without saying, it was obvious...

Fu
fu
fu
fu
fu
fu
fu
....
To think that I could get him fired this quickly...!!
How wonderful this is

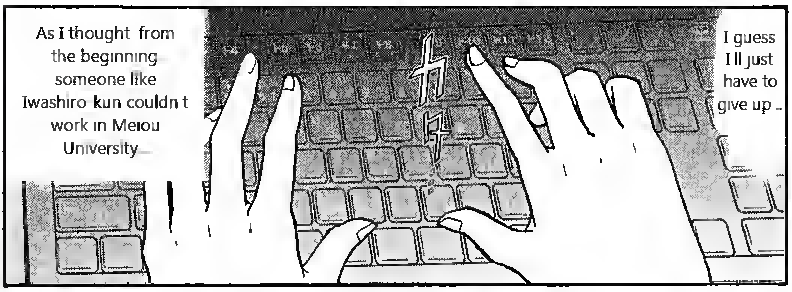
2

Actually, lately the hospital has been strangely clean...
H- Ven't seen any cockroaches either....

Chapter 97:

Special first-class nursing dog

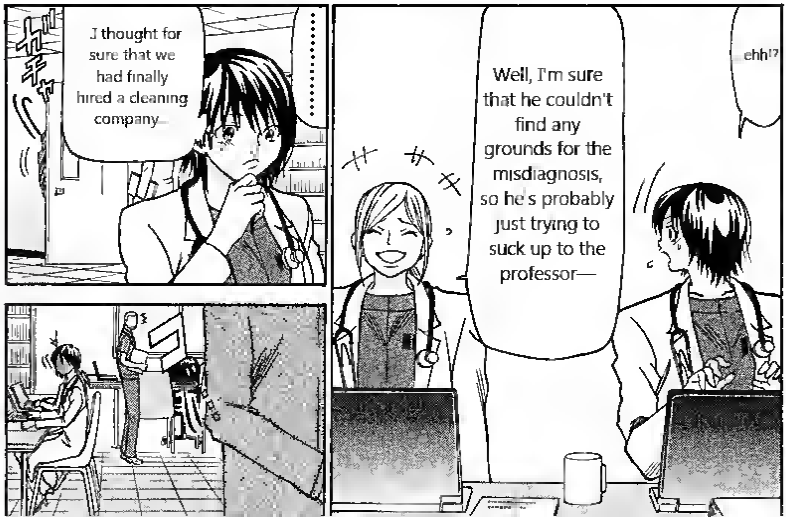
Soon Mr. Heinomi will run out of patience, and will corner Iwashiro-kun for a report...
カニャ
It's been 1 week since then...
外科学第研究室



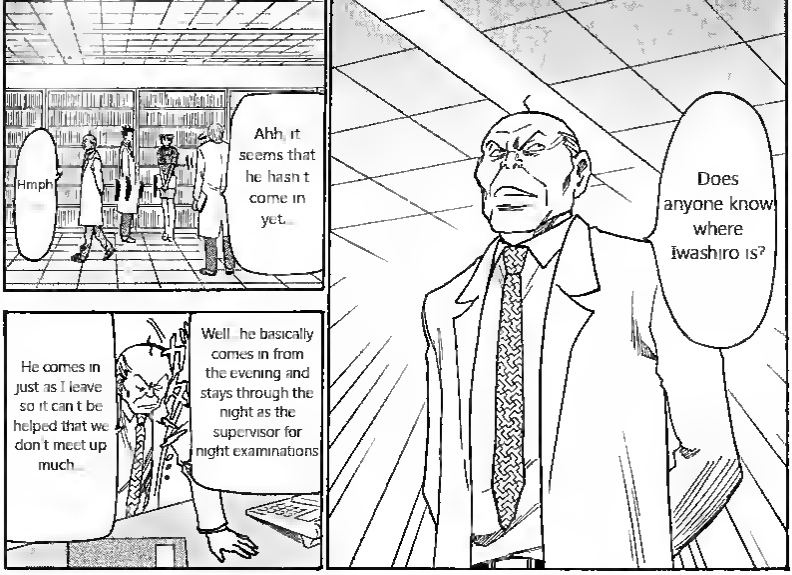
As I thought from the beginning someone like Iwashiro kun couldn't work in Meiou University...
カカ
I guess I'll just have to give up...

Now that I think of it, Mizuki hasn't been on night shift for this past week—
Hmm, you don't know?
For what?
?
He can do it if he tries right—
Nee nee, Mizuki

In just a few days, he managed to make this huge hospital this clean
It really is surprising
You know, Iwashiro-kun every night, he's been cleaning the hospital and exterminating cockroaches

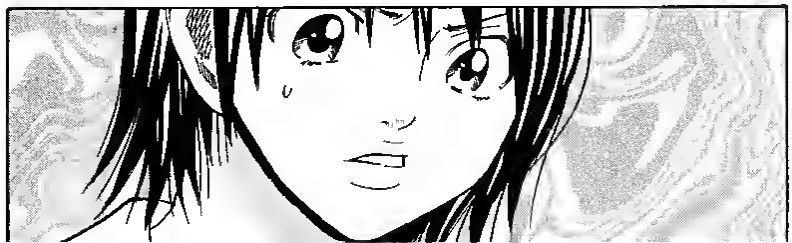


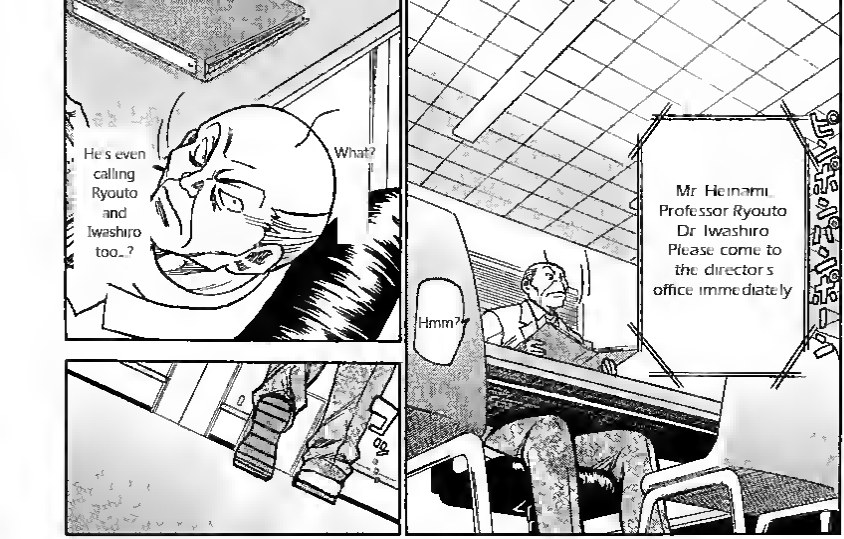
I thought for sure that we had finally hired a cleaning company...
Well, I'm sure that he couldn't find any grounds for the misdiagnosis, so he's probably just trying to suck up to the professor—
ehh!?



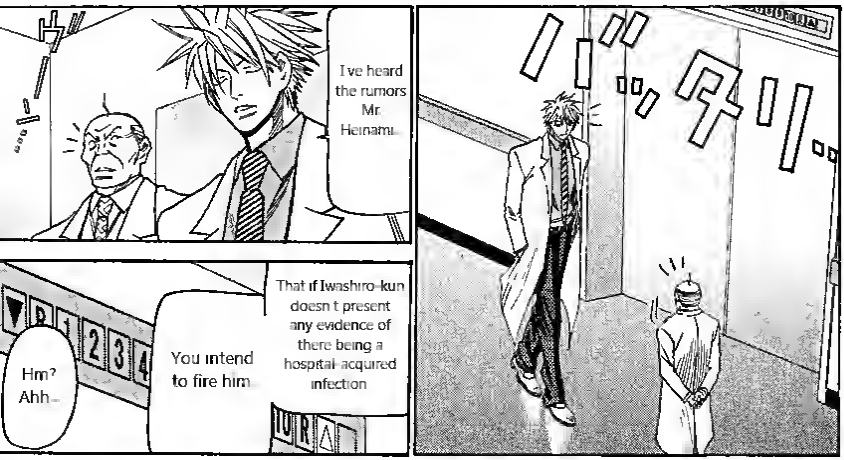
Hmph
Ahh, it seems that he hasn't come in yet...
Does anyone know where Iwashiro is?
Well, he basically comes in from the evening and stays through the night as the supervisor for night examinations
He comes in just as I leave so it can't be helped that we don't meet up much...

Yes!! Understood!!
If anyone sees Iwashiro, tell him to come to me.
It's about time I get him to show me evidence of my misdiagnosis or it could be troublesome...
!!

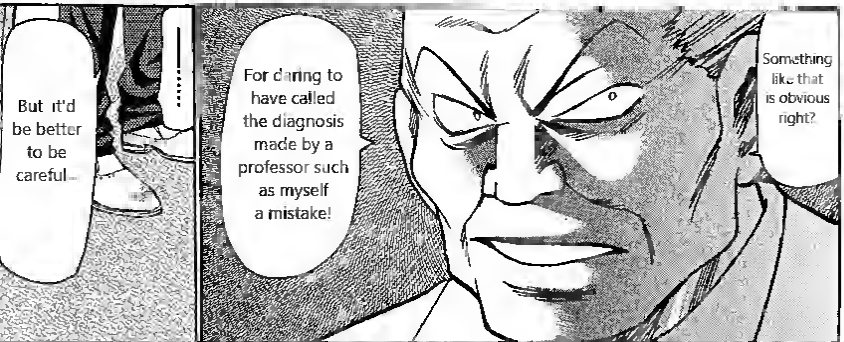




He's even calling Ryouto and Iwashiro too..?
What?
Mr. Heinami, Professor Ryouto Dr. Iwashiro Please come to the director's office immediately
Hmm?



I've heard the rumors Mr. Heinami...
That if Iwashiro-kun doesn't present any evidence of there being a hospital-acquired infection
You intend to fire him...
Hm? Ahh...



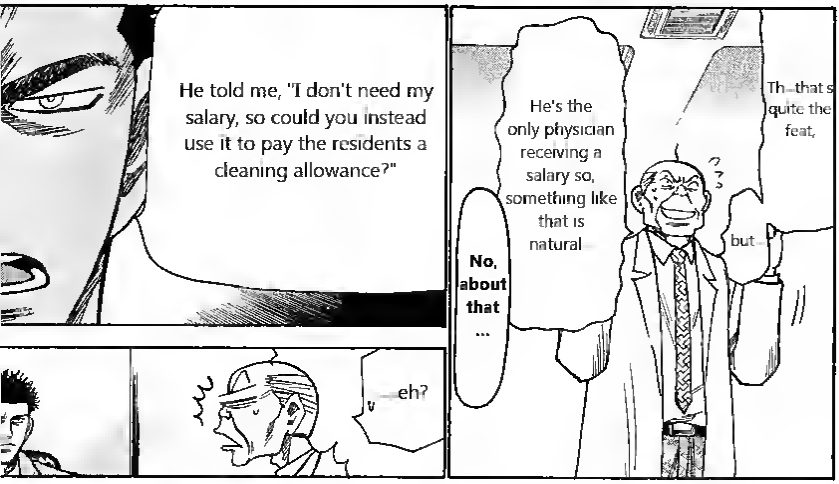
Something like that is obvious right?
For daring to have called the diagnosis made by a professor such as myself a mistake!
But it'd be better to be careful...

Because since he was in R.E.D., he was the type of person who could pull off doing what seemed to be impossible.
Wh... what's that supposed to mean?
Well, we've reached our destination, Mr. Heinami.

Please excuse us.
Where's Iwashiro...?
Ahh it seems that he hasn't come to the hospital yet.

I see.
Have you two also... noticed how the inside of the hospital has been nicely cleaned,
And how you don't see cockroaches anymore?
Well, yes...

It seems that during the night practice, Iwashiro has been cleaning the hospital and exterminating cockroaches on his own.
I knew it
.....!!

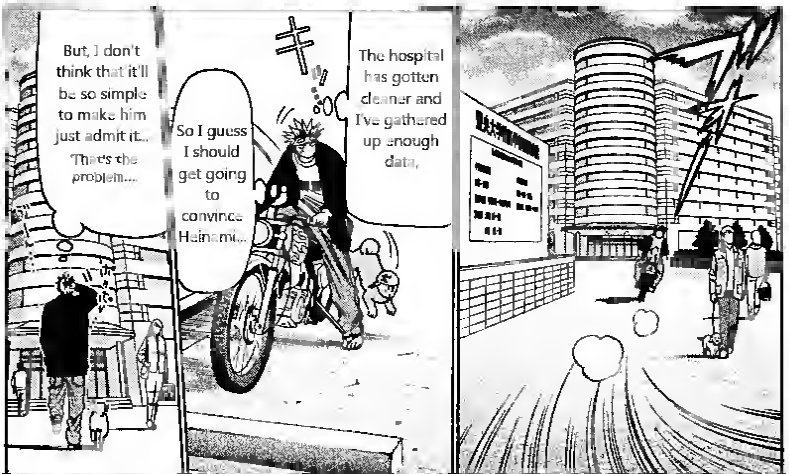


He told me, "I don't need my salary, so could you instead use it to pay the residents a cleaning allowance?"
eh?
No, about that ...
He's the only physician receiving a salary so, something like that is natural.
Th-that's quite the feat, but...

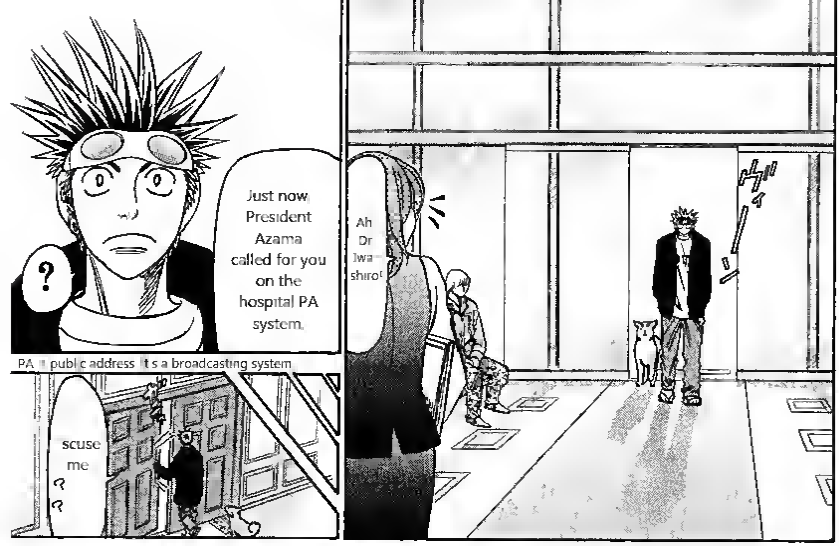
So truthfully, I did a lot of investigating and
I was interested in figuring out why he was so obsessed with cleaning

These are the test results for the recently hospitalized patients that have had acute gastritis.
Take a look at it for a bit
Wha...!

Th...that's impossible



But, I don't think that it'll be so simple to make him just admit it... That's the problem....
So I guess I should get going to convince Hainami...
The hospital has gotten cleaner and I've gathered up enough data,



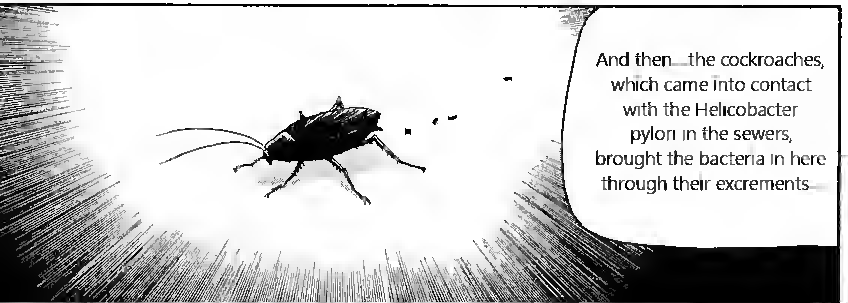
Just now, President Azama called for you on the hospital PA system.
?
Ah Dr Iwashiro!
PA = public address = a broadcasting system
scuse me
? ?

Oh
You've come, Iwashiro.
Sorry for making you wait.
? ? ?
.....

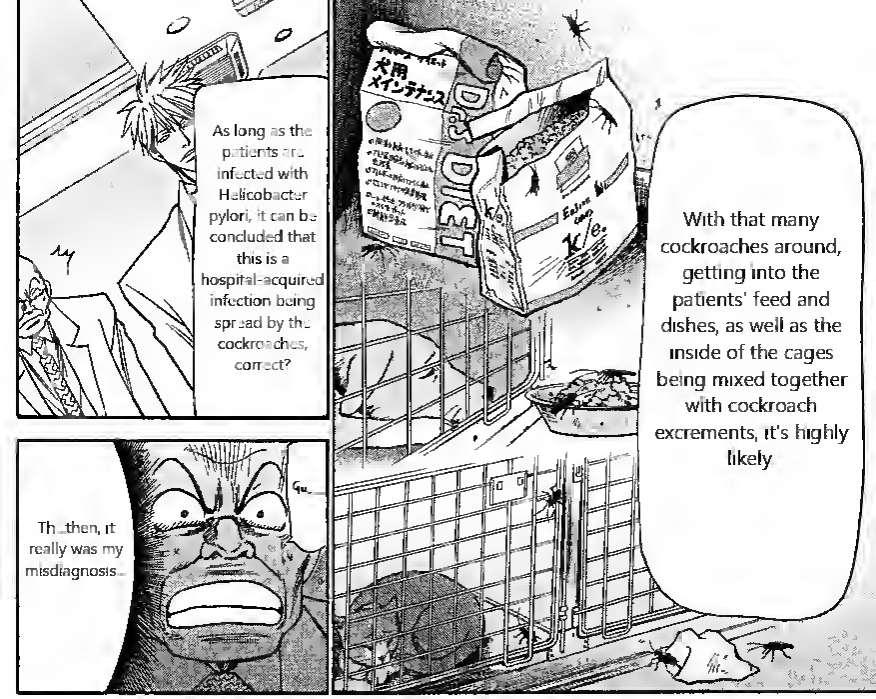
Eh?
?
Thank you
Thanks to you, we found it.
That in our hospital ...

A hospital-acquired infection carried by cockroaches was spreading!
!!
Just from this simple fact, it's obvious that the cockroaches were the cause of the hospital-acquired infections!
H-however, mpres-ident...
Once the cockroaches in the hospital disappeared, not one of the hospitalized patients got acute gastritis...
However, when there were a lot of cockroaches scurrying about, the hospitalized patients from then still have the acute gastritis...
This hospital has only recently gotten cleaner!
If we don't spend a bit more time acquiring data, we won't really know if the true cause of the acute gastritis really was the cockroaches...

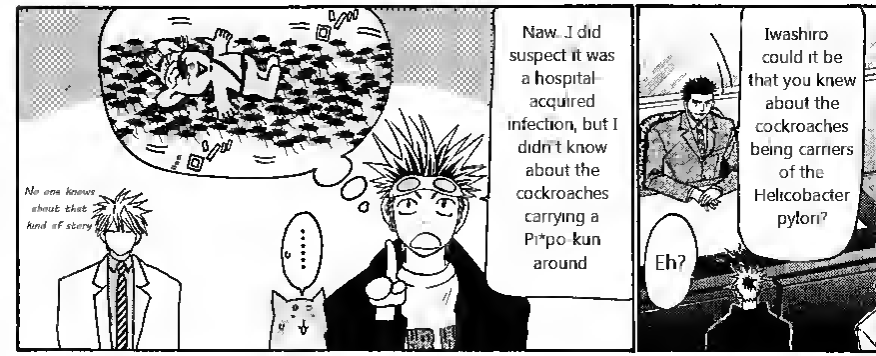
Infected with Helicobacter pylori!
No...it's likely the cockroaches...
Because the patients with the actue gastritis that the president tested were...
In truth, he doesn't know
Eh...ah... well...that is...
You are aware that recent studies have shown that cockroaches have a very high chance of being an intermediary for Helicobacter pylori, right?
It can cause chronic gastritis acute gastritis, gastric ulcers and even gastric cancers...
Helicobacter pylori doesn't only infect dogs and cats, but it can also infect humans



And then...the cockroaches, which came into contact with the Helicobacter pylori in the sewers, brought the bacteria in here through their excrements...



As long as the patients are infected with Helicobacter pylori, it can be concluded that this is a hospital-acquired infection being spread by the cockroaches, correct?
With that many cockroaches around, getting into the patients' feed and dishes, as well as the inside of the cages being mixed together with cockroach excrements, it's highly likely
Th...then, it really was my misdiagnosis...
Gu...

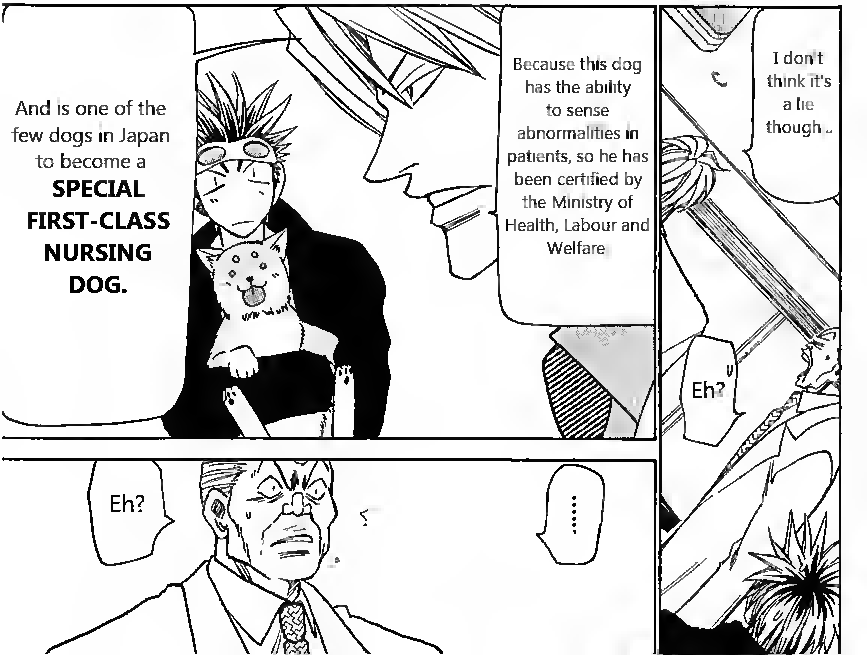


No one knows about that kind of story...
Naw...I did suspect it was a hospital-acquired infection, but I didn't know about the cockroaches carrying a Pi*po-kun around
Iwashiro could it be that you knew about the cockroaches being carriers of the Helicobacter pylori?
Eh?

Then why did you think that the cockroaches were the cause of the hospital-acquired infection?
Ahh, that's because...

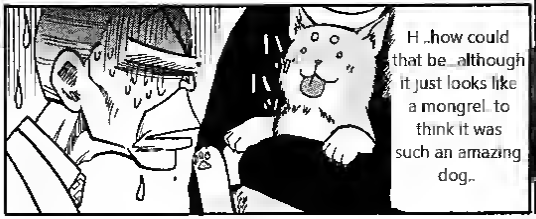
To know if Dog's intuition was right or not, I had to exterminate all the cockroaches first to see, right?
This guy barked and told me about it!
Wau!
There's no way we'd believe a lie like that!!
In the first place, even though I told you not to, you brought your dog again, didn't you!!
D don't mess around!

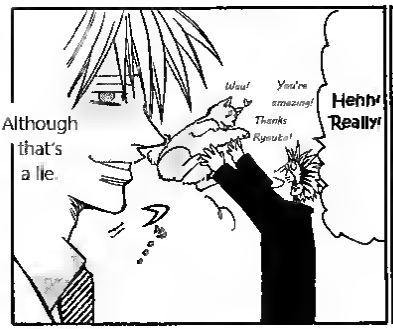
T/N: Dog 1 Heinamr 0

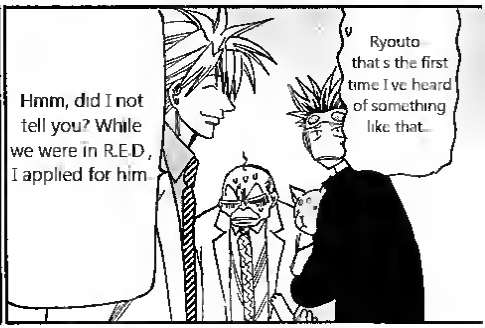


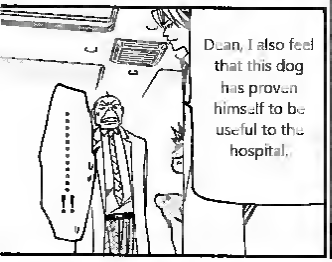
And is one of the few dogs in Japan to become a **SPECIAL FIRST-CLASS NURSING DOG.**
Because this dog has the ability to sense abnormalities in patients, so he has been certified by the Ministry of Health, Labour and Welfare.
I don't think it's a lie though...
Eh?
Eh?
.....

Background: Smiley



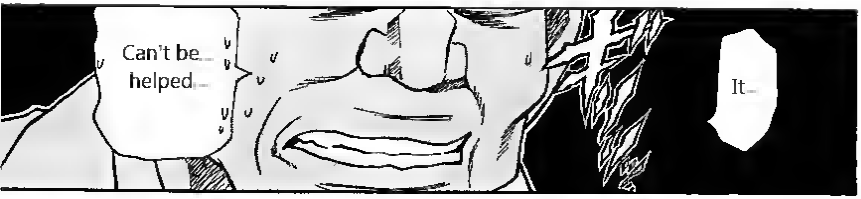




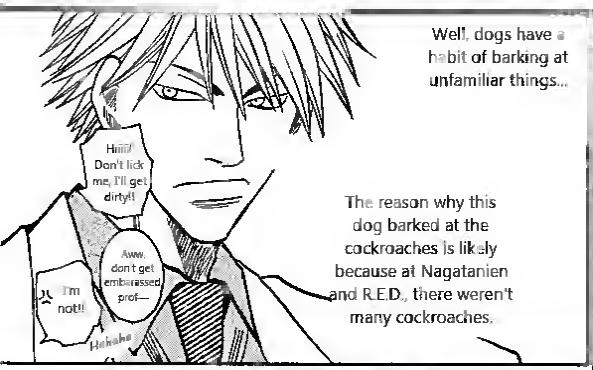


Dean, I also feel that this dog has proven himself to be useful to the hospital.
!!

Could you let me bring him with me here...



Can't be... helped...
It...

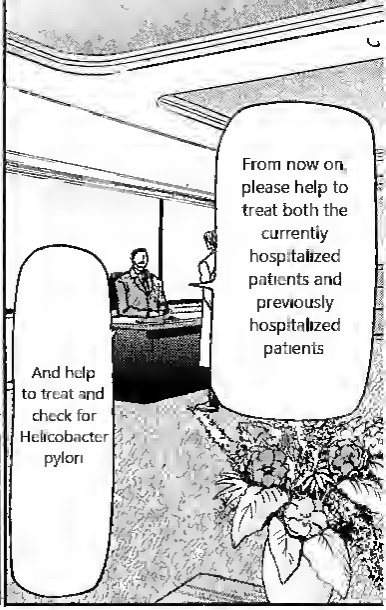


Well, dogs have a habit of barking at unfamiliar things...
Him! Don't lick me, I'll get dirty!!
Aww, don't get embarrassed, prof—
I'm not!!
Hahaha
The reason why this dog barked at the cockroaches is likely because at Nagatanien and R.E.D., there weren't many cockroaches.

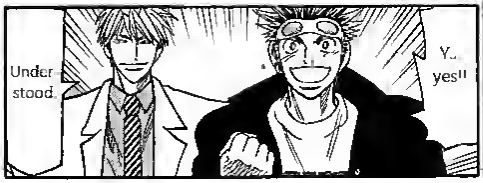
R... really! Thanks!!
Wau!
H... hey...

Ryouto—Iwashiro— I have a request to make of the two of you—

I'll hav_ the both of you in charge of that.

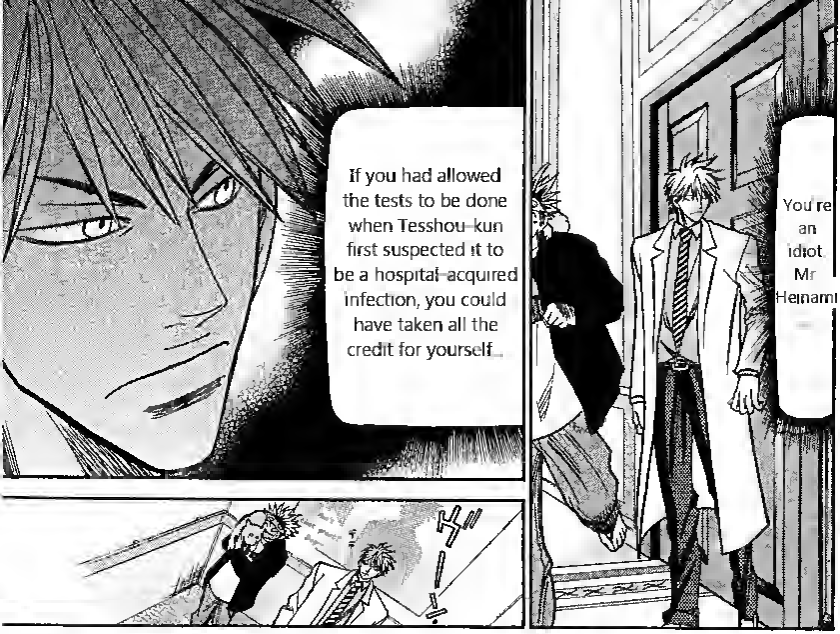


From now on, please help to treat both the currently hospitalized patients and previously hospitalized patients
And help to treat and check for Helicobacter pylori

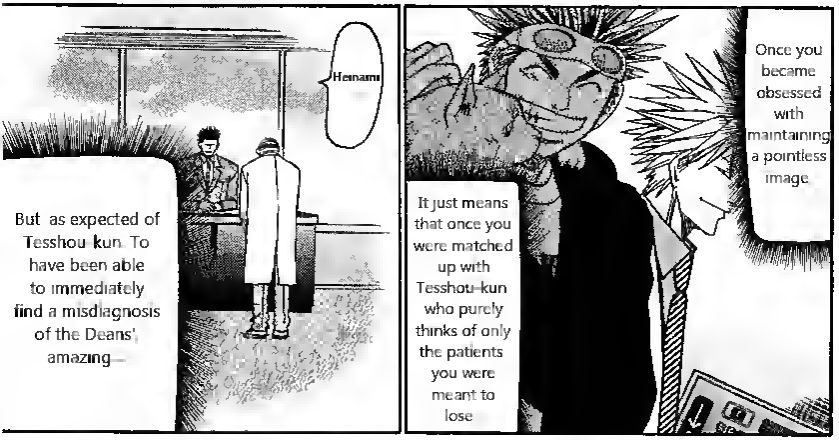


Under stood.
Y_ yes!!

Then, please get to that immediately! You two may go.
Yes!!
That's great...
I was able to...save them...!



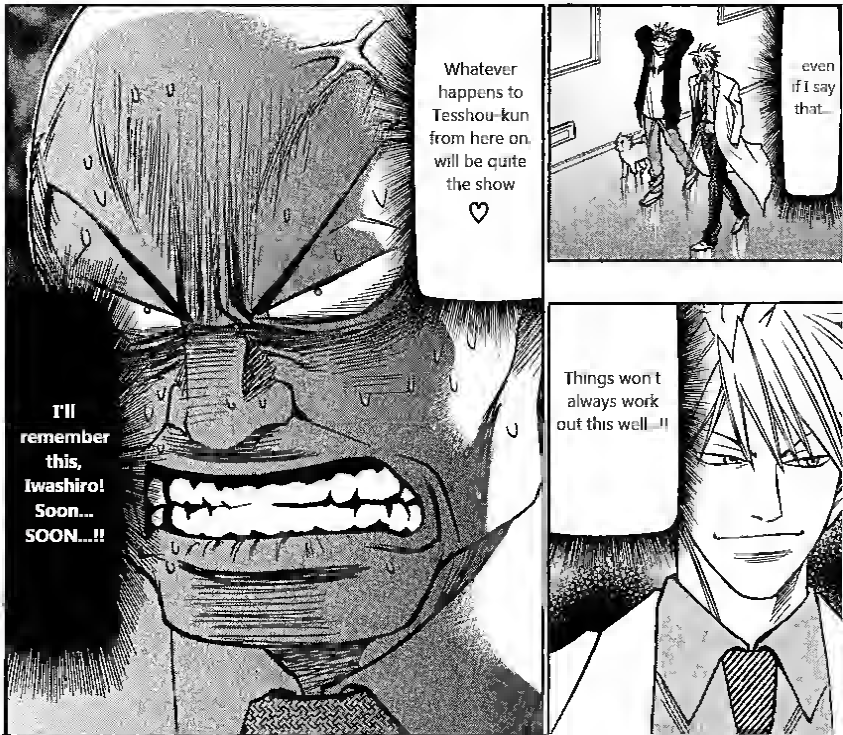
If you had allowed the tests to be done when Tesshou-kun first suspected it to be a hospital-acquired infection, you could have taken all the credit for yourself...
You're an idiot Mr Heinami...



Heinami...
But as expected of Tesshou-kun. To have been able to immediately find a misdiagnosis of the Deans' amazing...
It just means that once you were matched up with Tesshou-kun who purely thinks of only the patients you were meant to lose
Once you became obsessed with maintaining a pointless image

I don't intend on disposing of you alone...
This time's miss was unseen by the whole hospital.
Y yes...

But, I will not forgive this a second time! Keep that in mind!!
I...am very.... sorry...!



Whatever happens to Tesshou-kun from here on, will be quite the show ♡
I'll remember this, Iwashiro! Soon... SOON...!!
...even if I say that...
Things won't always work out this well...!!

I hope you enjoyed the chapter!!

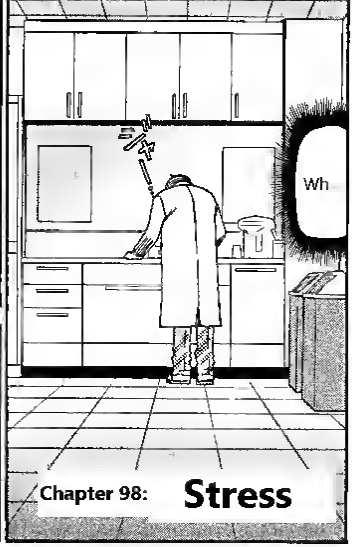
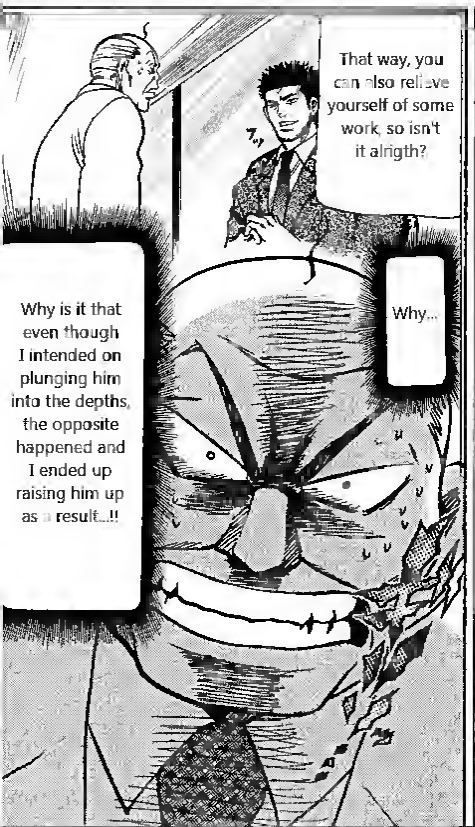
...why...
ミシ
ボ
ミシ
ボ

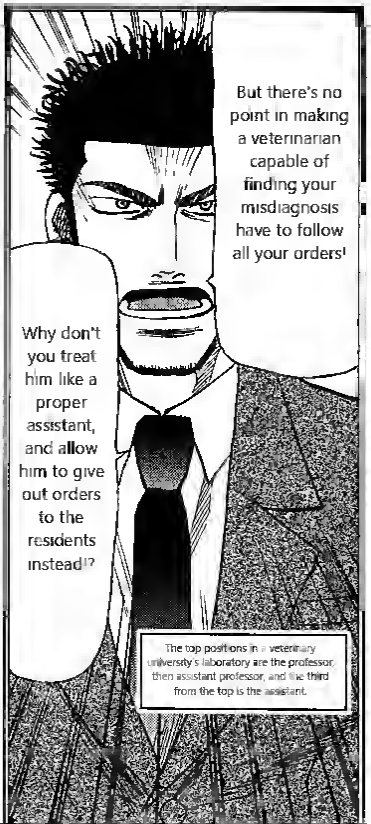
It seems that you're having Iwashiro come to you to ask for directions over every little thing...
Heinami about the clinical examinations



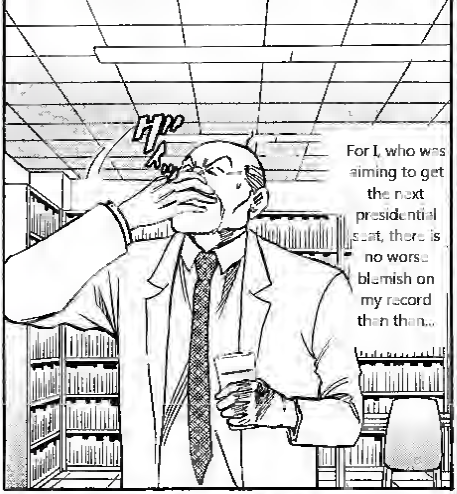
Wh
Chapter 98: Stress

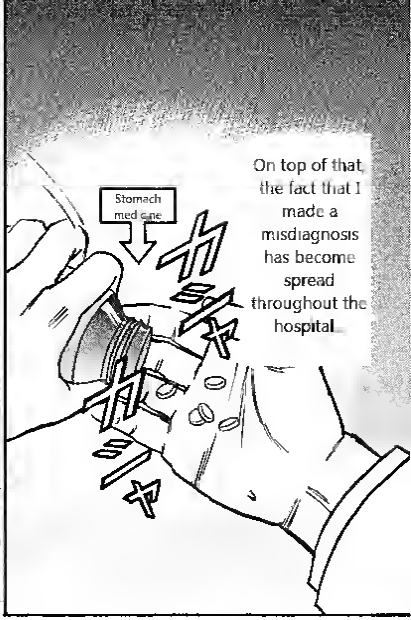


That way, you can also relieve yourself of some work, so isn't it alright?
Why...
Why is it that even though I intended on plunging him into the depths, the opposite happened and I ended up raising him up as a result...!!

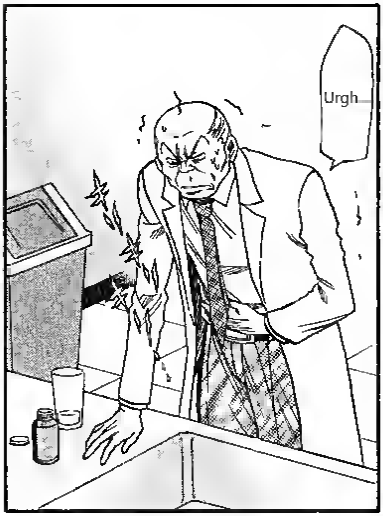


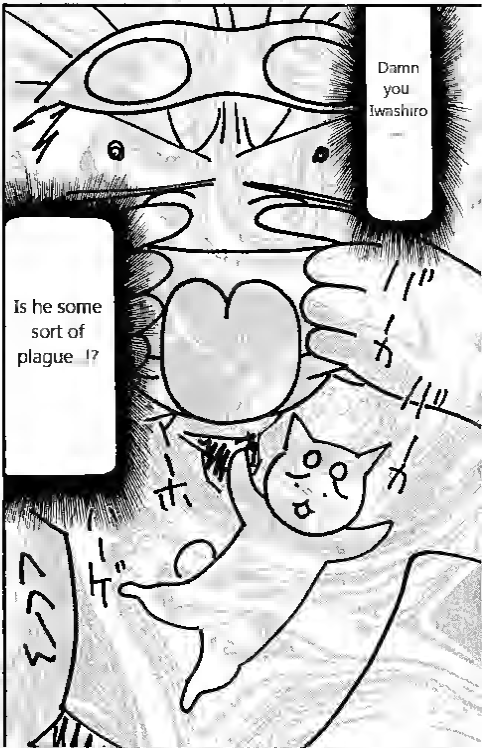
But there's no point in making a veterinarian capable of finding your misdiagnosis have to follow all your orders!
Why don't you treat him like a proper assistant, and allow him to give out orders to the residents instead!?
The top positions in a veterinary university's laboratory are the professor, then assistant professor, and the third from the top is the assistant.



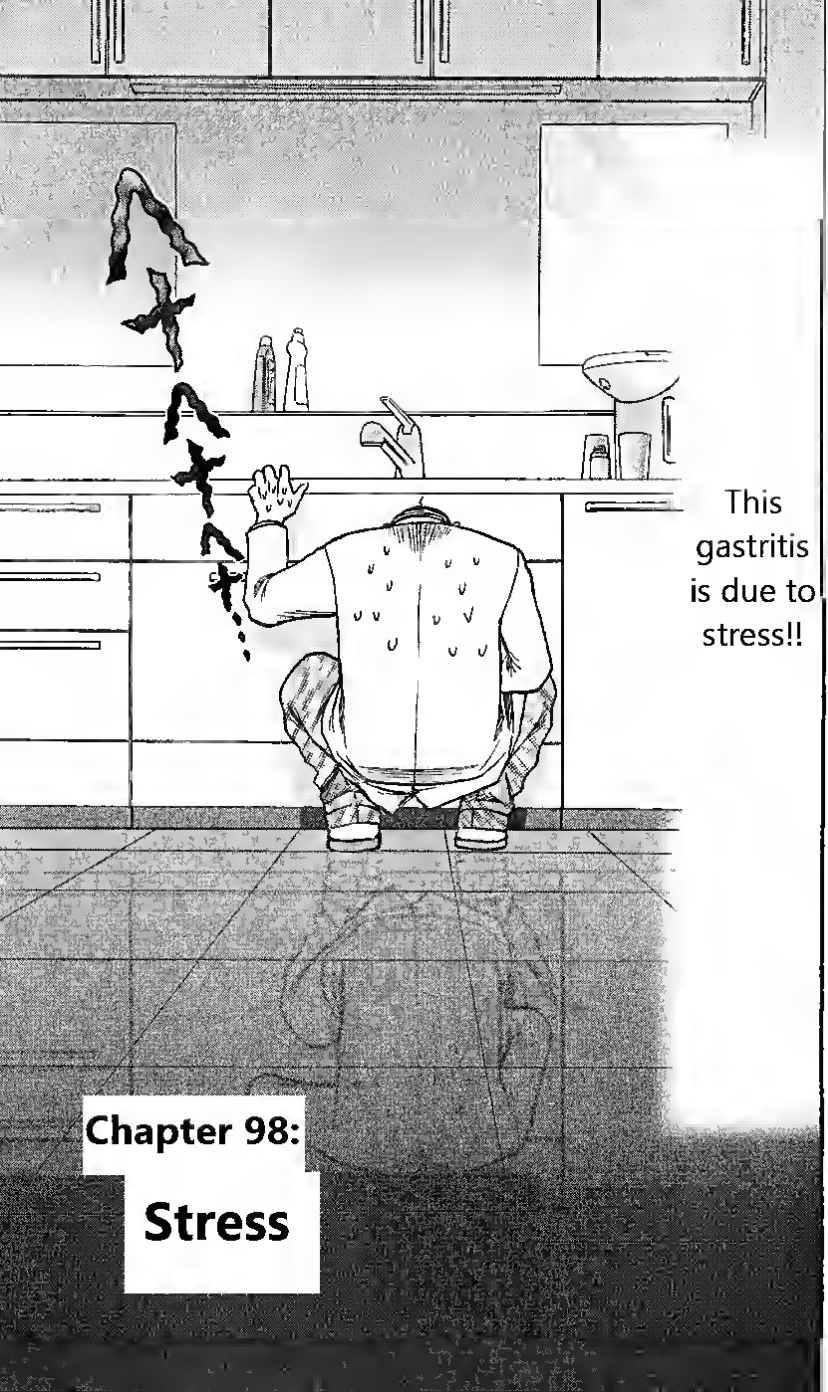


In background: Idiot (x2), moron, baldy, hehe



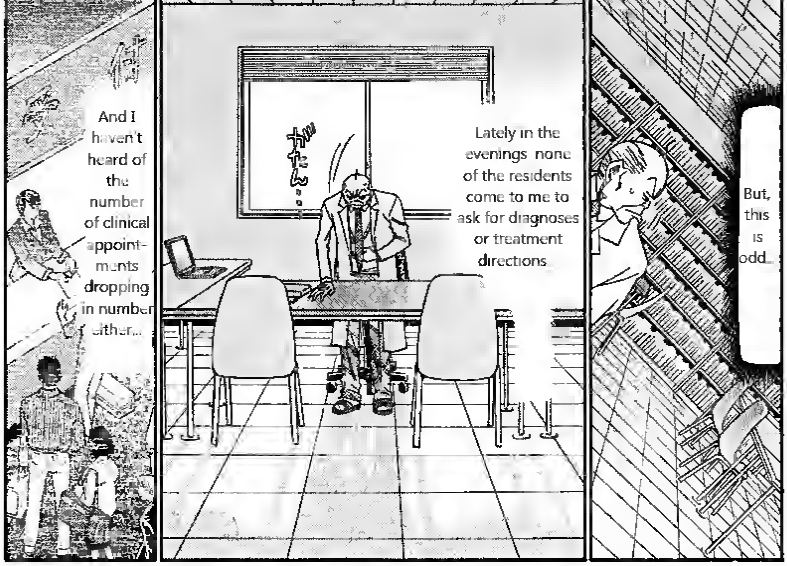


2

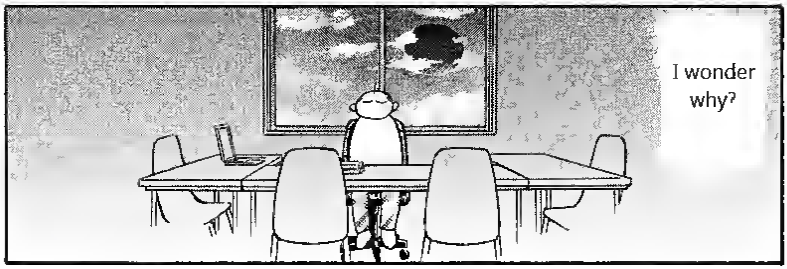


Chapter 98:

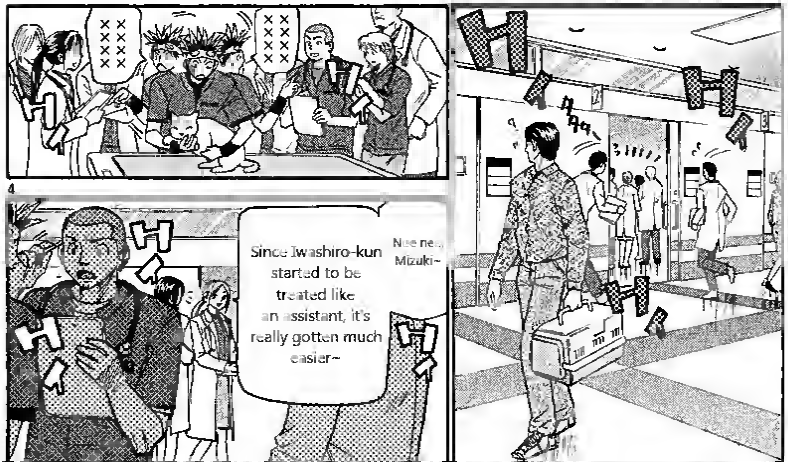
Stress



And I haven't heard of the number of clinical appointments dropping in number either...
Lately in the evenings none of the residents come to me to ask for diagnoses or treatment directions.
But, this is odd...

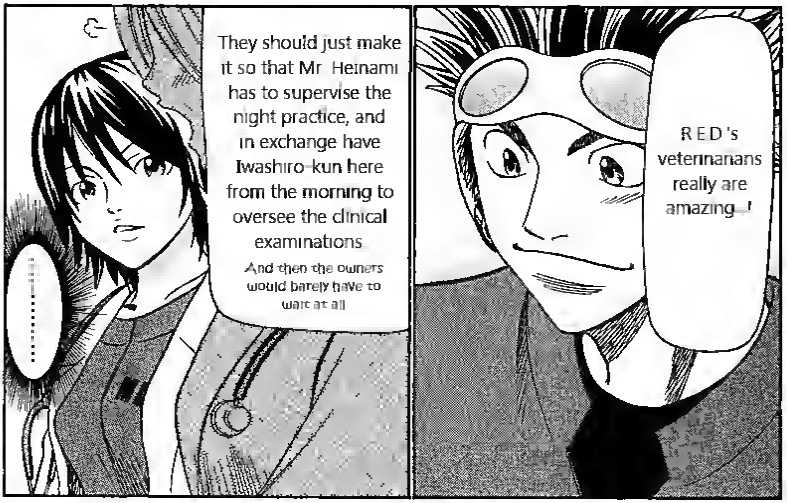


I wonder why?



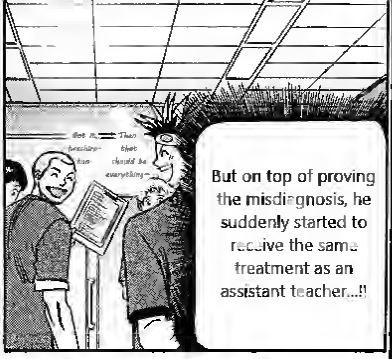
Since Iwashiro-kun started to be treated like an assistant, it's really gotten much easier~
Nice new, Mizuki~

Mr Heinami usually disappears really quickly and
All the other teachers are the same too right?
Having to go around looking for the teachers for every single thing
And being forced to make the owners wait as a result, was really annoying—
On top of that, Iwashiro-kun is super fast and gives out accurate diagnoses and treatment orders!

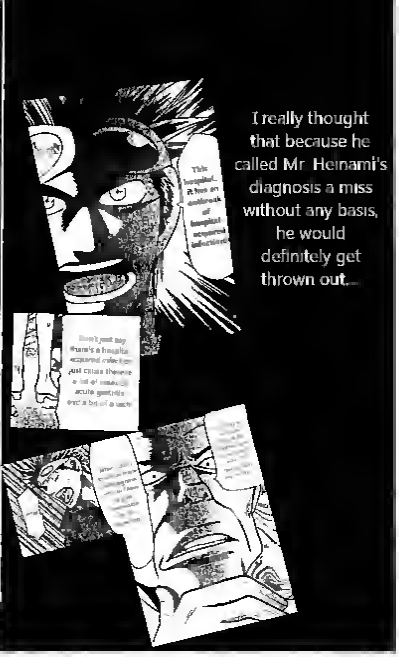


RED's veterinarians really are amazing...!
They should just make it so that Mr. Heinami has to supervise the night practice, and in exchange have Iwashiro-kun here from the morning to oversee the clinical examinations
And then the owners would barely have to wait at all
.....

I'm pretty surprised



But on top of proving the misdiagnosis, he suddenly started to receive the same treatment as an assistant teacher...!!

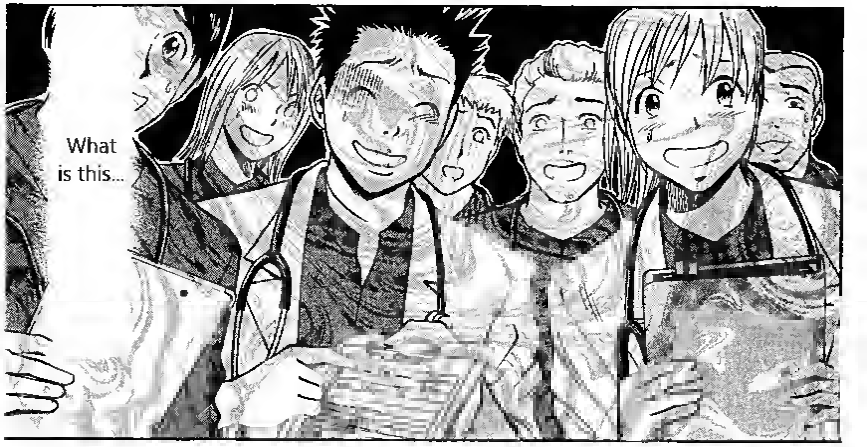


I really thought that because he called Mr. Heinami's diagnosis a miss without any basis, he would definitely get thrown out...

Ahh, for this—
Um
Iwashiro-kun might be a more amazing person than I originally thought

Everyone in the surgical department's first laboratory has also come to completely trust him too
Ah

D...
Dean
Ah...um... about the patient in the third examination room—

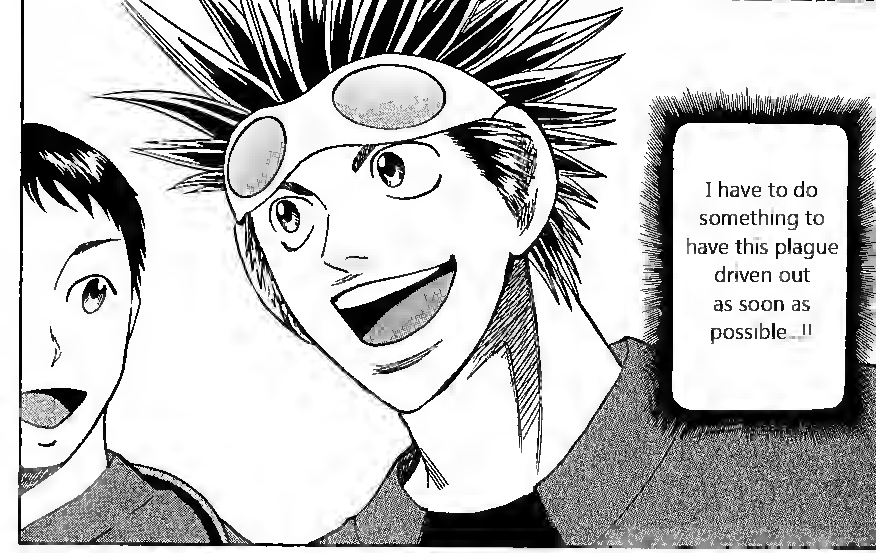


What is this...

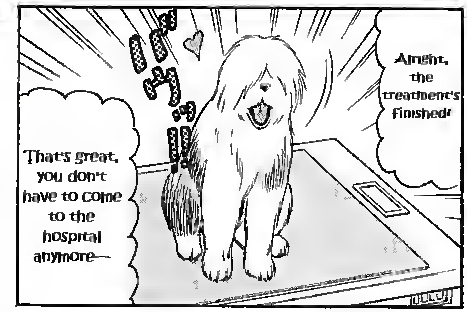
...but even so...
It might be true that I made a misdiagnosis...
ONE
ワンで!
Are all the residents Iwashiro's supporters?

It s stress
Ugh ...
Wh... what s the matter!?
Does this mean that you guys like Iwashiro more than meeeee!?
Sorry, but could I rest a little over there?
Ah yea
Hm?

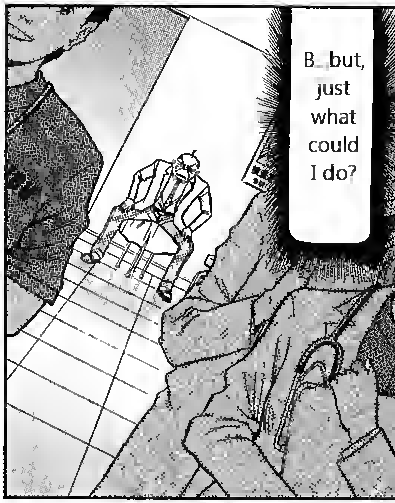
Hey you, wait a second!
Ah... me?
Aren't you a resident from internal medicine!
So why are you coming to see Iwashiro!?
Ah... the thing is I can't seem to find our instructors no matter where I look...
Iwashiro-kun has a reputation for also knowing about internal medicine too so I thought I might get some directions from him...
9
Don't joke around!
If this gets out, the image of the professors from internal medicine will crumble and I'll be hung at the faculty meeting and eaten alive!!
I'm... very sorry!!
Y-you idiot!
Why don't you try harder to find the instructors from internal medicine first!!
I have to do something
Th...is is bad.... really... bad....



I have to do something to have this plague driven out as soon as possible...!!



Alright, the treatment's finished!
That's great, you don't have to come to the hospital anymore—



B...but, just what could I do?

Ohh I see!
Iwashiro-kun! This dog is the last of today's clinical appointments

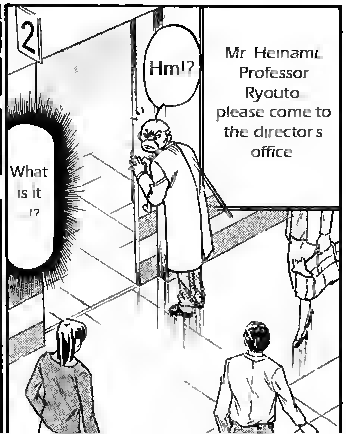
Fuuu

Ah...ahhh... I'm fine with this level of tiredness!

Are you alright...? Are you feeling tired?

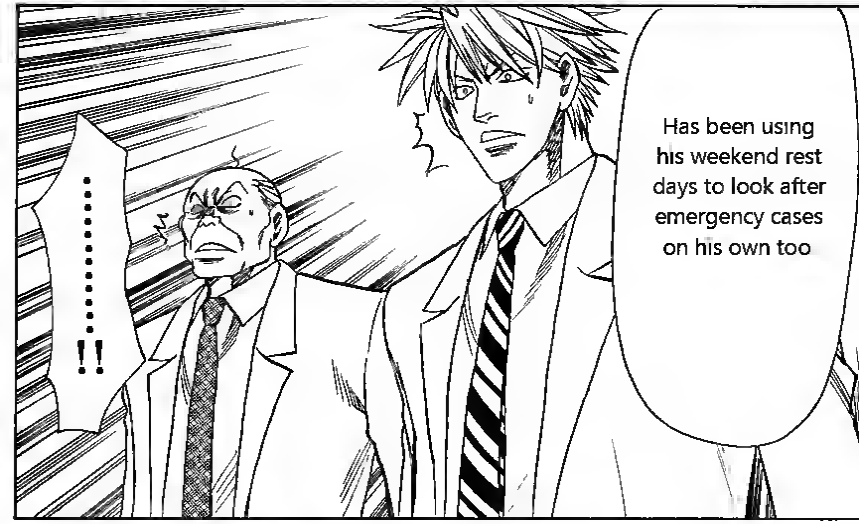
?
Ah okay
Mizuki-san, I'll solve the surgeries to you—
Noooow then, next are the surgeries right?

Please excuse us
Actually...I wanted to get advice from you two about Iwashiro

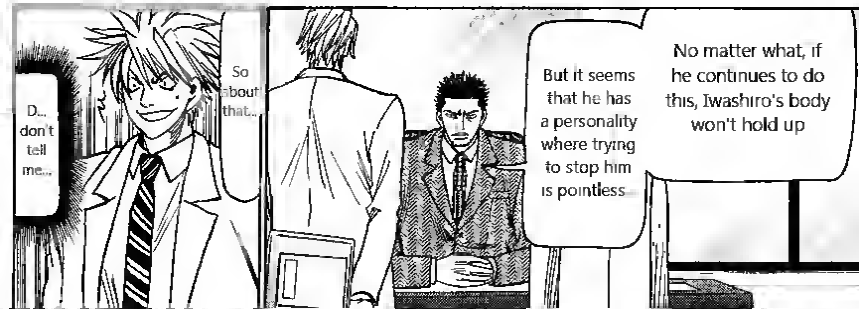


2
Hm!?
Mr. Heinami, Professor Ryouto please come to the director's office
What is it...!?

I would think that just doing all that would be pretty hard, but he...
As you may know, Iwashiro comes in the evenings and takes care of the clinical examinations, and then stays until morning supervising the night practice...
Good morning
Ah, good night.

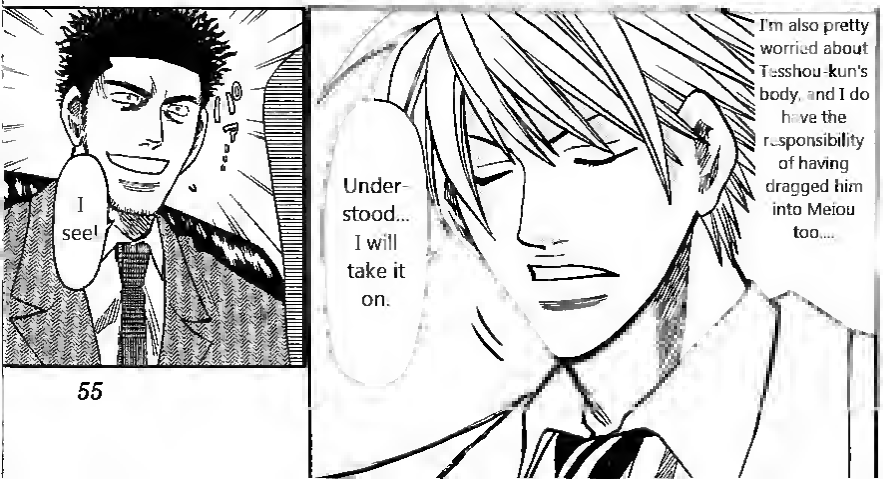


Has been using his weekend rest days to look after emergency cases on his own too
.....!!



D... don't tell me...
So about that...
But it seems that he has a personality where trying to stop him is pointless...
No matter what, if he continues to do this, Iwashiro's body won't hold up

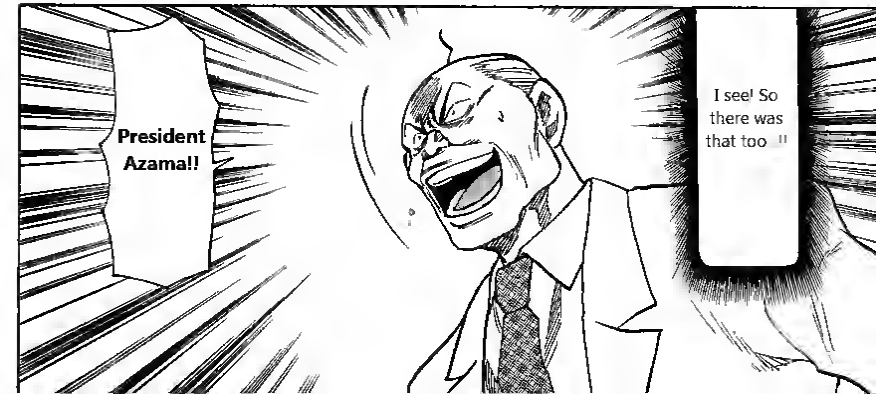
Ryouto, could you take care of part of the nighttime examination supervision?
I... knew it!!
I understand that you're busy with professor work too, so just one night a week is fine.
Naturally, there will be extra pay.
.....
...I don't really want to but it can't be helped.



I'm also pretty worried about Tesshou-kun's body, and I do have the responsibility of having dragged him into Meiou too....
Understood... I will take it on.
I see!

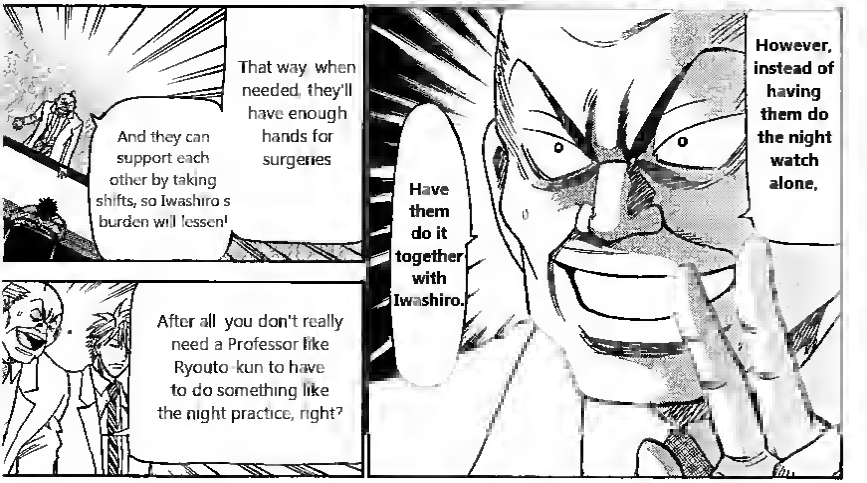
Therefore, Helnami...could you choose someone from amongst the assistant professors or assistants in your surgical department's first laboratory
And ask them to help out with the night practice? Just once a week is fine.
But with only one night off, his burden is still too large...
.....
!!

Hm? Wait...
Why do I have to help out that plague...
D...don't joke around!



President Azama!!
I see! So there was that too...!!

If we're going to do that, then instead of having Professor Ryouto do the night practice.
Why don't we just have someone from my laboratory help out 3 times a week?
.....!?



However, instead of having them do the night watch alone,
Have them do it together with Iwashiro.
That way, when needed, they'll have enough hands for surgeries
And they can support each other by taking shifts, so Iwashiro's burden will lessen!
After all, you don't really need a Professor like Ryouto-kun to have to do something like the night practice, right?

.....

President, I really don't mind doing a single night of night practice supervision
...No, Heinami's idea isn't bad...
And truthfully, I was also a bit hesitant about having to ask you do it.
Alright I'll leave it to you Heinami
Understood!
Sign: Surgical Department's First Laboratory
外科学
第一研究室
16
Just what is he planning...?
Ku ku ku...
He fell for it, that Azama...

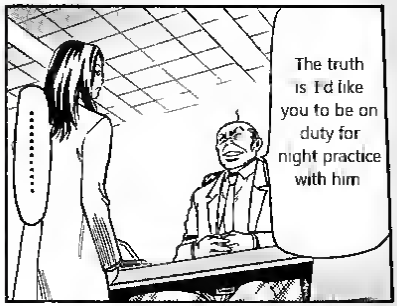
With this, he'll soon likely make a miss due to fatigue or his body will break down and then he'll disappear from Meiou..
Even if they are on duty with Iwashiro, if they don't help out at all with the work, then his burden won't lessen at all!

What a wonderful idea...!!

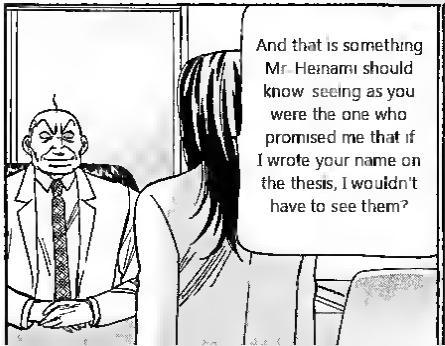
Ahh, sorry for calling you when you're so busy...
You called? Dean
All that's left is to have **that woman** take on the night practice, and everything will be perfect!

Due to your work hours being different, you still haven't met him, but.
Have you heard of the physician Tesshou Iwashiro?

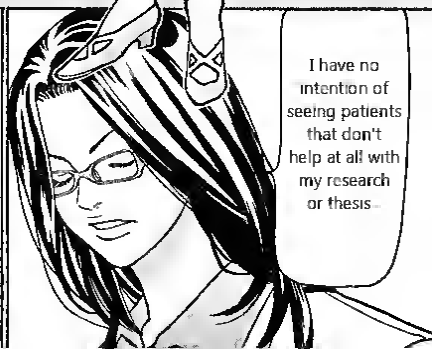
Assistant Professor Kuroki...



The truth is I'd like you to be on duty for night practice with him
.....



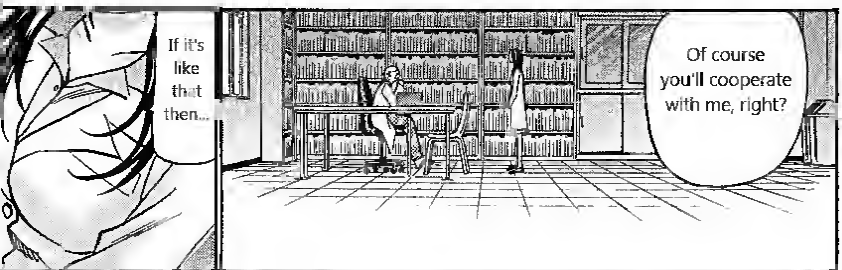
And that is something Mr. Heinami should know seeing as you were the one who promised me that if I wrote your name on the thesis, I wouldn't have to see them?



I have no intention of seeing patients that don't help at all with my research or thesis.

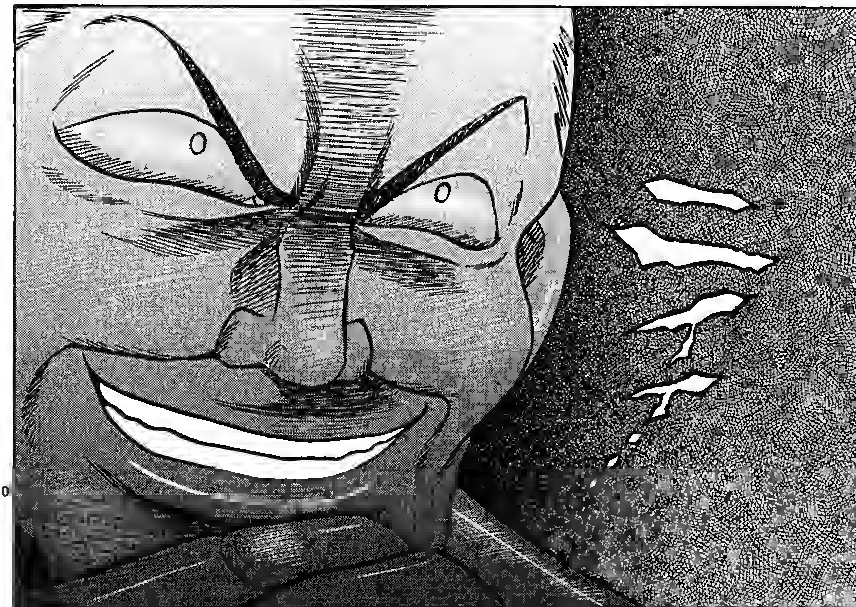
Please don't misunderstand
Even if you are on duty, I don't mind if you push all of the patients onto Iwashiro
It's alright to write the thesis as long as you like
On the other hand, if you can increase Iwashiro's burden, it'd be good if you did so as much as possible
.....?

As you may know, Iwashiro is a man that Azama brought into Meiou
If he makes a mistake, then Azama's image will also drop—
And then, I will become president in Azama's place, and the seat of professor in the surgical department's first laboratory will be open..
And you can then become a professor...!



Of course you'll cooperate with me, right?
If it's like that then....

Gladly.



I hope you enjoyed the chapter!!

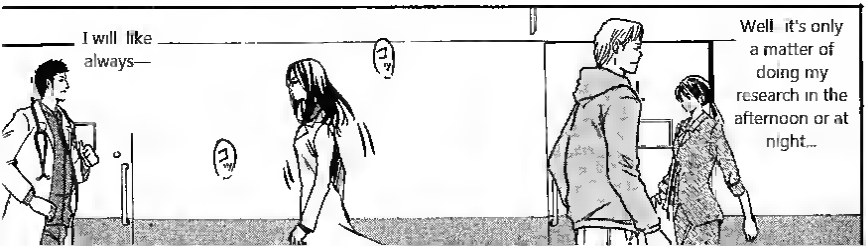
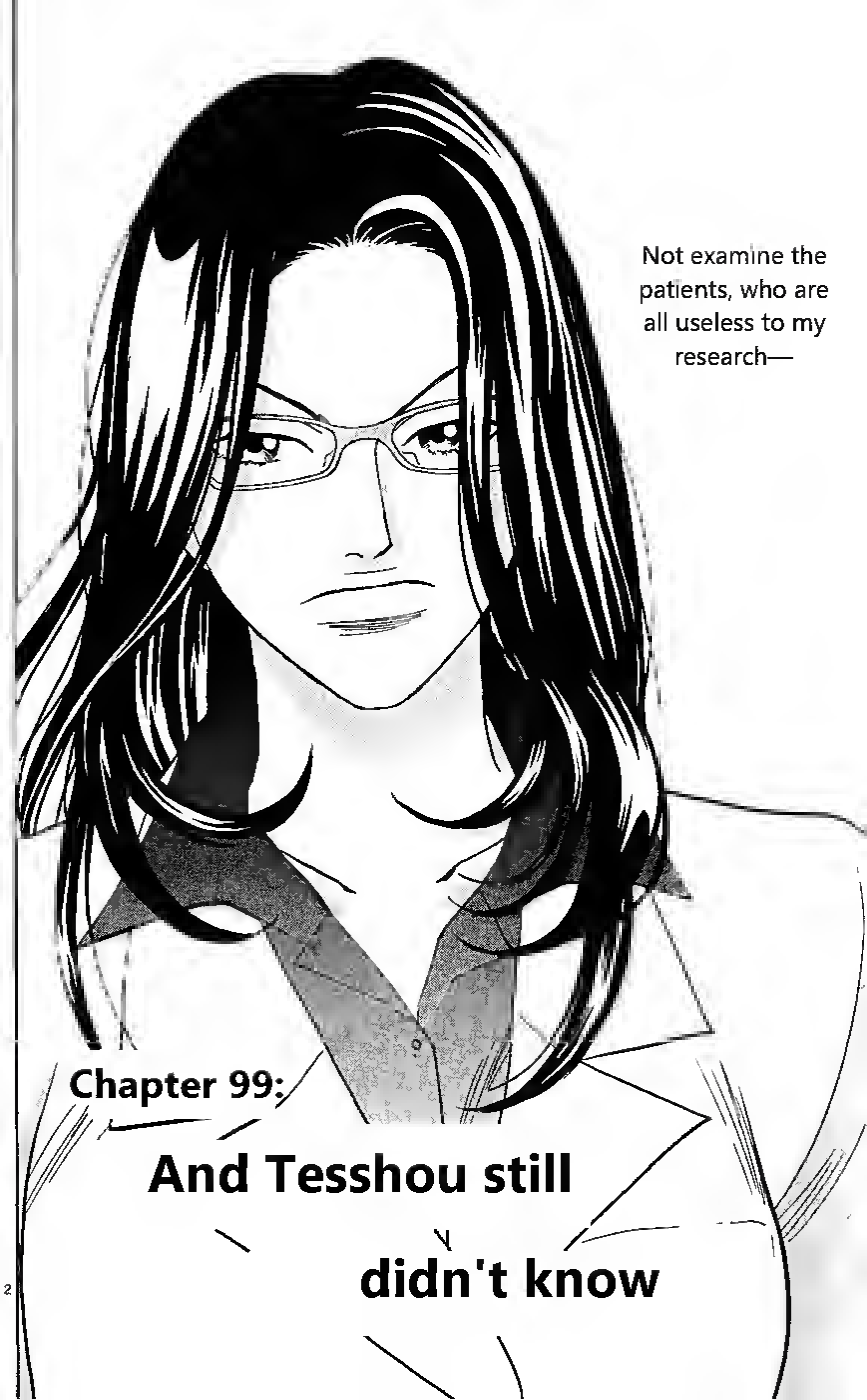
And then, I've become promoted to Asami's ace and the second professor in the surgical department. First shooting star like yours.
And you can have become a professor!!

Chapter 99:

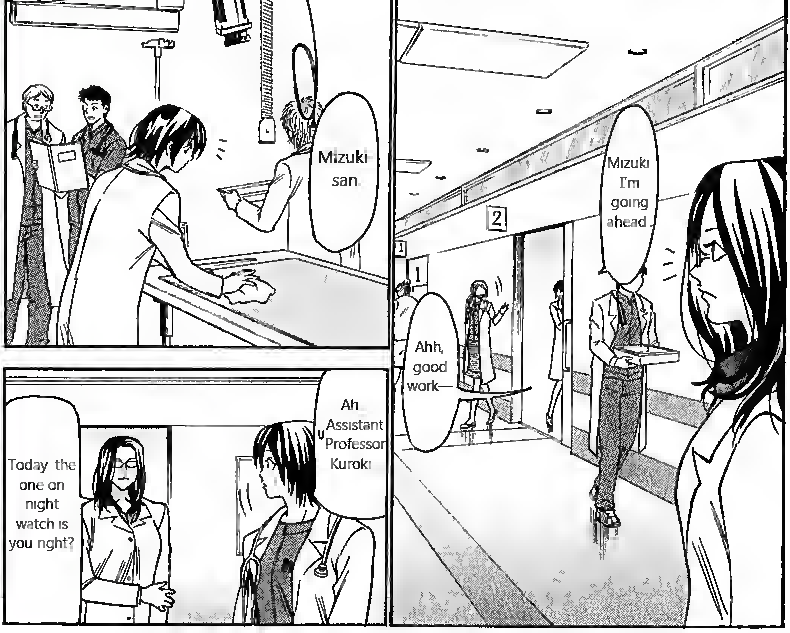
And Tesshou still didn't know





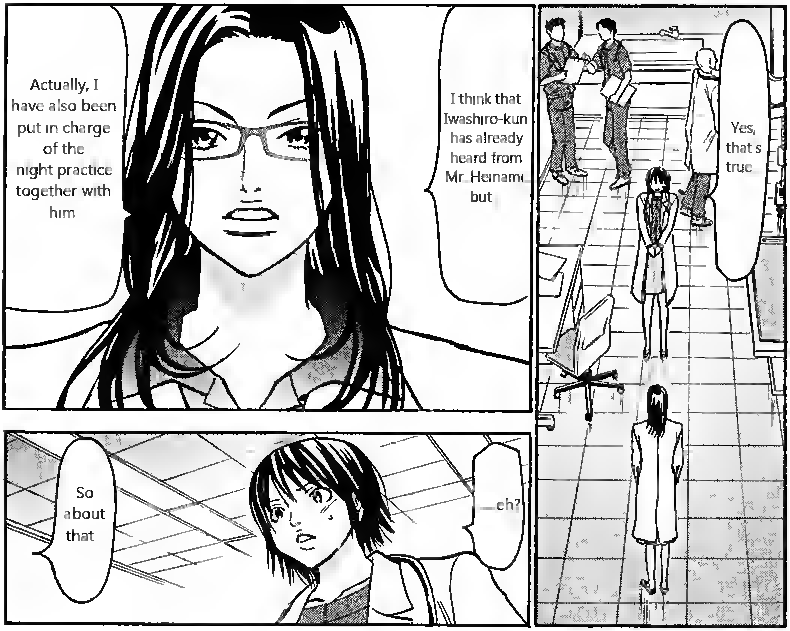
Chapter 99:

And Tesshou still didn't know



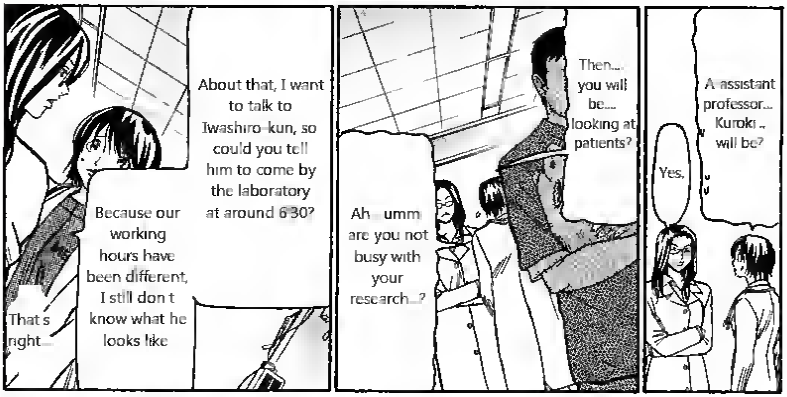
Mizuki san
Mizuki I'm going ahead
Ahh, good work—
Ah Assistant Professor Kuroki
Today the one on night watch is you right?

3

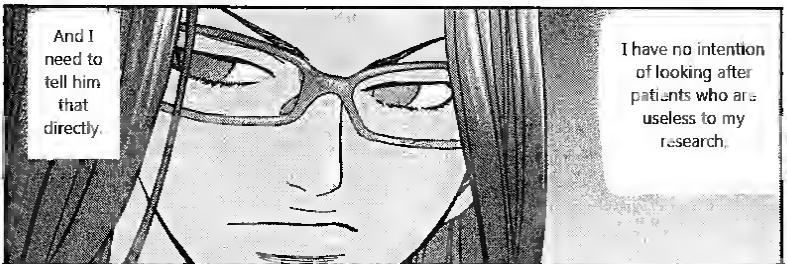


Actually, I have also been put in charge of the night practice together with him
I think that Iwashiro-kun has already heard from Mr. Heinami but
Yes, that's true
So about that
...ch?

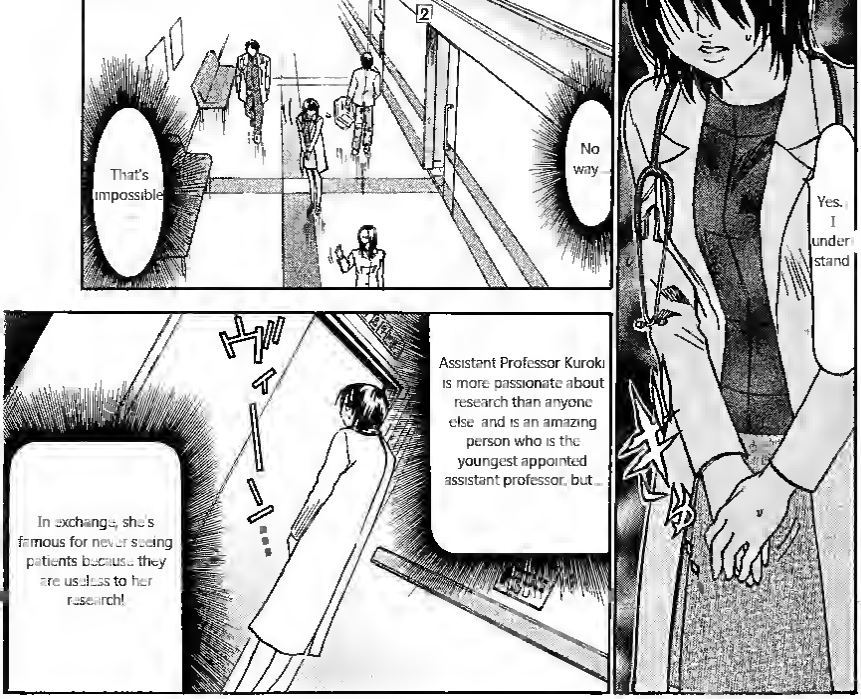
Tonight, I'll also be on night watch, so see you then



That's right...
Because our working hours have been different, I still don't know what he looks like
About that, I want to talk to Iwashiro-kun, so could you tell him to come by the laboratory at around 6:30?
Ah... umm... are you not busy with your research...?
Then... you will be... looking at patients?
A assistant professor... Kuroki... will be?
Yes.



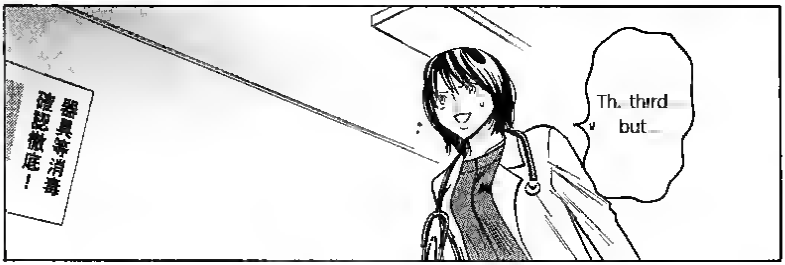
And I need to tell him that directly.
I have no intention of looking after patients who are useless to my research.



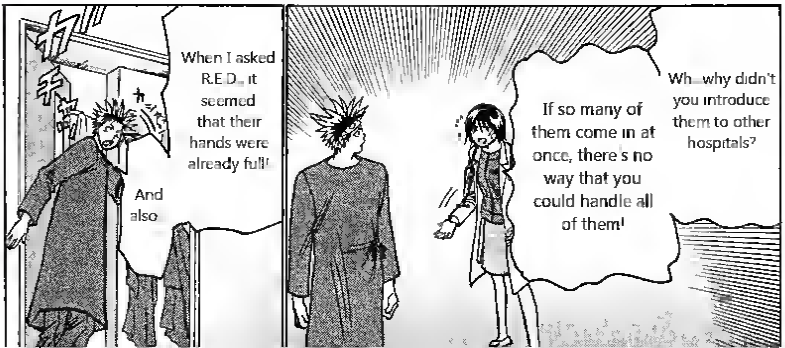
2
That's impossible
No way
Yes, I understand
Assistant Professor Kuroki is more passionate about research than anyone else and is an amazing person who is the youngest appointed assistant professor, but...
In exchange, she's famous for never seeing patients because they are useless to her research!

So just why is that kind of person...?
Even when we residents go to ask her for directions on diagnoses or treatments,
She just leaves it all to the professor or assistant teachers, and doesn't do anything...
!?
Understood! In any case, immediately bring him here!

This one's already the third!
Today there's an unusually high number of them!
Yeah!
Iwashiro-kun, was that an emergency case?
He has intestinal obstruction, so I'm gonna go do the surgery right now!
The first patient is already in the treatment room!



器具等消毒確認徹底！
Th... third but...



When I asked R.E.D., it seemed that their hands were already full!
And also
If so many of them come in at once, there's no way that you could handle all of them!
Wh... why didn't you introduce them to other hospitals?

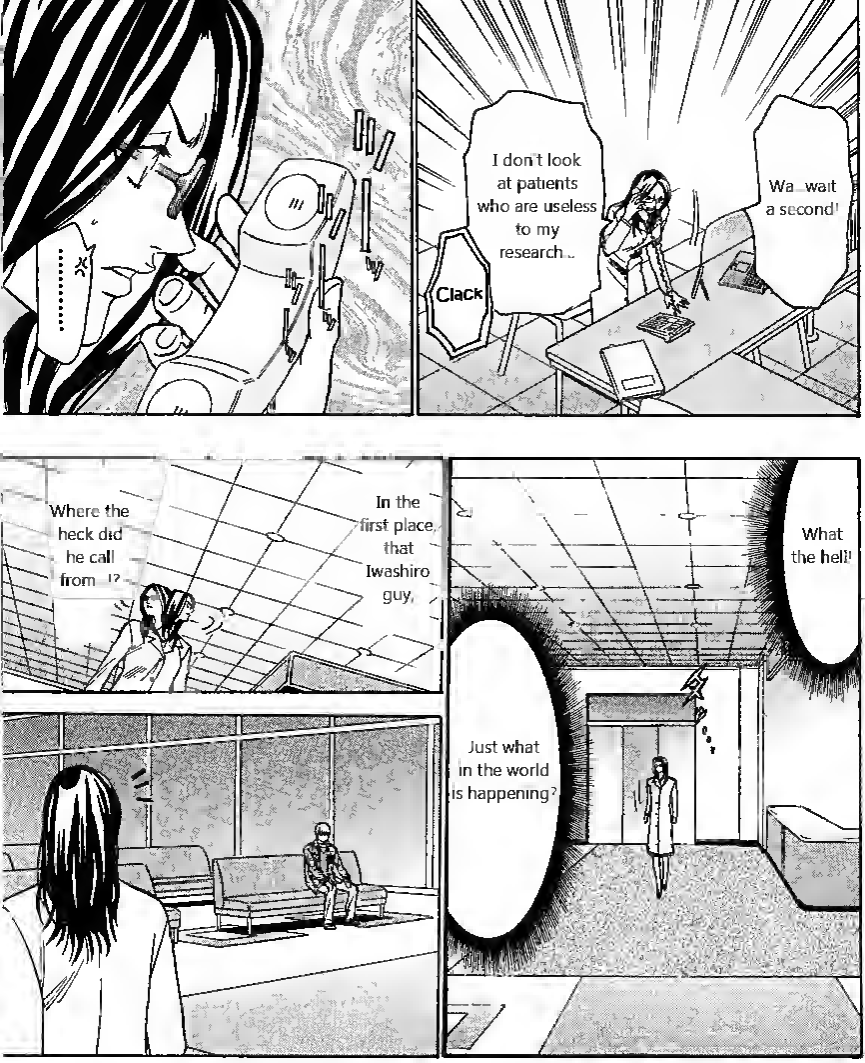
!?
Tonight, a great doctor called Assistant Professor Kuroki is gonna be here right?
That's why it might work out somehow!
The next patient will be coming soon, but the arrival of the third should still take a little longer!

Un- understood!
Anyways let's start the surgery!

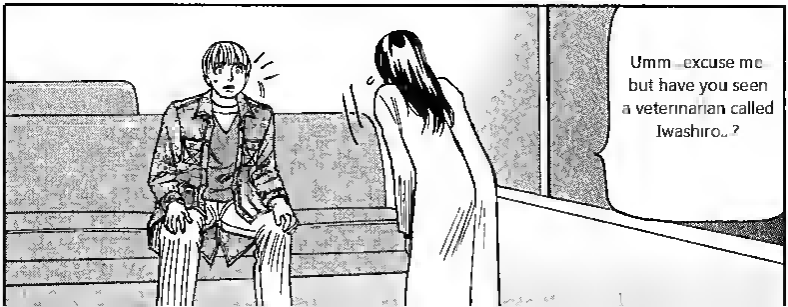
He's way too late...
...he's late...

Just how long does he intend to make me wait?
!?
Yes, this is the surgical department's first laboratory...
Ah, is this Assistant Professor Kuroki? Nice to meet ya. I'm Iwashiro!

Where are you right...
!
Sorry, but very soon another emergency patient is gonna be coming, so could you look after it?
I'm kinda busy right now, so I'll leave it to you!
...Eh?

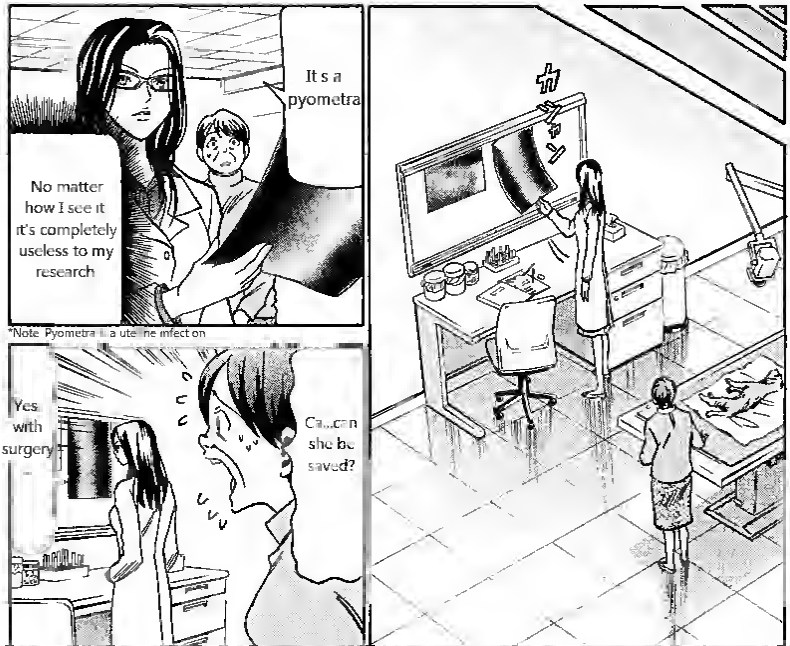


.....
I don't look at patients who are useless to my research...
Clack
Wa...wait a second!
Where the heck did he call from...!?
In the first place, that Iwashiro guy,
What the hell!
Just what in the world is happening?



Umm...excuse me but have you seen a veterinarian called Iwashiro...?

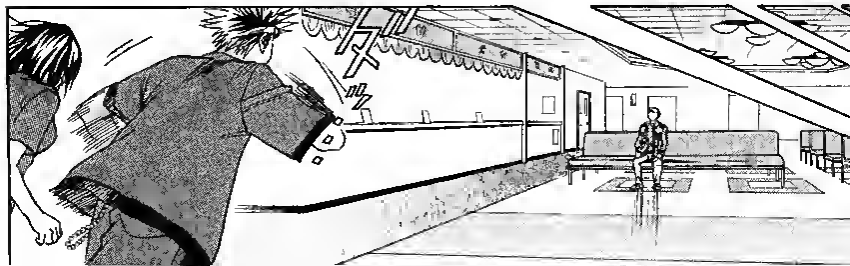
!?
Dr. Kuroki !!
Ahh if it's Dr. Iwashiro, then right now he's performing surgery on my George, but.
A... are you Dr. Kuroki? I was told on the phone to see you. Please hurry and save my Clara!
wha...
There's no one else I can ask, and right now the rule that we can't look at emergency patients at night is gone,
And if I send her away and the patient dies, then it'll become my responsibility...
B...but even if I say that, what should I do...those two are currently operating...
Wh... what did she say? That Iwashiro guy just told her himself that I would look at it?
Pl...please, doctor...



*Note: Pyometra is a uterine infection

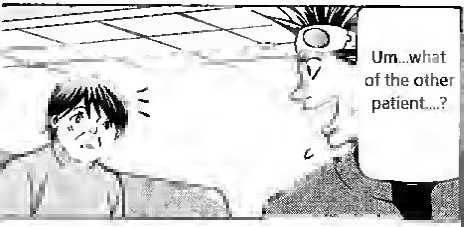
No... way...
But, right now there aren't any other staff...
As might be expected, having me do the surgery alone might be a bit difficult...
Like I'd do such a surgery!
Well, if there was at least one resident that could help out then...I might be able to do something...

...There was one
Ahh cleaning up after work today was pretty hard—
スタスタ
It's been a while since we last stayed this late even though we didn't have night watch
はぁ



The surgery was a success! He's alright now!!
MEIOU

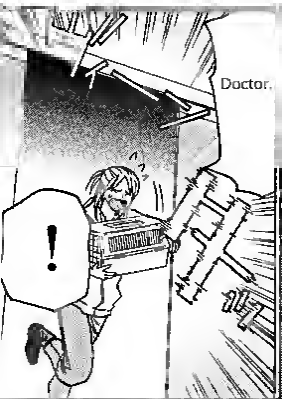
Doc tor!
Thanks for wait- ing!



Um...what of the other patient....?

Yes, right now Dr. Kuroki is operating...!

Th, thank you very much!!

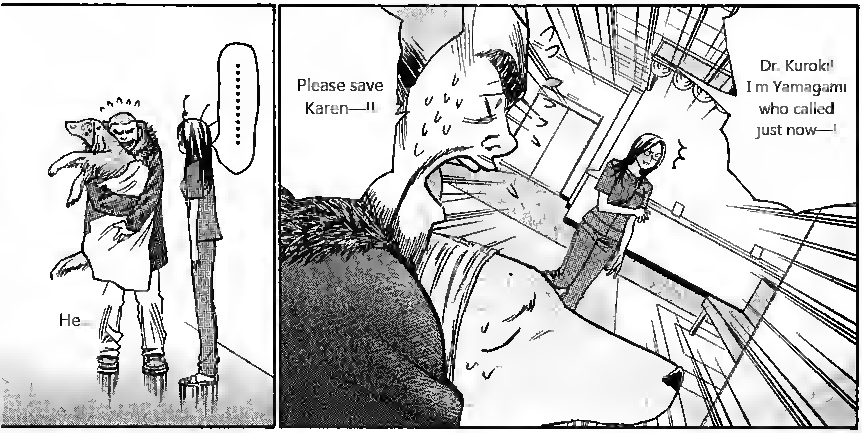


Doctor.
!

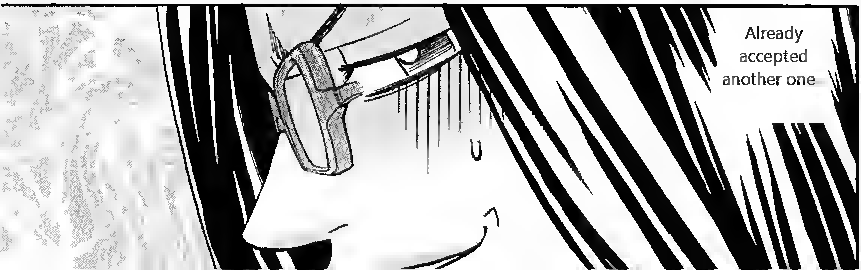
That doctor is... really taking care of a patient—!?
..EHH!?

!
Mizuki-san, it's the third emergency patient!
Y, yes!
Yes, this is Meiou Univ-rsity!
!!
Iwashiro-kun! It's another emergency case! The fourth one's a female Afghan hound!
Alright, have them come immediately!
Dr. Kuroki will be in charge of it!
Wow, this is the first time I've ever seen one of Assistant Professor Kuroki's surgeries—

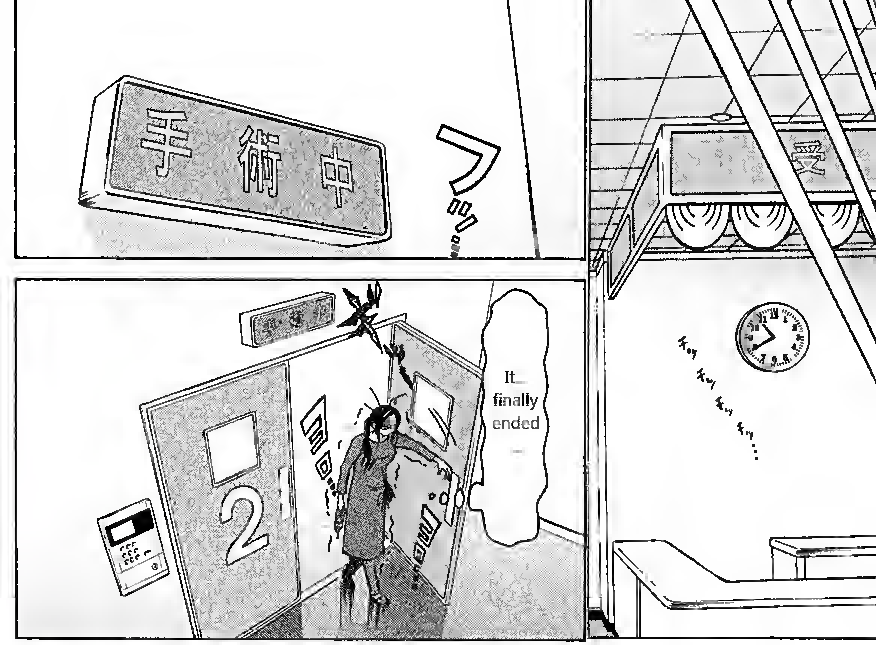
Don't joke around! Even though I want to do my research...
I know. I'll hurry up and find Iwashiro-kun and...
Tell him that I don't look after patients who are useless to my research!
If I keep letting him accept emergency patients by himself, then it'll never end!



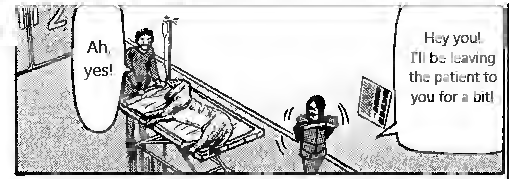
Dr. Kuroki! I'm Yamagami who called just now—!
Please save Karen—!!
.....
He...



Already accepted another one.



手術中
フッ
It... finally ended...
2
Kuu kuu kuu...



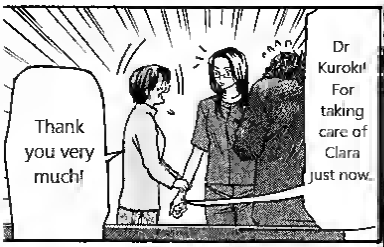
Ah, yes!
Hey you! I'll be leaving the patient to you for a bit!

This time for sure... this time I have to tell Iwashiro-kun!
That I don't examine patients that are useless to my research!

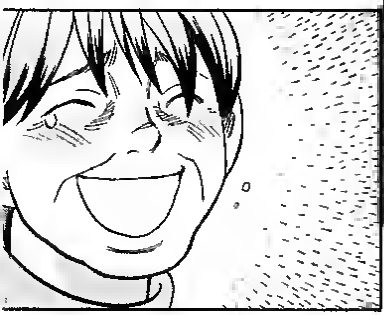
It's been a while since I last did this many surgeries
That was well done Assistant Professor Kuroki!

Ah, yes, it was a success

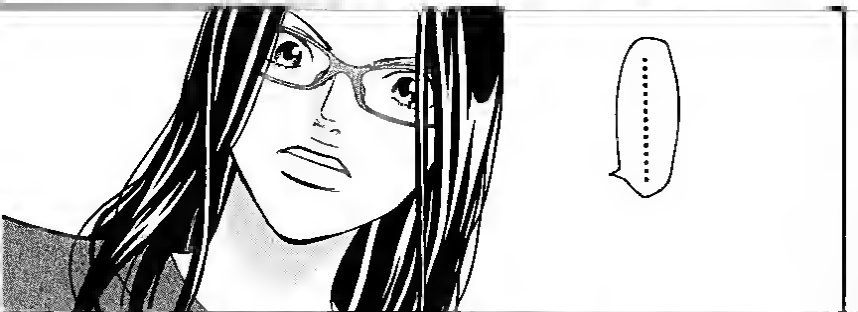
!
Dr. Kuroki! Is Karen was the surgery...?



Thank you very much!
Dr Kuroki! For taking care of Clara just now.



Thank you.
Thank you so much!!



.....

It's been quite a while since I last saw owners overflowing with gratefulness like this...
Now that I think of it...

Nice to meet ya I'm Iwashiro!
Dr Kuroki!!
CLOSE
!
So... so you're Iwashiro-kun is it...

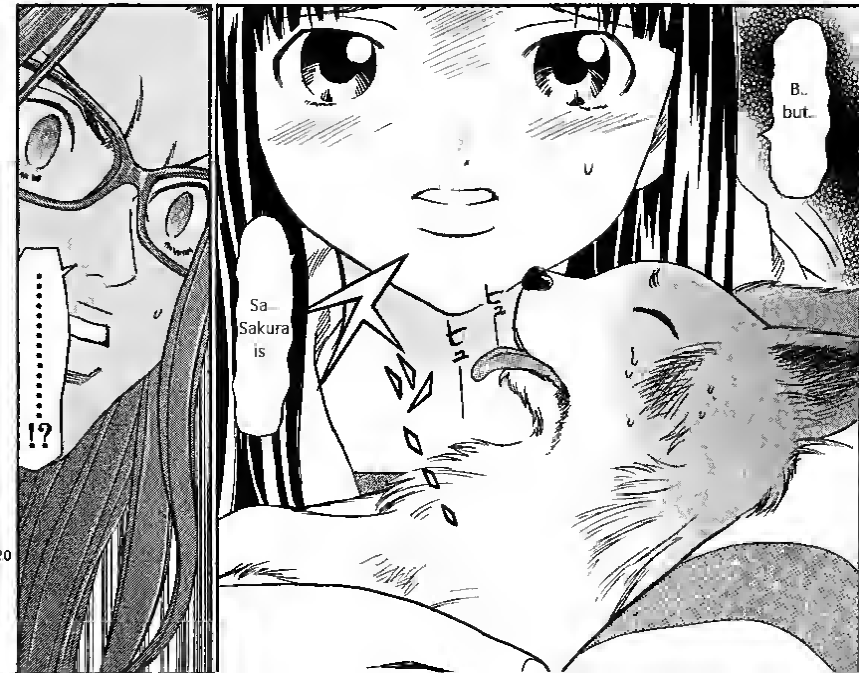
Thanks a lot!
I am busy with re...
Iwashiro-kun, I have something that I have to tell you...

The reason why all the patients were saved is all thanks to Dr. Kuroki!

Then, I'm gonna go do rounds to check up on all the hospitalized patients!

Um... Assistant Professor Kuroki
Before I realized it, I got caught up in his pace!?
What's with this? In the end, not only was I unable to tell him...
Wh... what kind of face was that guy making..

Ri....
Rio!
Is this girl doctor's child?
Why did you come here! I'm always telling you not to just come to the university...
S... sorry



B.. but..
Sa... Sakura is
ヒュー
.....!?

I hope you enjoyed the chapter!!

Ri...Rio! Why did you come here! I'm always telling you not to just come to the university...
So... sorry ...
Bu..but ...S... Sakura is...
Chapter 100:
The laptop's fate
.....!?
What happ-ened!?

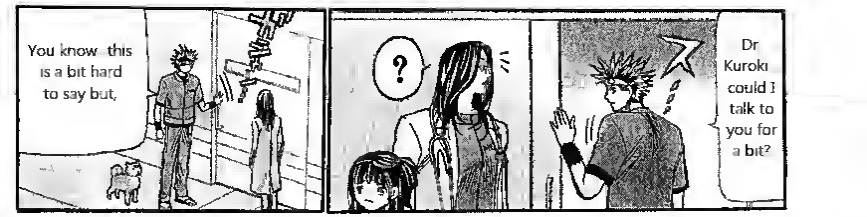
Sakura fell down the stairs
She's been crouched over the entire time in pain...!!
.....

Chapter 100:

The laptop's fate

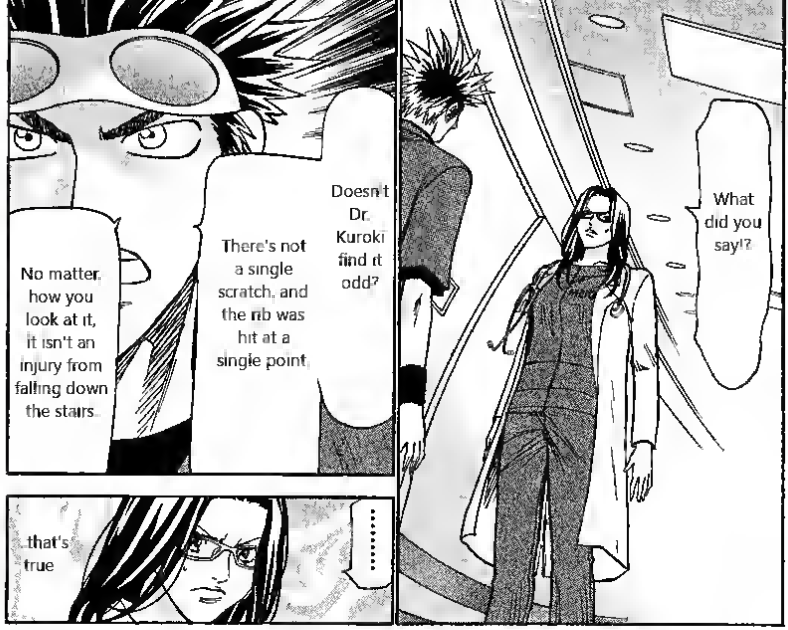
カラン
!
Hmmm, everyone's in great condition!!
Wa ha ha ha...
MEIOU
An emergency patient?
Ah Iwashiro kun
MEIOU
3
Hm?
Hmm
This is Assistant Professor Kuroki's daughter Her dog fell down the stairs..
.....
.....so Dr. Kuroki had a kid....
She's pretty big
MEIO
She fell from the stairs?
She said...
This is odd...
.....

But, it's not life-threatening, so she'll be alright.
Rio one of Sakura's ribs is cracked so we'll be hospitalizing her, okay?
Ehh..
.....



You know this is a bit hard to say but,
?
Dr Kuroki could I talk to you for a bit?

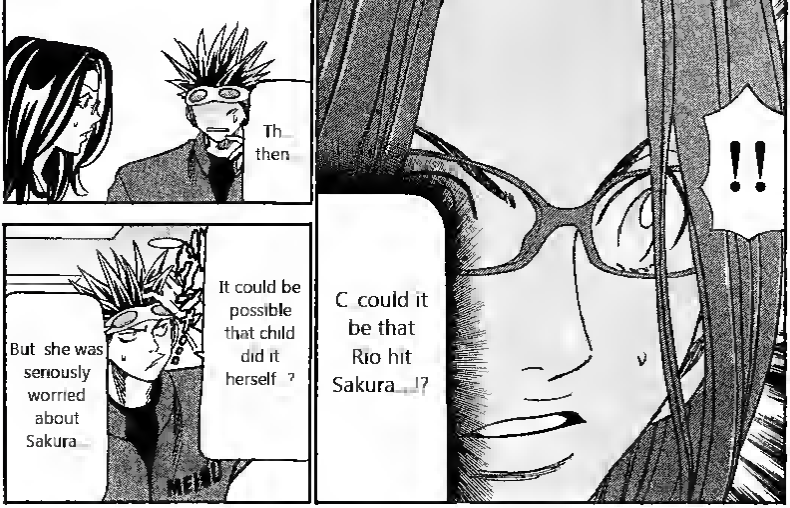
It's an injury from someone punching, or hitting her!
Sakura's injury...that's not from her falling down some stairs



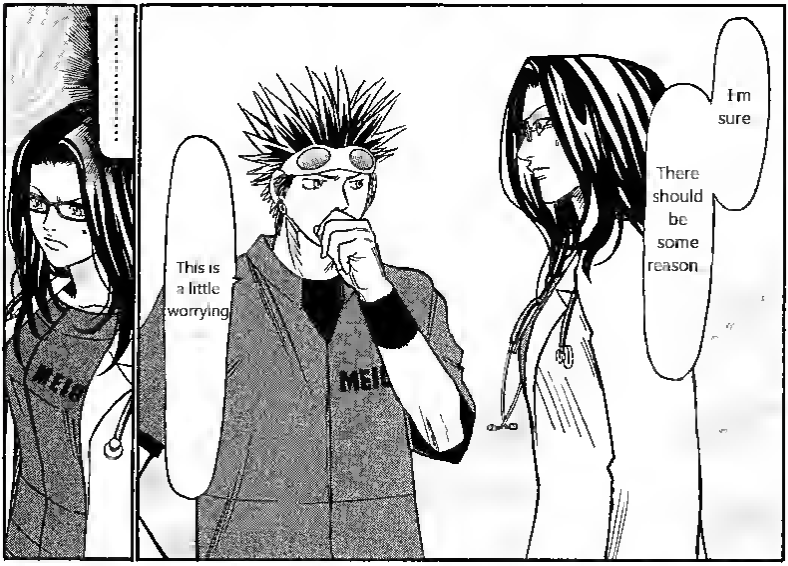
What did you say!?
Doesn't Dr. Kuroki find it odd?
There's not a single scratch, and the rib was hit at a single point.
No matter how you look at it, it isn't an injury from falling down the stairs.
.....
...that's true

I normally don't look at injured patients, so I didn't realize it but—
Now that he mentions it—

5
I wonder why she told a lie like that? Is she covering for someone?
Bu... but...
..eh!?
Only Rio should be at home—



Th... then...
!!
C could it be that Rio hit Sakura...!?
It could be possible that child did it herself...?
But she was seriously worried about Sakura...



I'm sure
There should be some reason
This is a little worrying.

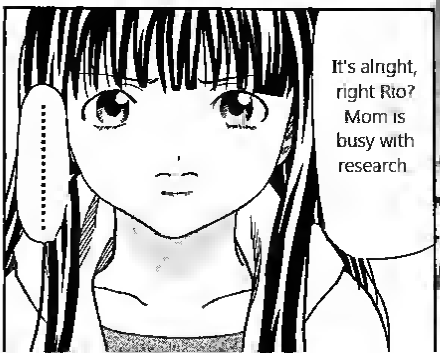
...you don't need to worry.
Rio isn't a child who would do such a thing.
B... but...
This has nothing to do with you!

There is no need to go so far as to worry about the owners!!
Your job is only to look after the patients!

ハッ

My house should only be about a 10 minute walk from here. It's fine
Excuse me but.. are you going to send her home alone? At this time of night.

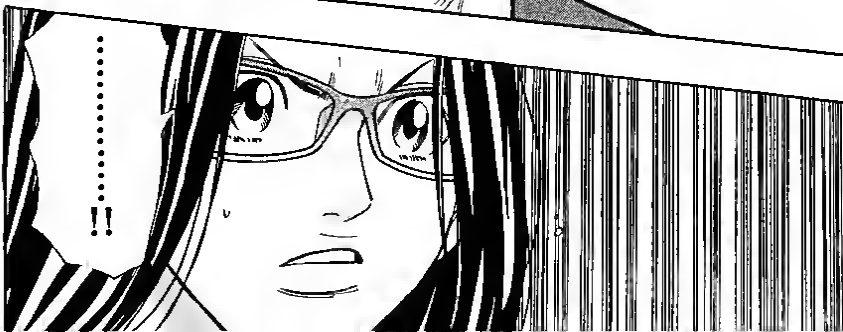
Rio..you don't need to worry about Sakura anymore, so go home.



It's alright, right Rio? Mom is busy with research

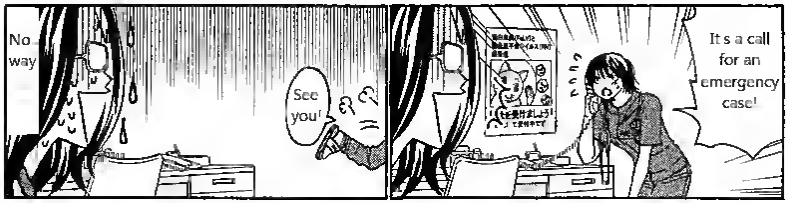
Then I'll send her home!
Eh?
What are you saying ...?
It has nothing to do with you! That's not a veterinarian's job....
Dr. Kuroki ....
To me, whatever the job description of a veterinarian is doesn't matter.
The job that I'm doing is—

Saving those who I want to save!

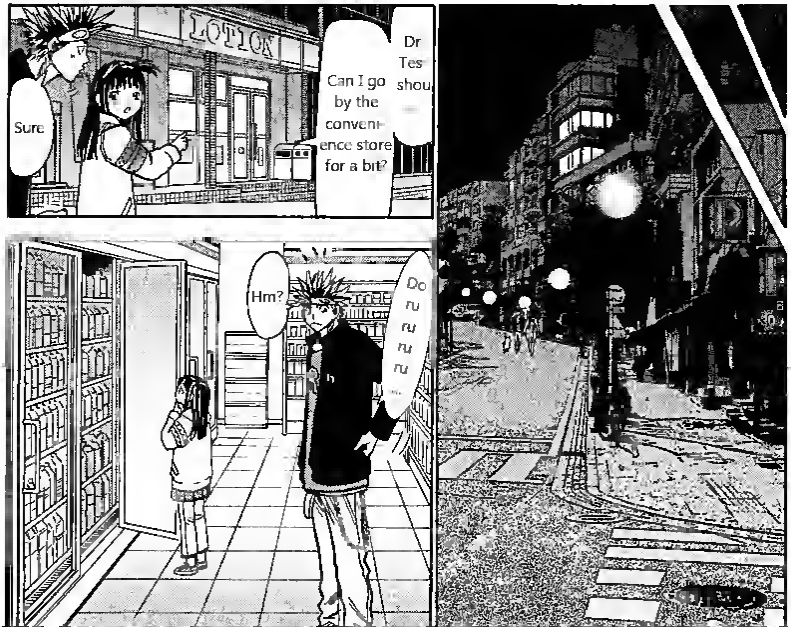


!!

Oh right, Dr Kuroki if any emergency patients come I'll be leaving it to you!
It's already this late, so I'm sure there won't be that many—
Ehh!?
Then shall we go Rio-chan
Ahh I'm Tesshou Iwashiro but you can call me Tesshou!
Dr. Kuroki!
Wait I don't look at patients who are useless to my resea...



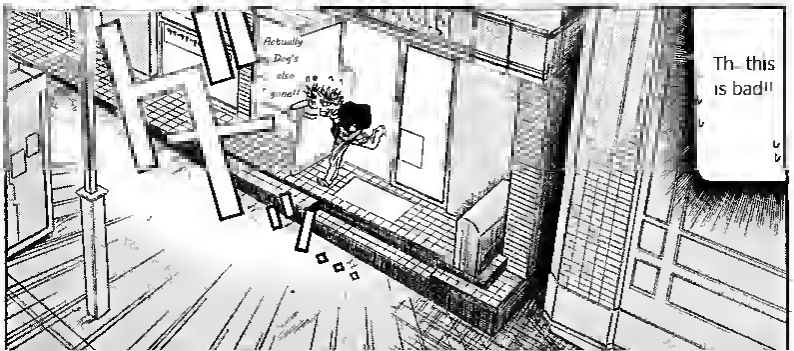
No way
See you!
It's a call for an emergency case!



LOTION
Sure
Can I go by the convenience store for a bit?
Dr Tesshou
Hm?
Do ru ru ru ru ...

I thought I'd call you over too, since it's been a while since we've all played Mah-jong together.
Right now Iwashiya and Yamaguro have come so,
You wanna come to my place?
Ohh, Yanou?
Hello,
Yo, Tess-hou!

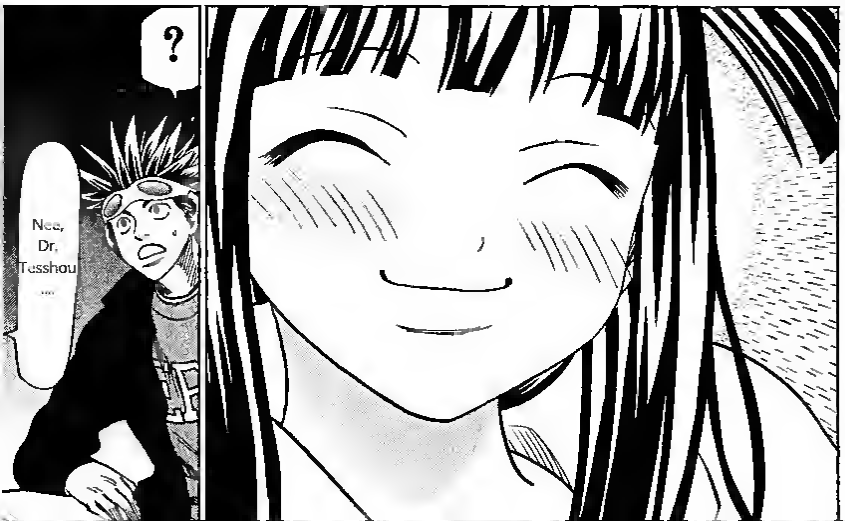
Not there
hm?
Ahh, just now she left the store
!!
Um…do you know where the little girl I came in with is?
Ahh my bad! Right now I'm in the middle of work, so could you ask me another time?
Whatt— To have work at this time, must be a pain—
Alright, see ya Good luck—



Actually Dog's also gone!!
Th…this is bad!!

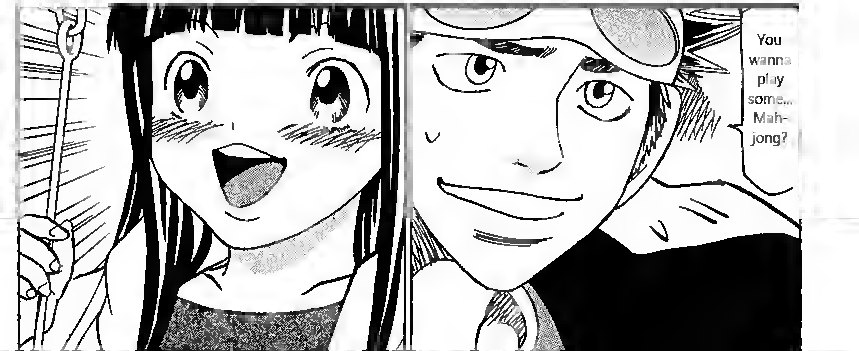
Wau!
Where are you, Rio-chan!?
Rio-chaan!
Ah!

Of course!
You were.. worried?
I was worried you know! Though it's a good thing Dog was here...
That's no good, going off like that..



?
Nee, Dr. Tesshou ...

Eh?
Bring me some-where to play
Rio doesn't wanna go home
.....
Rio-chan —
It can't be helped
Then, maybe I'll go somewhere else again—
Rio-chan has to go home or—
I I can't, it's already this late and



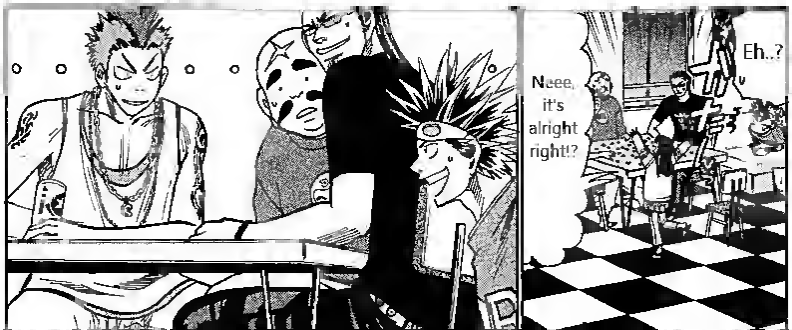
You wanna play some... Mah-jong?

*T/N: I'm pretty sure this is a reference to the sets she got in her hand. I don't know the rules of Japanese Mahjong.

It's just that I always play the Mah-jong game on my own.
No one really—there wasn't anyone to teach me...
Who taught you?
Rio-chan... it's amazing that you know how to play Mah-jong so well at your age—

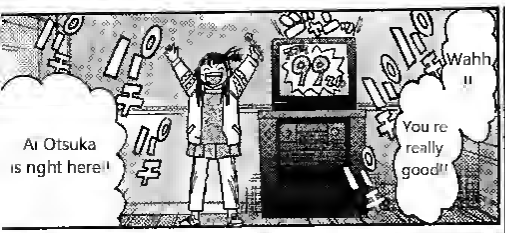
By the way Rio-chan's mom is an assistant professor at Meiou right?
She must be really smart!
Hm What's wrong?
?

Neee! Why don't we all go for karaoke!
Rio
Is bored of Mah-jong already



Eh..?
Neee, it's alright right!?

JASRAC 出0504128-501



B1F 1F 2F 3F
GAME PIO
ENTERTAINMEN
Ohh, it's here! The 10 attack combo!!
Yeahh!
Ohhhh Rio's pretty strong—
Owahh, you're done for now—
He he he
.....

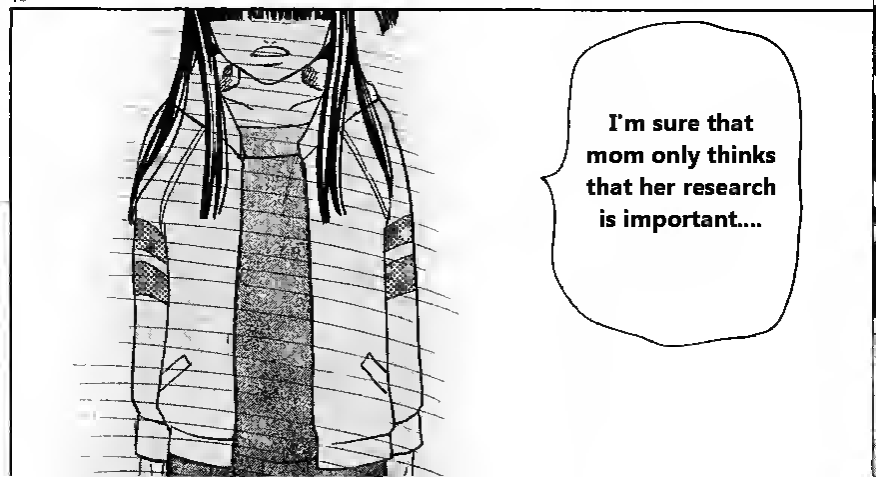
.....?
.....
Now then... shall we go home Rio chan!
See ya thanks for today everyone

You know, Rio-chan, do you mind if I ask?
Has ever had this much fun...
This might be the first time Rio..
Thanks, Dr. Tesshou
Hm?

17

She always holes herself up in her study and does her work or research or something
Even if mom was home, it's all the same!
Then, your dad ?
Why don t you want to go home that badly?
Is it because your mom isn't there?
.....

.....eh....
Dad's gone
Because they got divorced when Rio was still in nursery school
Before, mom wasn't always so into research, but..
When dad went away, she changed....
But
That s not all
Because to raise me, she had to do more research, and get more promotions at the university



I'm sure that mom only thinks that her research is important....

Much more so than Rio....
That's why I hate being at home
I'm always alone...so all I can do is play games
Ahhhh if the university's research could just disappear from this world
And mom could just become a normal vet, how great that would be—

Took out her loneliness in a fit of anger on Sakura?
Then could it be that Rio-chan-
...then....

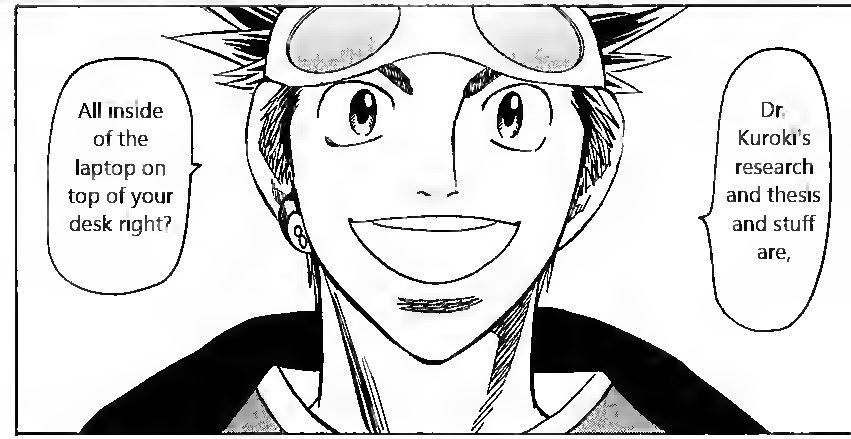
Lying isn't any good you know? If a vet looks at it, they'll know that those injuries...
Aren't from falling down stairs really quickly.
.....!!
.....
But... this is the first time this has ever happened...
Somehow I was really irritated, and I didn't know what to do...
Even though I really... love Sakura...
S... sorry...

You said that it'd be great if research could just disappear from this world right?
Rio-chan...
.....
.....

Your mom's research!
Shall we go make it disappear?
Eh?
Y yeah
Then!

!!
Th- thank you very much!
!?
Ah, that's great
At Meiou Univer sity—
...th- surgery was a success, so if we hospitalize him for about 1 week, he should be okay.

1
Rio! What's wrong?
5
Rio? Why_?
I just wanna ask but,
1
Ahh, you came just at the right time, Dr. Kuroki!



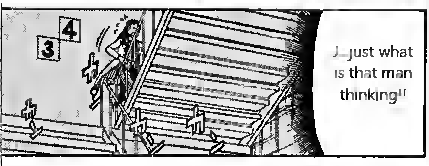
All inside of the laptop on top of your desk right?
Dr. Kuroki's research and thesis and stuff are,

I see
1
That's true but what about it?

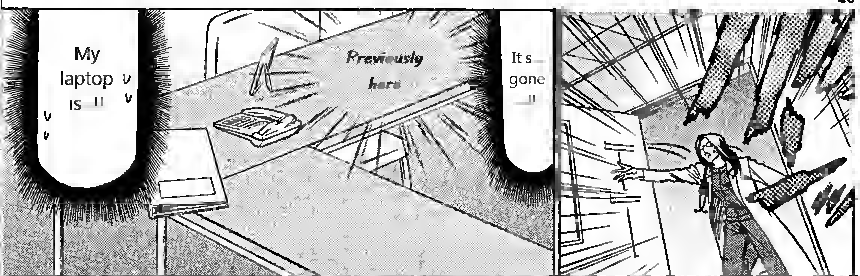
Then sorry, but I'm gonna go destroy it!
EHHH HHHH HHHH HHHH HHH!?
Wh..why?

Wa...wait a...

See ya



3
4
J...just what is that man thinking!!



My laptop is...!!
Previously here
It's gone...!!

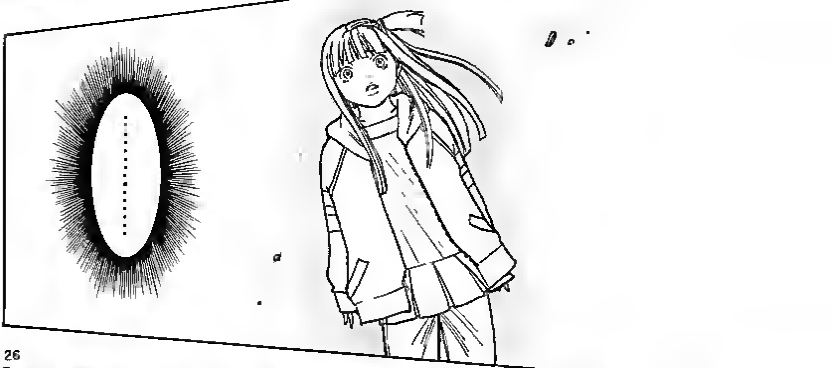
Th... roof ...!?
Just where is it...
Now then, I'll be tossing this laptop from up here!
This is fine right? Rio chan!

But is it really alright...
yeah

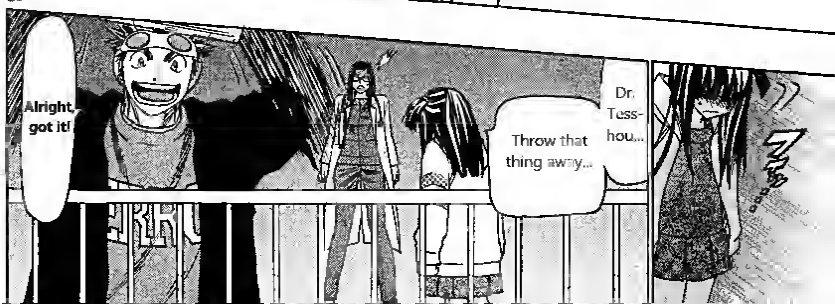
What are you doing!?
But to make it so your mom can't do research anymore, this is all we can do.
ゴオオオオ
Mom
.....

If that disappears, then you... terrible things will happen!
.....
You can't! Inside of my laptop is the thesis that I was going to write Mr. Heinami's name on!

So what!
.....
Th...that research data is the most important thing to me in this world!
It's the most, most important thing above all else!!



.....



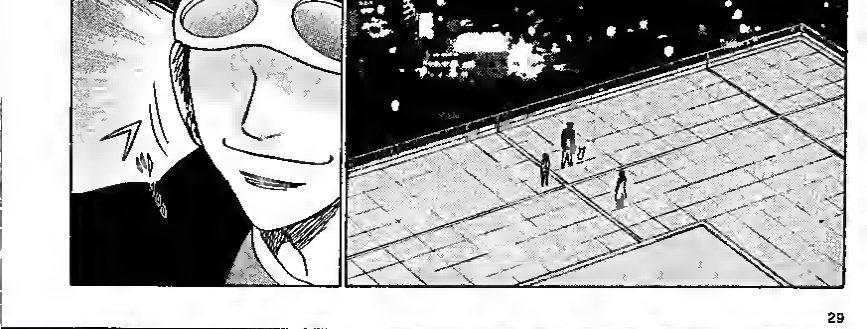
Alright, got it!
Throw that thing away...
Dr. Tess-hou...

I y a a a a a a a a !!
A...
Actually, stop it!
.....!!

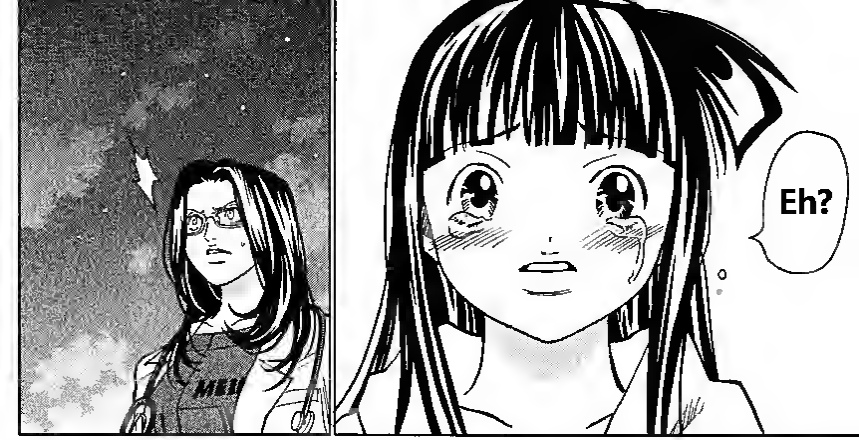
If this exists, then Rio-chan will be all along again you know?
...that alright ?
.....
...!
That .....
Might...be true..but.....

I.... love mom...
.....

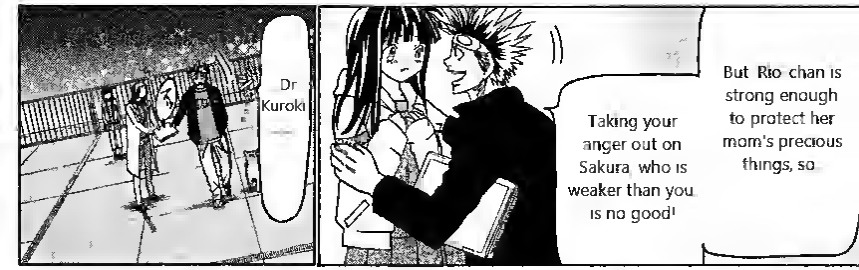
That's why...
Stop it...
If you break that, mom will be sad...
It's alright if I'm all alone...
I don't want to see mom sad...
Rio...



That's great!!
I knew Rio-chan would say that!!

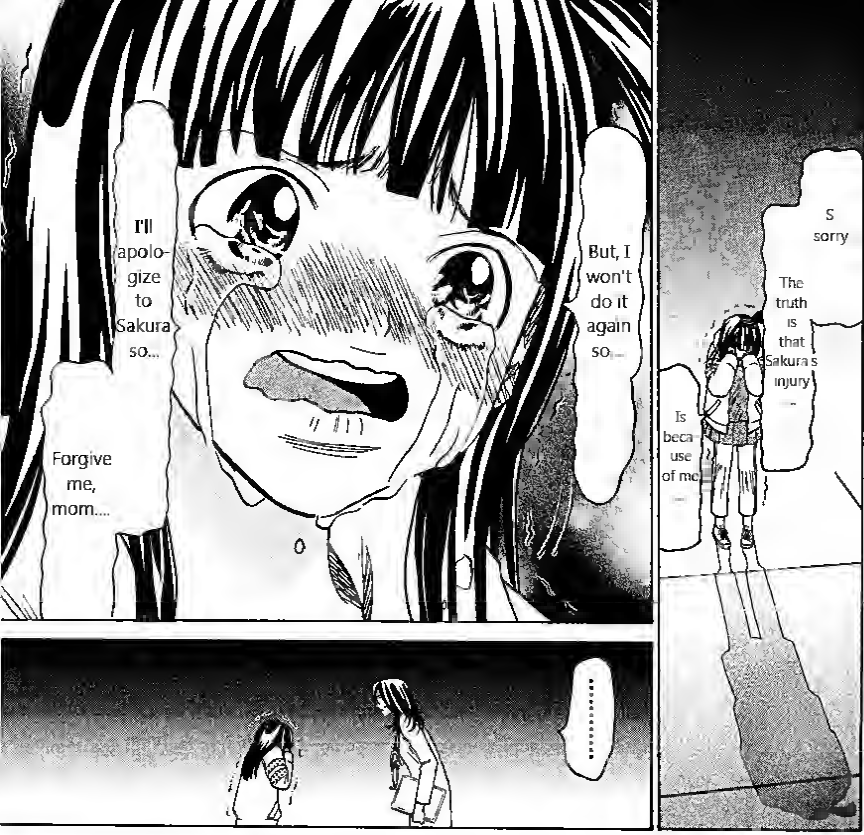


Eh?



Dr Kuroki
Taking your anger out on Sakura who is weaker than you is no good!
But Rio-chan is strong enough to protect her mom's precious things, so

Then, I'll leave the rest to you!
.....
Making such a good girl sad is unacceptable.
!
Mom



S sorry
The truth is that Sakura's injury
Is because of me
But, I won't do it again so...
I'll apologize to Sakura so...
Forgive me, mom....
.....

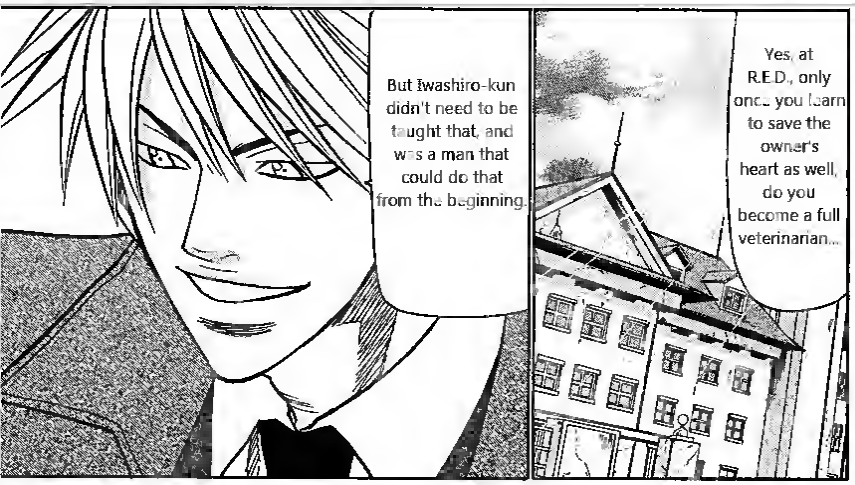
Sorry Rio
It's all mom's fault
つっ...

Sorry...
I'm sorry, Rio...

Mom...

Oh Assistant Professor Kuroki...are you going home now?
Yes

How was night watch with Iwashiro-kun?
Professor Ryouto I would like to ask but.
Does R.E.D. teach its veterinarians to not only look after the patients, but to worry about the owners as well?
.....



Yes, at R.E.D., only once you learn to save the owner's heart as well, do you become a full veterinarian...
But Iwashiro-kun didn't need to be taught that, and was a man that could do that from the beginning.

.....
Saving those who I want to save!
It's true that...

Saving the owner's heart... huh...
I guess I should also...
He saved both Rio and I

Follow his example a bit

I hope you enjoyed the chapter!!

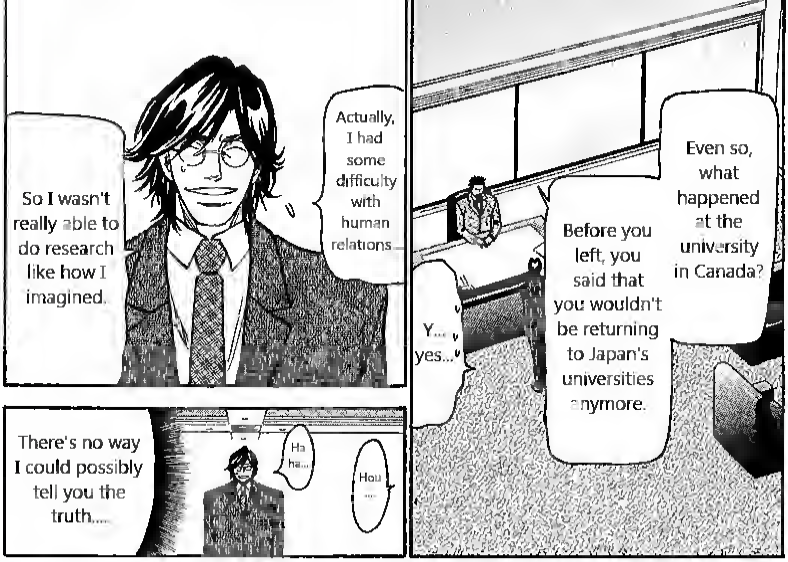
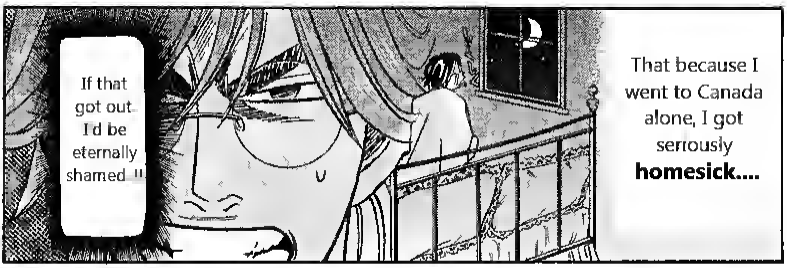
Come in
I was surprised.
To think that you would be returning from Canada.
It has been a while President Azama
Well, there wasn't anyone who was against welcoming you back as an assistant professor...
So please take care of things again—
Chapter 101: Womanizer?

Sakurazaka-kun
Chapter101:
Womanizer?



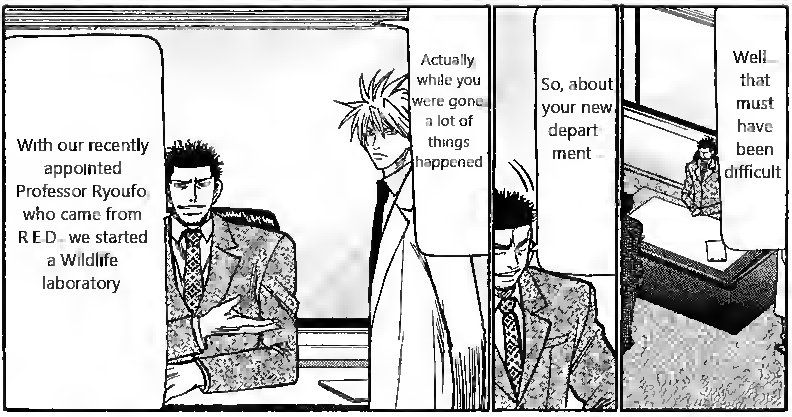
So I wasn't really able to do research like how I imagined.
Actually, I had some difficulty with human relations...
Even so, what happened at the university in Canada?
Before you left, you said that you wouldn't be returning to Japan's universities anymore.
Y... yes...
There's no way I could possibly tell you the truth....
Ha ha...
Hou....



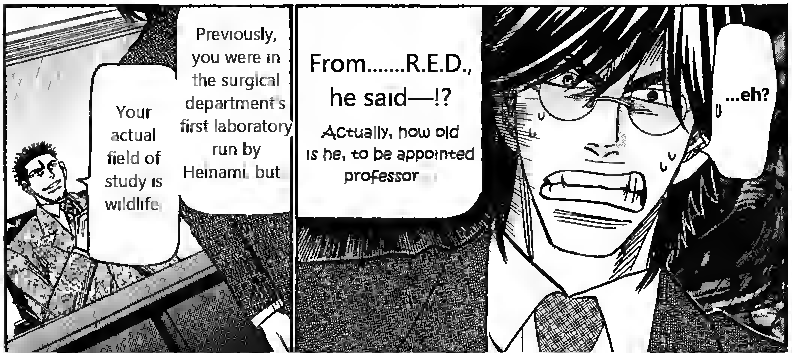
If that got out I'd be eternally shamed...!!
That because I went to Canada alone, I got seriously **homesick....**

And then I wouldn't have gotten homesick!!
—If he hadn't been around I would have married Mika-san and gone to Canada with her—
If it wasn't for him...

Everything that happened is all his fault!!

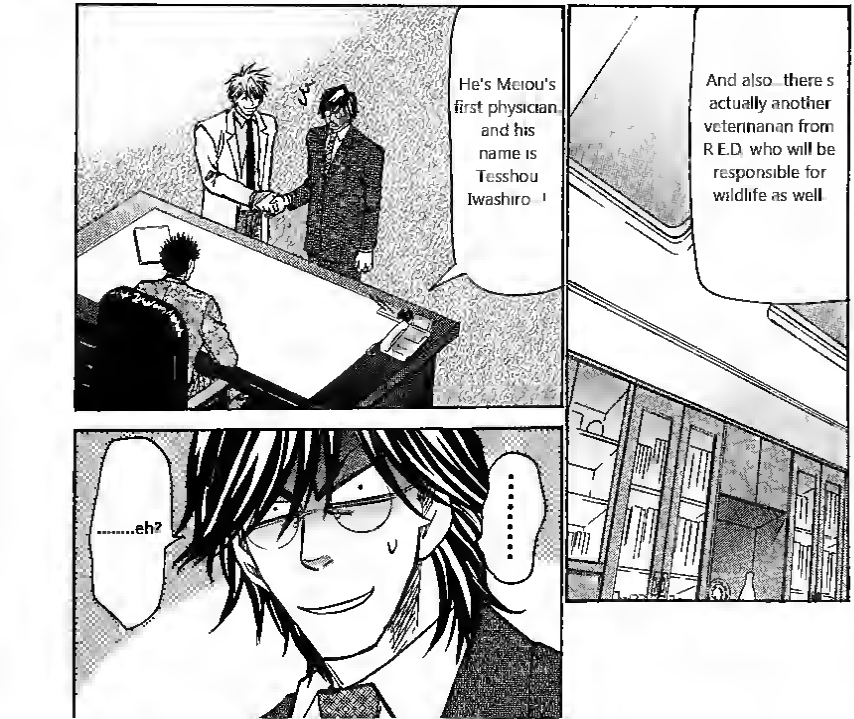


With our recently appointed Professor Ryoufo who came from R.E.D., we started a Wildlife laboratory
Actually while you were gone, a lot of things happened
So, about your new department...
Well... that must have been difficult



Your actual field of study is wildlife.
Previously, you were in the surgical department's first laboratory run by Heinami, but
From.....R.E.D., he said—!?
Actually, how old is he, to be appointed professor...
...eh?

The wildlife laboratory will only be opened formally at the beginning of the next school year, but
I want to specially have you start working under Ryouto as an assistant professor now
U...
Understood...
Nice to meet you ♡ Assistant Professor Sakurazaka
Same here



He's Meiou's first physician, and his name is Tesshou Iwashiro
And also, there's actually another veterinanan from R.E.D. who will be responsible for wildlife as well
.....
.....eh?

He still hasn't been able to take care of wildlife, but—
Iwashiro, as a member of the surgical department's first laboratory, is currently supervising the night practice every night, so...
T... Tesshou Iwashi-roooooo!?
I intend to eventually have him share your work in looking after wildlife, so go greet him.
If I can recall... Sakurazaka-kun is the one who had the omiai with Senou-san.

I'm sure that there's going to be one big storm between him and Tesshou-kun~
This is intere-sting...

Hm?
Do...don't joke around!
Why is he in Meiou!
And Meiou's even doing night practice now? Why?
Eh...!?
Iwashiro-kun about this
After that, measure the blood levels of ammonia and bile acid
And do an X-ray to confirm the amy someth ng!
He's giving the residents directions!?
Just why!!
Iwashiro-kun
kay got it! The amyloid ring right
EHH!?
Ahh, this guy is the last one for us, so it's alright.
The clinical appointments on my side are done. Do you need any help over here?

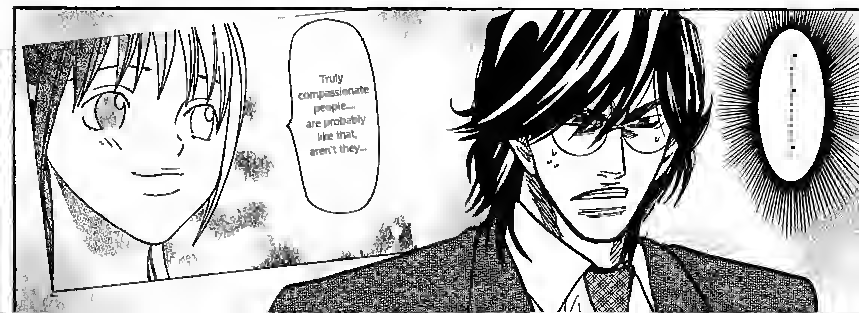
We have it at Nagatanien, so once everyone is tired of it, I'll bring it over.
Oh right, Dr. Kuroki, there was a game that Rio-chan wanted right?
W....why is Assistant Professor Kuroki taking care of patients in the clinic....!?
Thanks, Iwashiro-kun.
Eh... really ...?

!
D...Dr. Sakura-zaka...!?
.....

Ah...um...what is the matter...?
Hey, it's been a while, Mizuki-kun.
Y you are...!
Shouldn't doctor be in Canada right now...
9
Why is he giving directions to the residents?
More importantly, he's Tesshou Iwashiro-kun right?
Ehh!?
Actually....I will be returning to Meiou once again.
Wha...
!!
Ah...ahhh, that's because Iwashiro-kun is considered to be on the same level as an assistant teacher.

How is everyone alright with that...?
Impossible! For such a novice vet to be treated like an assistant teacher is weird, isn't it!?
What did you say!?
It's because... he...
Well...

.....
Truly is an amazing vet...!!



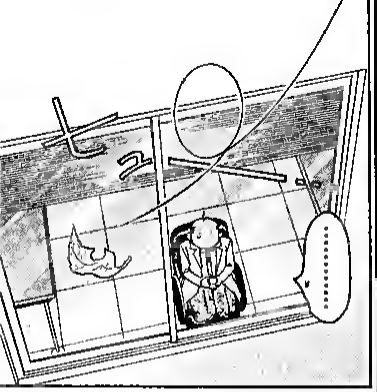
Truly compassionate people... are probably like that, aren't they...
.....

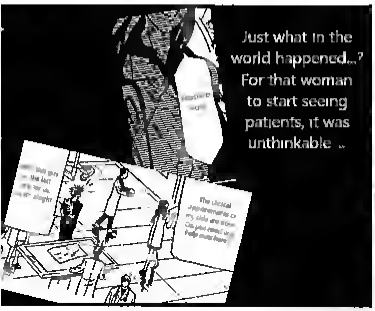
Not only that, but all the people yearning for him are all women...
...Why is it? Why is it that everyone makes that kind of face for him...
W-wait a second...

That's it! That has to be it!!
For those kinds of guys, it's a simple thing for them to be popular with women...
The..... Ultimate woman-izer...
I love you, Catherine
I love you Megu~
I love you, Cleopatra
C...could it be that his true nature is...
Then.....
Mika-san was also taken in by his poison, and eventually—

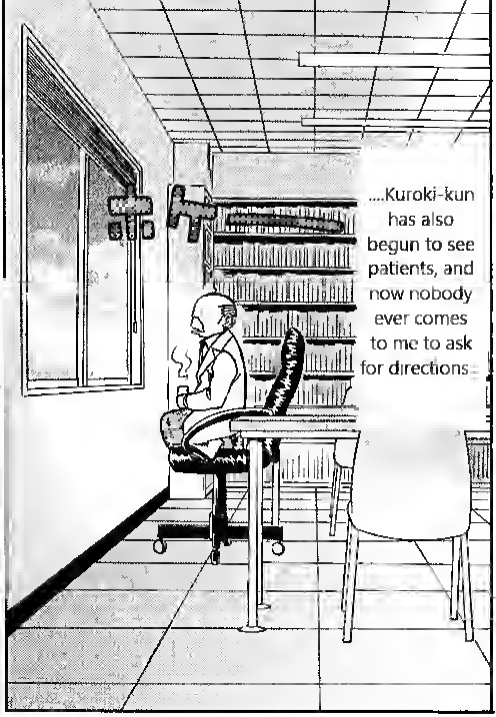
Text: Kyaaa_Tesshou~
Bye bye~
No thanks
P_please, don't throw me away_

I'll give you heaven's punishment!
Damn you, womanizer!
Un.... unforgivable!!
外科学第一研



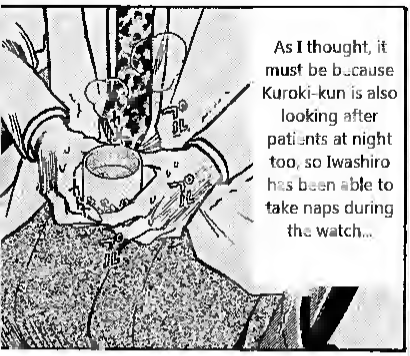


Just what in the world happened...? For that woman to start seeing patients, it was unthinkable ..



....Kuroki-kun has also begun to see patients, and now nobody ever comes to me to ask for directions

13

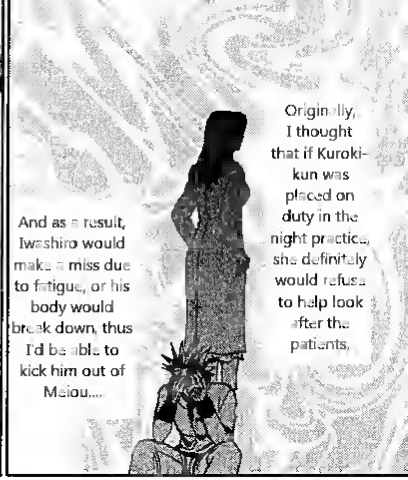


As I thought, it must be because Kuroki-kun is also looking after patients at night too, so Iwashiro has been able to take naps during the watch...

Wh-why has it become like this ...

Good morning!
Not only that, but since Kuroki-kun started helping out with the night practice, Iwashiro hasn't gotten tired at all, but is now strangely energetic....

But like this, it's as if because I asked Kuroki-kun to help out, I've actually saved that damn plague!



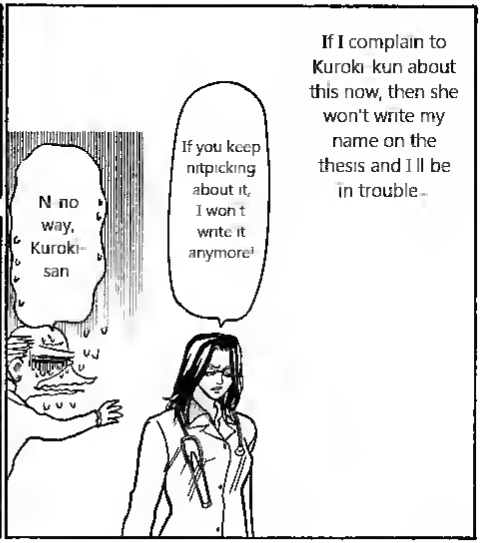
Originally, I thought that if Kuroki-kun was placed on duty in the night practice, she definitely would refuse to help look after the patients.
And as a result, Iwashiro would make a miss due to fatigue, or his body would break down, thus I'd be able to kick him out of Meiou....

....But even if I say that
ふにゅ...

Urghh

14

My stomach again...



No no way, Kuroki-san
If you keep nitpicking about it, I won't write it anymore!
If I complain to Kuroki kun about this now, then she won't write my name on the thesis and I'll be in trouble...

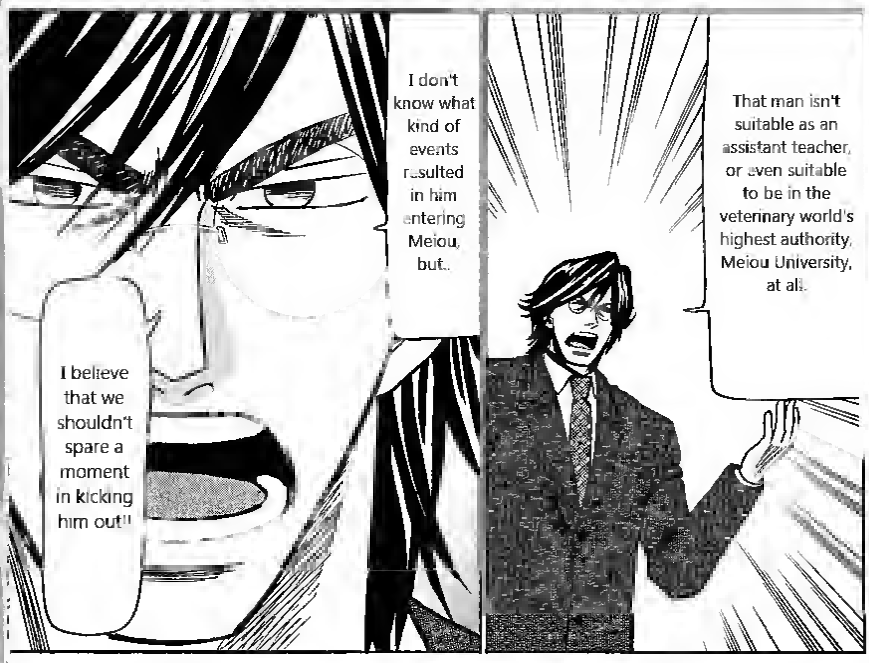
Don't I have any more hands? Something I have to somehow get that Iwashiro kicked out quickly...
Excuse me.
It's stress ....
STRESSSS!!
It's been a while, Mr. Heinami
Sa... Sakurazaka-kun!?
!
Wh what's the matter, why are you in Japan!?

I..I see...
A...actually, there was some stuff over there...
So I think I'll be under Meiou's care once again I just gave my greetings to the president as well
That makes me happy
It's reassuring that you, our ace, has returned

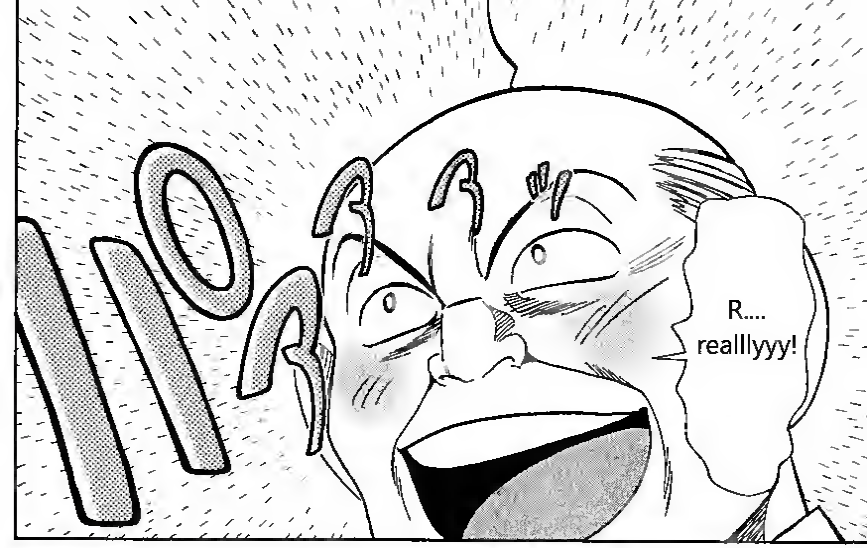
.....!!
Why is that greenhorn called Tesshou Iwashiro being treated like an assistant teacher?
About that, there's something that I'd like to ask

.....
I can't possibly believe that someone like Mr. Heinami would possibly accept something like that?

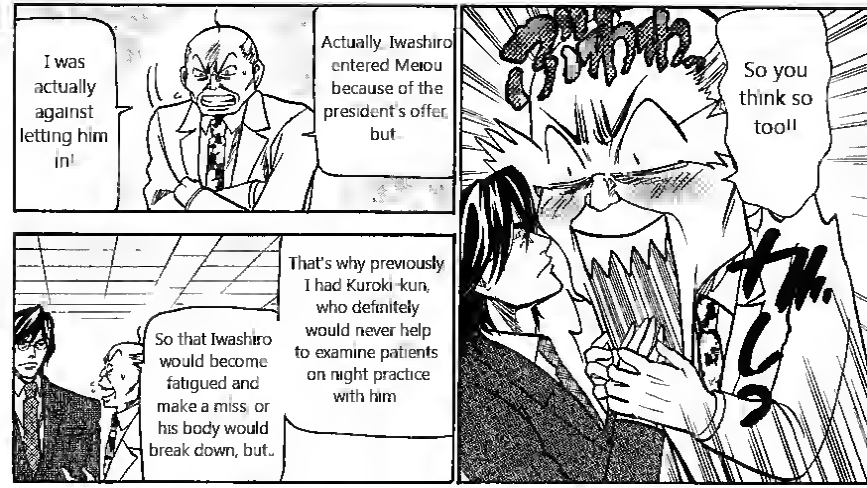
actually, I came to know that man just before I left for Canada
eh?
Well a lot of things happened



I don't know what kind of events resulted in him entering Meiou, but..
I believe that we shouldn't spare a moment in kicking him out!!
That man isn't suitable as an assistant teacher, or even suitable to be in the veterinary world's highest authority, Meiou University, at all.

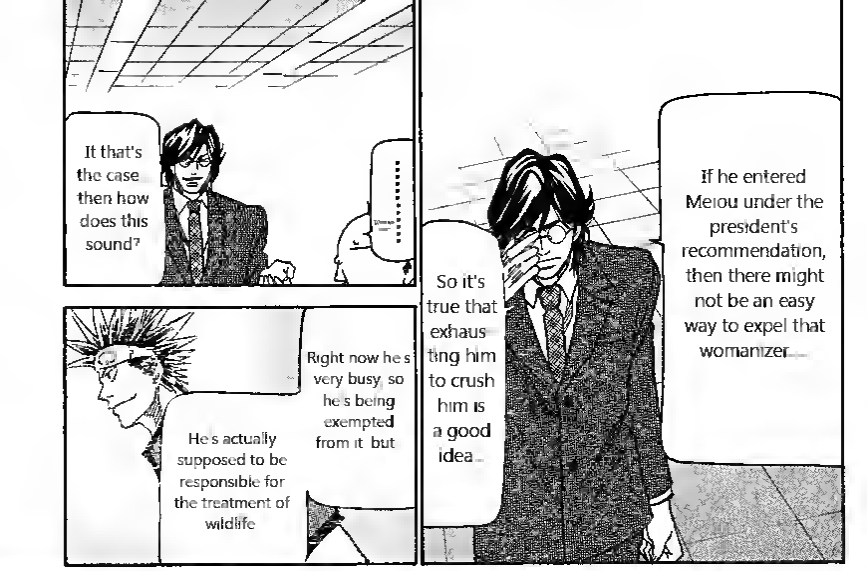


R.... reallllyyy!

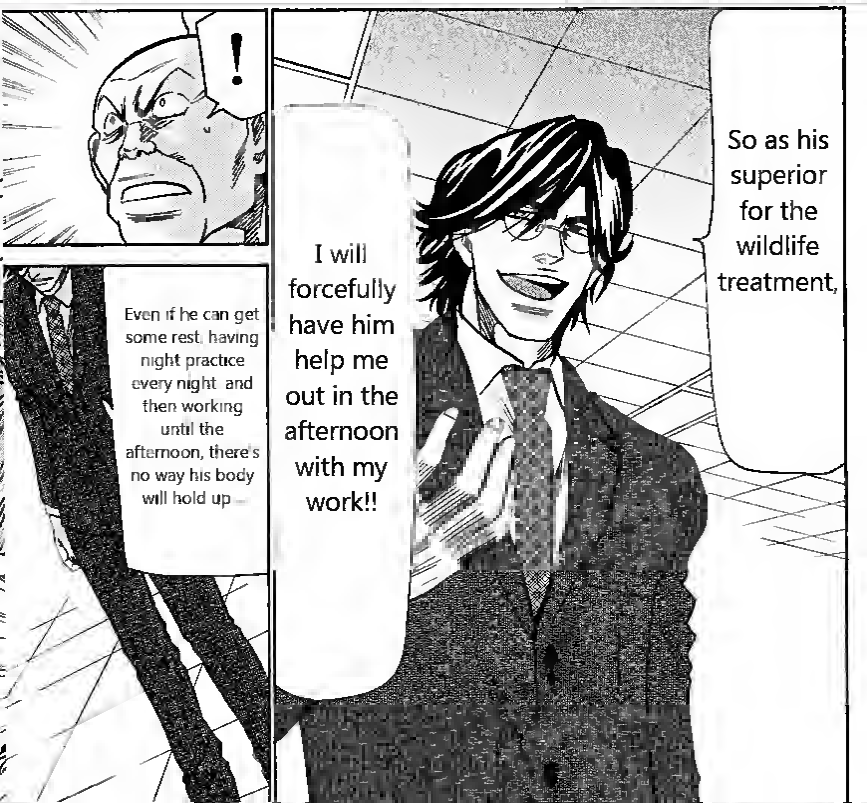


I was actually against letting him in!
Actually Iwashiro entered Meiou because of the president's offer, but
So you think so too!!
So that Iwashiro would become fatigued and make a miss, or his body would break down, but..
That's why previously I had Kuroki-kun, who definitely would never help to examine patients on night practice with him

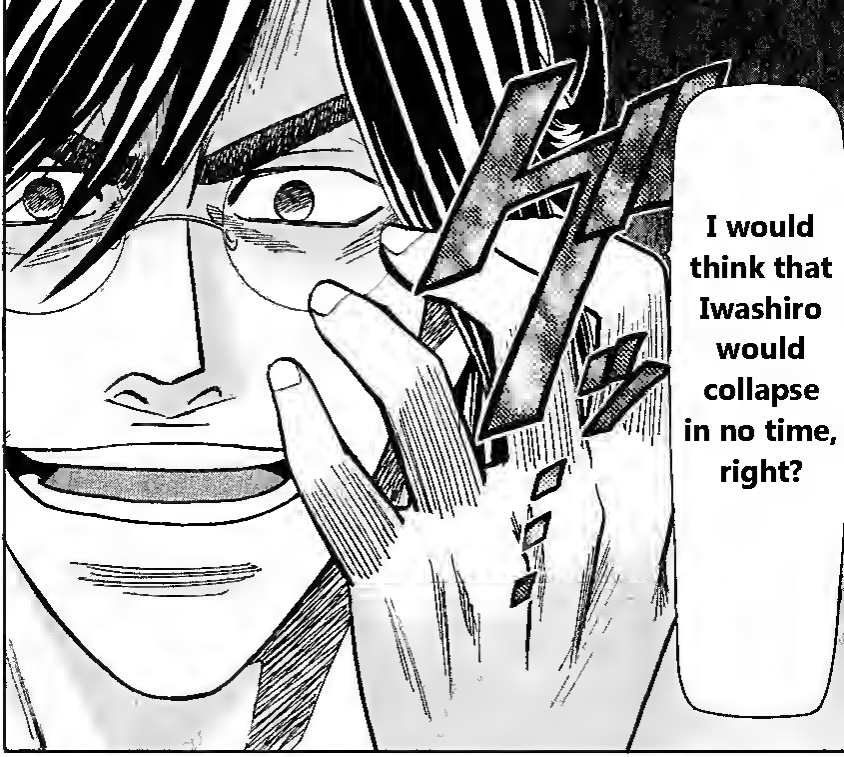
...I see...
So I was honestly in quite a tight spot...
For some reason, Kuroki-kun began seeing patients, and now Iwashiro can properly rest



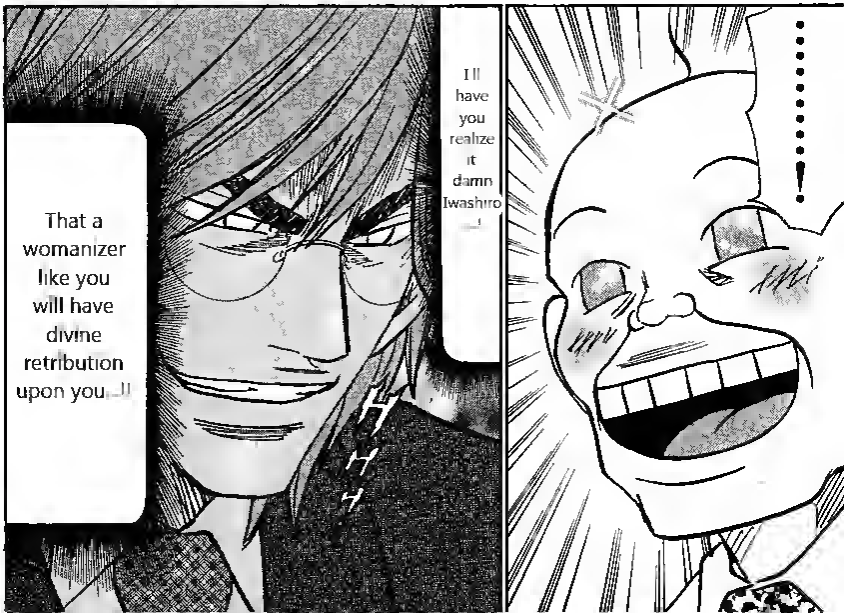
It that's the case then how does this sound?
If he entered Meiou under the president's recommendation, then there might not be an easy way to expel that womanizer...
So it's true that exhausting him to crush him is a good idea...
Right now he's very busy, so he's being exempted from it but
He's actually supposed to be responsible for the treatment of wildlife



!
So as his superior for the wildlife treatment,
I will forcefully have him help me out in the afternoon with my work!!
Even if he can get some rest, having night practice every night and then working until the afternoon, there's no way his body will hold up...



I would think that Iwashiro would collapse in no time, right?



That a womanizer like you will have divine retribution upon you...!!
I'll have you realize it damn Iwashiro...!
.....!

I hope you enjoyed the chapter!!

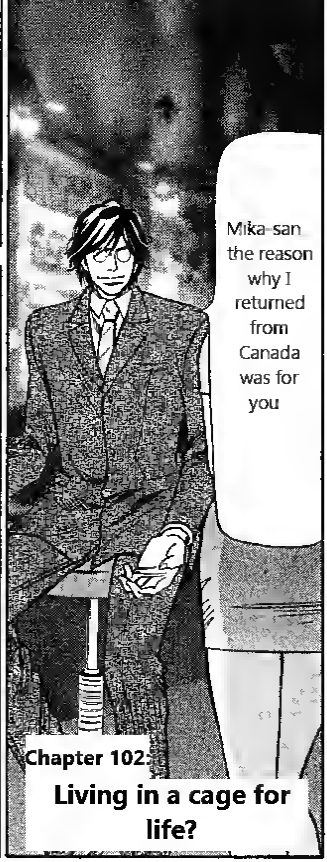
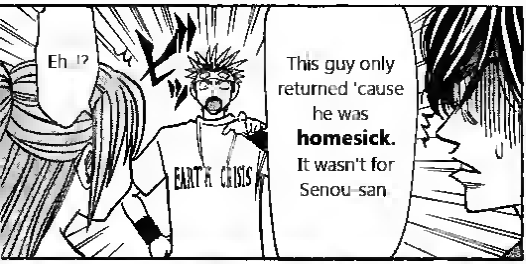
To think that you would go so far for me...
I'm so happy
I offer up both my body and soul to you, doctor



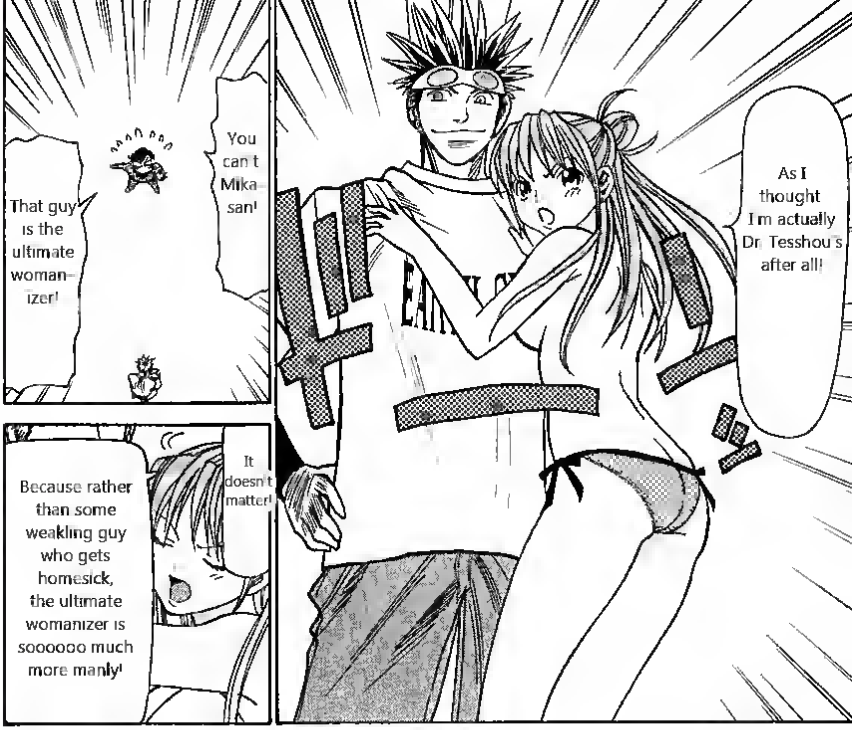
Mika-san the reason why I returned from Canada was for you
Chapter 102:
Living in a cage for life?



Eh...!?
This guy only returned 'cause he was **homesick**. It wasn't for Senou-san
EARTH CRISIS

Mi Mika-san...
Don't be fooled, Senou-san!

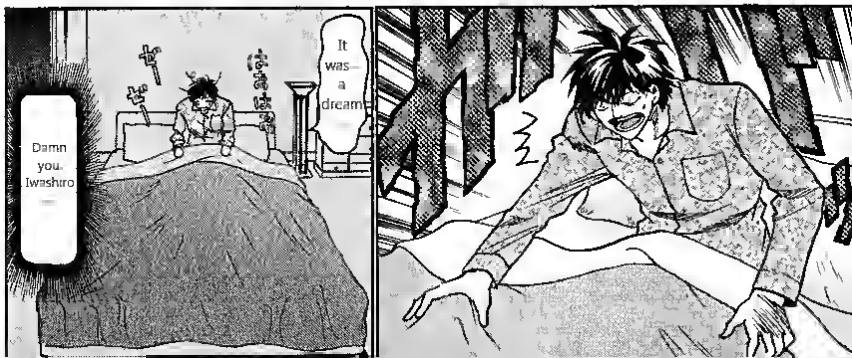
Th..... that's wrong, Mika-san!
You're horrible! How could you lie to me!
Really, Dr. Sakurazaka!?



That guy is the ultimate woman-izer!
You can't Mika-san!
As I thought I'm actually Dr. Tesshou's after all!
It doesn't matter!
Because rather than some weakling guy who gets homesick, the ultimate womanizer is soooooo much more manly!

Mi-Mika-sa..
Mi-Mika-saaaan
No way
Wha
Idiot, idiot, Sakura-zaka's an idiot!

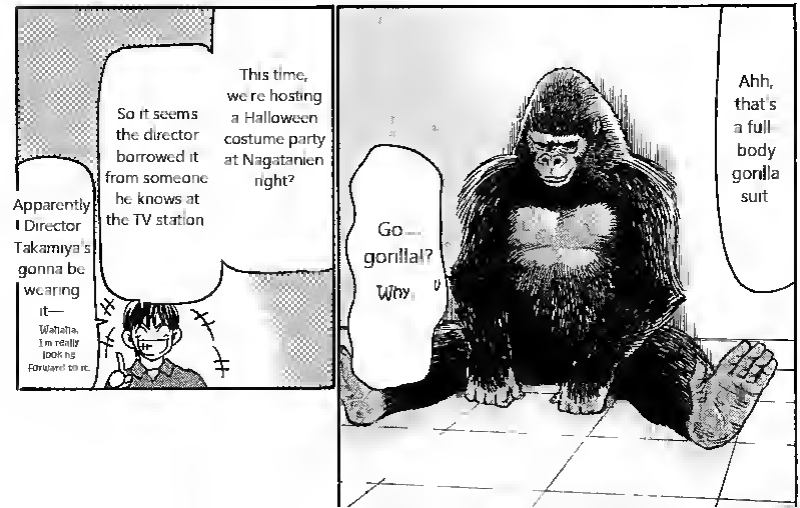
2



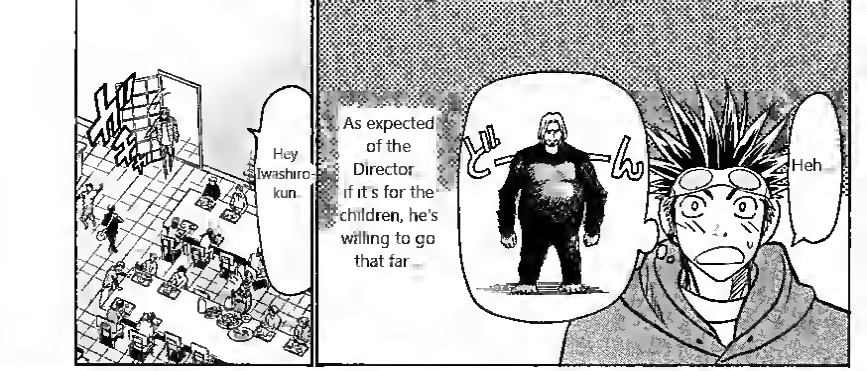
Damn you, Iwashiro
It was a dream

I will never forgive .....
A woma-nizer like you!!
Chapter 102:
Living in a cage for life?

永田町駅
At Nagatanien...
Shoot, I'm on duty today—
Ou-chan, you're already going to school?
Here Tesshou I brought you another serving—
Ohh thanks!
I'm heading off
By the way, it's been bothering me, but what's that furry thing?

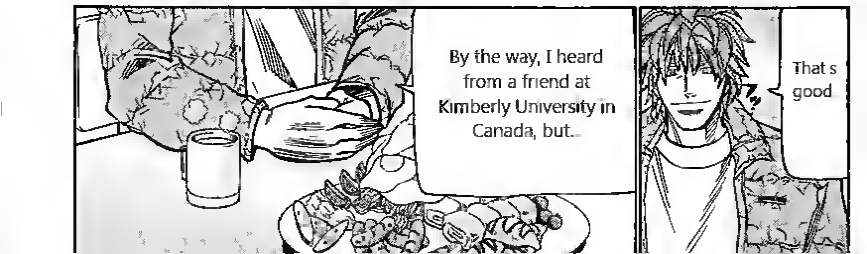


Apparently Director Takamiya's gonna be wearing it—
Wahaha. I'm really looking forward to it.
So it seems the director borrowed it from someone he knows at the TV station
This time, we're hosting a Halloween costume party at Nagatanien night?
Go— gorilla!?
Why
Ahh, that's a full body gorilla suit



Hey Iwashiro-kun.
As expected of the Director... if it's for the children, he's willing to go that far...
Heh...

According to what I heard, it seems you've been on night watch every night. Please watch out for your body.
So, did Iwashiro-kun just come back now?
Ah Dr. Kikiki! For you to be coming here, what's up?
I just had a little business with the owner
Recently, someone called Dr. Kuroki has been helping out, so I've been able to rest quite a bit!
Ahh I'm completely fine!



By the way, I heard from a friend at Kimberly University in Canada, but...
That's good

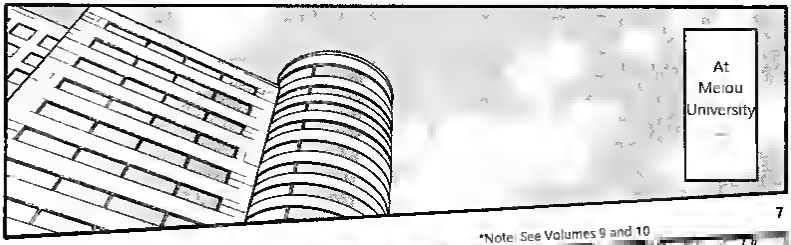
No. I don't know him. I haven't met that guy.
Some person called Sakurazaka-san went to Canada from Meiou University, but because he got severely homesick, it seems that he returned to Meiou University again.
Has Iwashiro-kun already met him?
I see...
Actually, my friend in Canada is pretty worried about him, so...
If you meet him, could you tell me how he's doing?

Tesshou!
But Sakurazaka, I feel like I've heard that from somewhere.
Ahh, got it.
Then I'll be seeing you, Iwashiro-kun. Rest properly.
Okay!

6

Ah, Iwashiro-kun?
Yes, it's Iwashiro.
Hm? What is it?
You have a phone call from Meiou University.

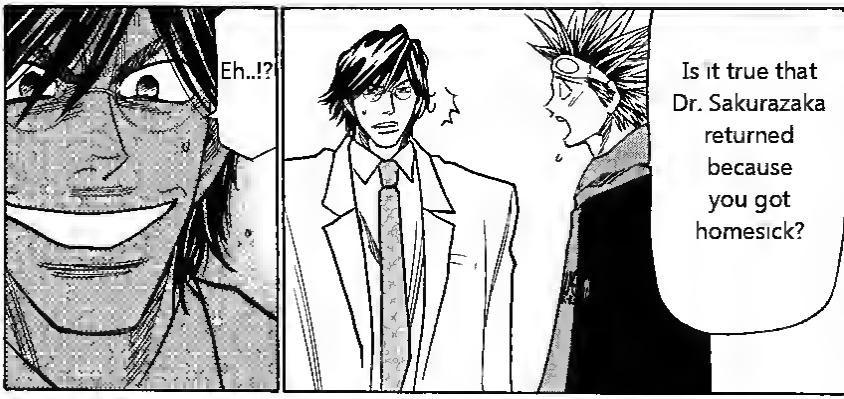
.....!?
It seems that Dr. Sakurazaka has something that he wants Iwashiro-kun to do immediately
I feel bad but could you come back to the hospital?
Even though you just got home sorry



*Note: See Volumes 9 and 10

Now that I think of it, you did say you were an assistant professor from Meiou!
Actually, up until now I've been working at a university in Canada, but now that I've returned to Meiou again.
I am currently responsible for looking after wildlife as an assistant professor.
...It's been a while, Iwashiro-kun.
Ahhh ahhh ahhhhh! So, Dr. Sakurazaka was from that kangaroo case*!!
Ahhhh!!
外科学
第一研究室

Ohh! Same here, looking forward to working with you!
I look forward to working with you, Iwashiro-kun!
In other words, I have become your **superior** ....!
By the way....



Eh..!?
Is it true that Dr. Sakurazaka returned because you got homesick?

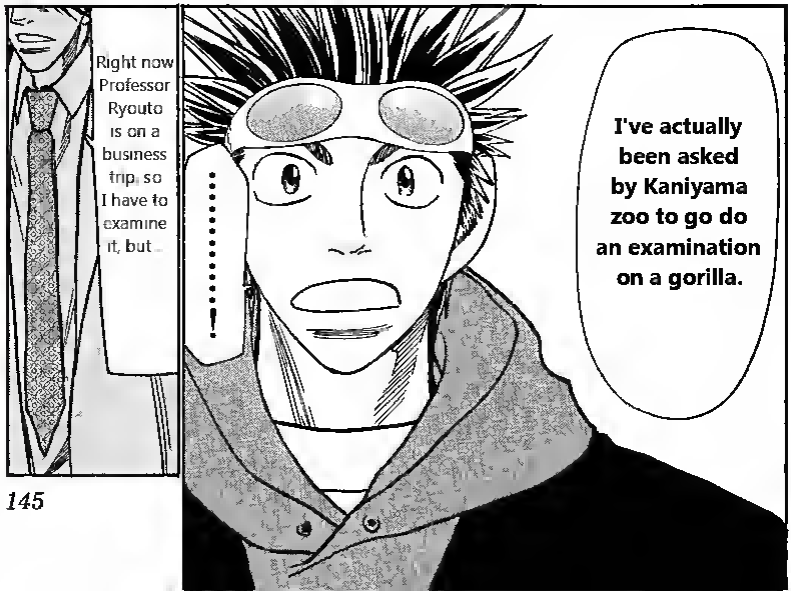
ガヘ ガヘ
I heard that it was pretty serious, but are you alright now?

W-why!?
Hahaha wha-what are you saying, I never got **homesick.**

So about the reason why I've called you today...
In-any case I have to return to the main point or else...
If it gets out, it'd be way too uncool

Of-of course. Hahaha
Hm? Really?
Why the hell does he know thaaaat!?

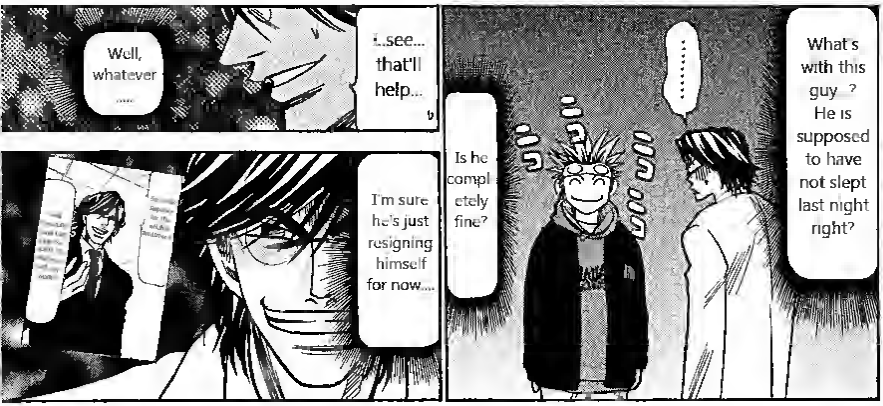
9



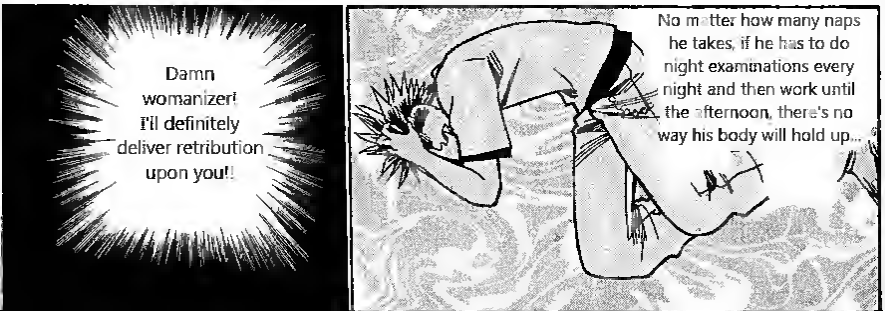
Right now Professor Ryouto is on a business trip, so I have to examine it, but...
.....!
I've actually been asked by Kaniyama zoo to go do an examination on a gorilla.

I understand that you just had an all-nighter due to taking care of night examinations, but could you come with me right now to Kaniyama zoo?
As you may know gorillas are an animal that still have many mysteries about them
If possible I'd like to bring together the knowledge of multiple vets so that we can treat it with certainty
Fu fu fu...
.....
Even if you say you're tired, it's useless.
Got it!
Because this is an order from your **superior, me!!**
10
....eh?

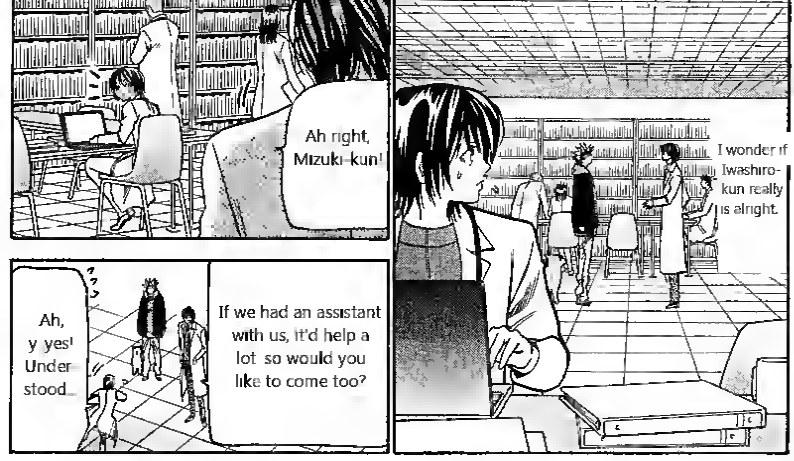
I don't know what illness it is, but I'm worried about that gorilla, so..
Please bring me along with you!



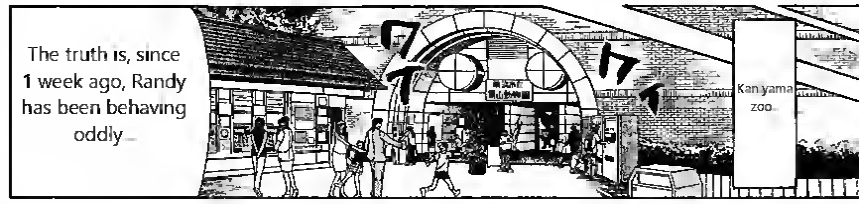
What's with this guy ? He is supposed to have not slept last night right?
Is he completely fine?
I'm sure he's just resigning himself for now....
..see... that'll help...
Well, whatever .....



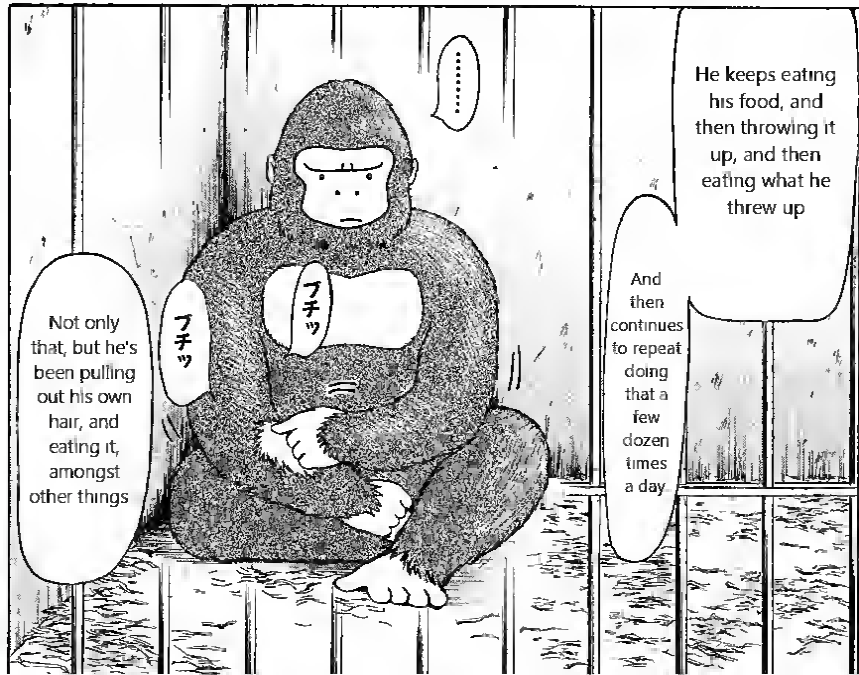
No matter how many naps he takes, if he has to do night examinations every night and then work until the afternoon, there's no way his body will hold up...
Damn womanizer! I'll definitely deliver retribution upon you!!



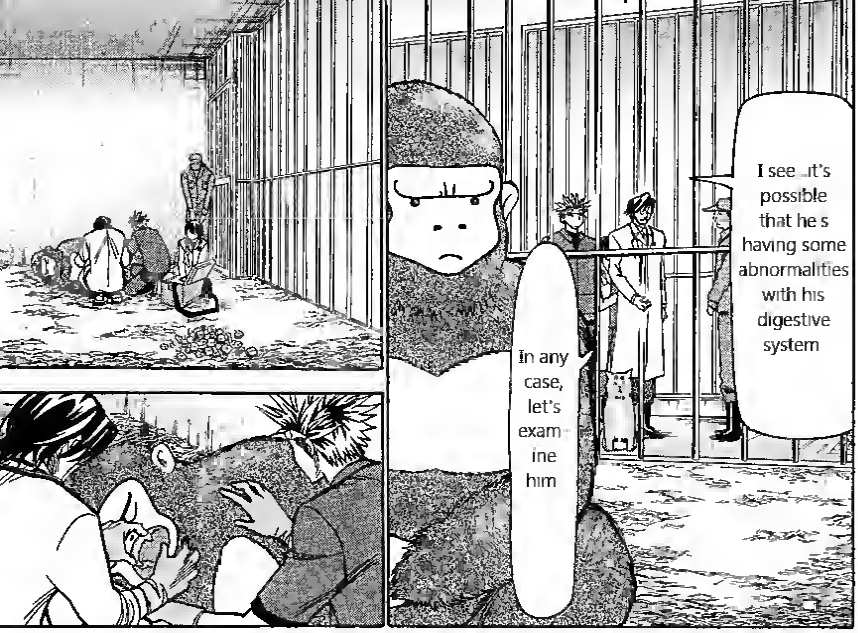
Ah right, Mizuki-kun!
I wonder if Iwashiro-kun really is alright.
Ah, y yes! Understood...
If we had an assistant with us, it'd help a lot so would you like to come too?



The truth is, since 1 week ago, Randy has been behaving oddly...
Kariyama zoo...



He keeps eating his food, and then throwing it up, and then eating what he threw up
And then continues to repeat doing that a few dozen times a day
Not only that, but he's been pulling out his own hair, and eating it, amongst other things
.....
ブチッ
ブチッ



I see...it's possible that he's having some abnormalities with his digestive system
In any case, let's examine him

.....

...there weren't any abnormalities
Um... how was it?
Eh....!?

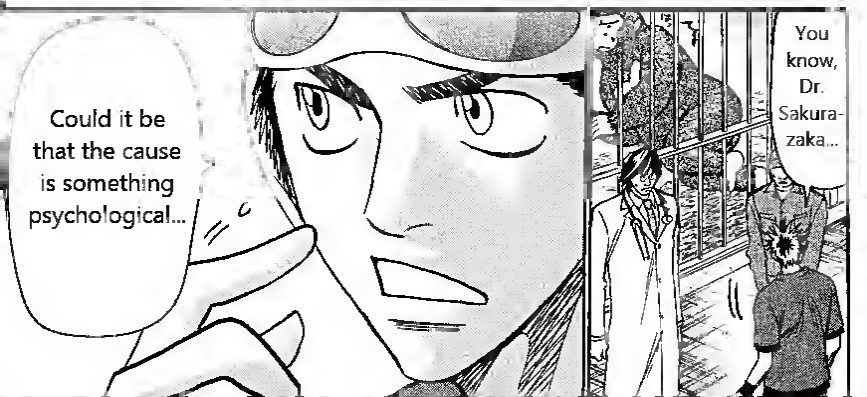
Except for waiting to see what happens, there isn't anything else we can do.
Even if you say that, there isn't anything wrong.
No... way...
It definitely isn't normal, right!!
B...but, there's no way that wild gorillas would have such behaviour, and...

It's obvious that his behaviour is off...
Dr. Sakurazaka ...while it's true that we didn't find anything wrong,
.....

It's too early to be giving up!!
So let's try to do something!

In truth, I just want to make you even more tired, so that I can crush you!!
In the first place, if there is something that can be done I'd also want to do it...
J...just what are you saying!
Even if you say that, we've already done the whole examination like we should have!
うーん……

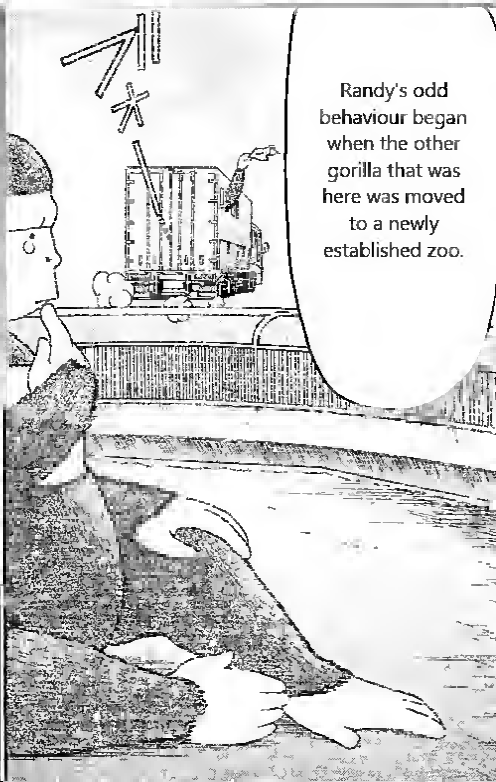
Some person called Sakurazaka-san went to Canada from Meiou University, but because he got severely homesick, it seems that he returned to Meiou University again.
Wait a second



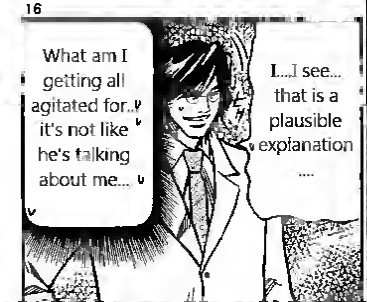
Could it be that the cause is something psychological...
You know, Dr. Sakura-zaka...

Now that you mention it...
Like **homesickness** for example...

Oh, I see!! If that's the case, then it must be that!
He's just sick from loneliness!!



Randy's odd behaviour began when the other gorilla that was here was moved to a newly established zoo.

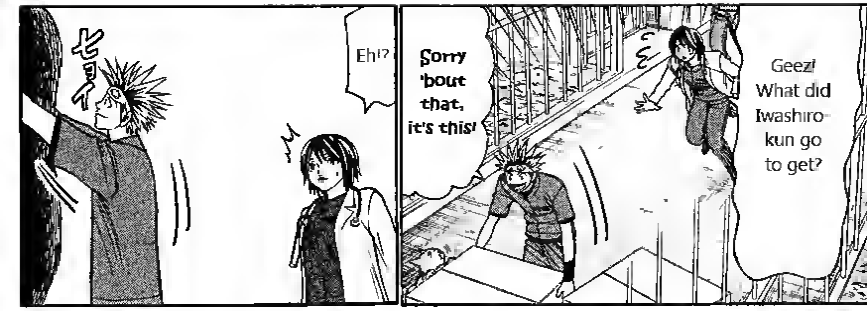


What am I getting all agitated for... it's not like he's talking about me...
I...I see... that is a plausible explanation ....

That's true...
There might not be anything that we can do...
If we give him a continued dosage of tranquilizers, there'd be worries of side effects...
Pl... please doctor...
It's not like we could easily bring another gorilla here...
Um... but then, what should we do?

No that's not all we can do
.....eh!?

Wh... what does he plan on doing...?
Ehh !?
Wait a bit for me—I have something I need to get from Nagatanien!
Oh, thanks for waiting!
1 hour later...
GORILLA



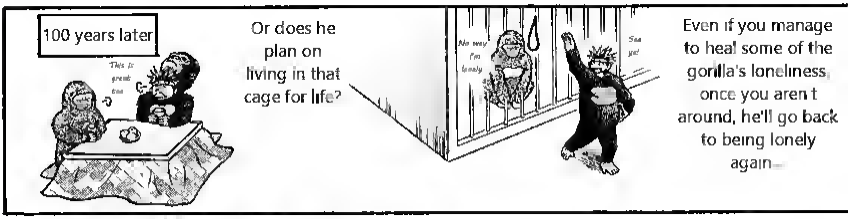
Eh!?
Sorry 'bout that, it's this!
Geez! What did Iwashiro-kun go to get?

D-don't tell me you plan on going into the cage dressed like that, so that the gorilla won't feel as lonely...
Yeah!
EHHHH!?

In order to distract them from the loneliness, I've also heard of some people using stuffed animals!
When only one of an animal that usually lives in groups* is kept,
It might just be a great idea!
B but unexpectedly

*Note: Gorillas are animals that live in groups

But I wonder if he realizes it...
That method might have some results...
It's... true...
Like that, it might work out somehow.
For animals like gorillas with a higher level of intelligence, a normal stuffed animal will be exposed as a fake, but...



100 years later
This is great tea
Or does he plan on living in that cage for life?
No way! I'm lonely
See ya!
Even if you manage to heal some of the gorilla's loneliness, once you aren't around, he'll go back to being lonely again...

*Note: Gorillas don't live for 100 years.

I hope you enjoyed the chapter!!

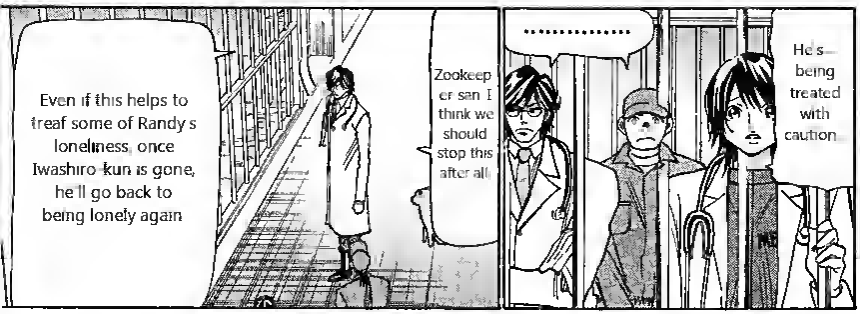
Come on Randy I'm your friend—
Hmm, maybe it's no good
Chapter 103:
A good Dian



Even if this helps to treaf some of Randy's loneliness, once Iwashiro-kun is gone, he'll go back to being lonely again
Zookeeper san I think we should stop this after all
.....
He's— being treated with caution

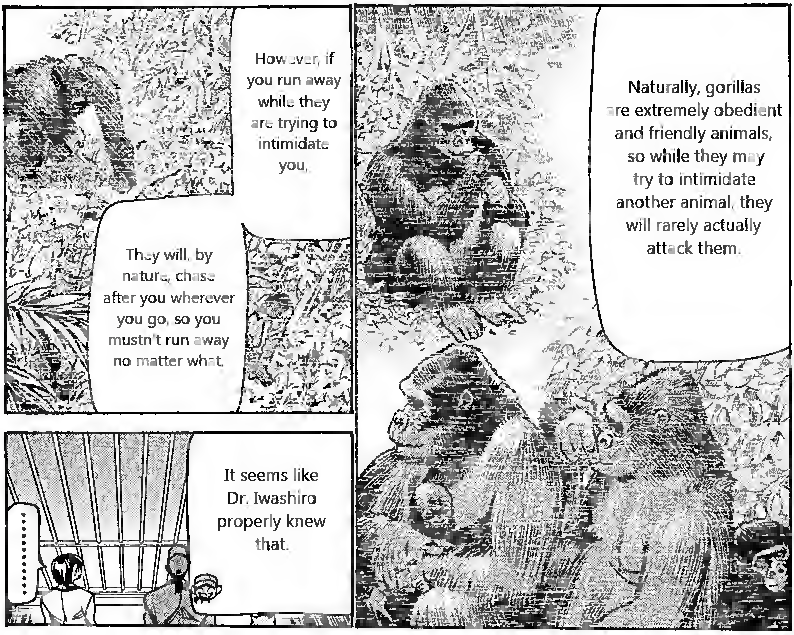
Ahh..
And even if the chance is small if he attacks him, it could become a big problem..

Chapter 103: A good Dian

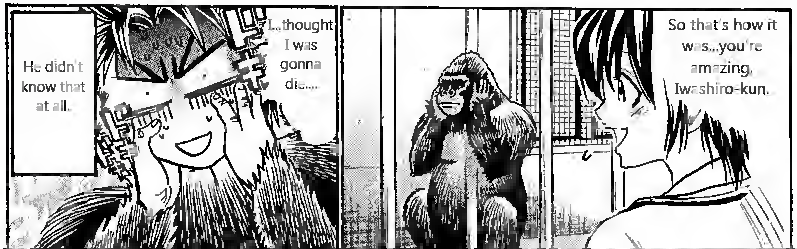
ピキ
……？

Wh.. why did h.. stop?

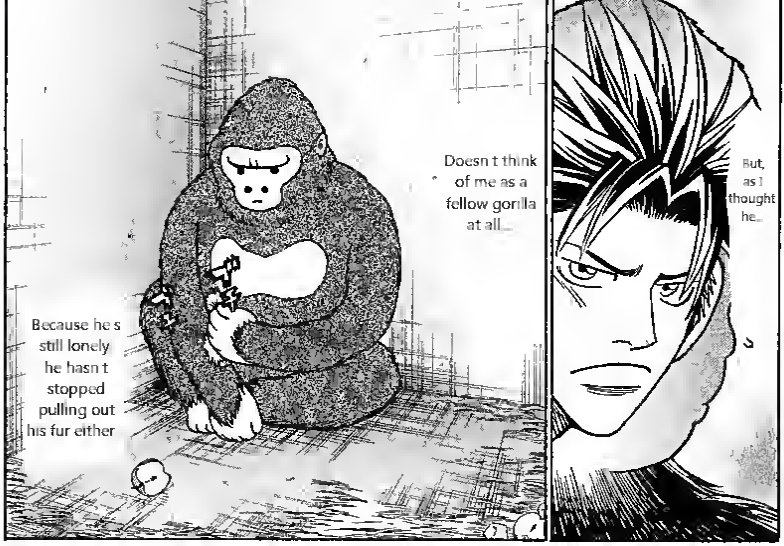
Eh ?
It's likely because he didn't run away



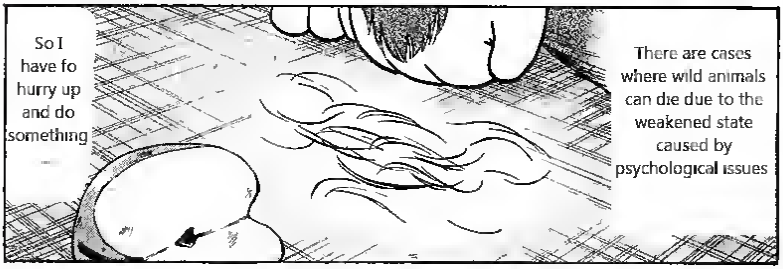
However, if you run away while they are trying to intimidate you,
They will, by nature, chase after you wherever you go, so you mustn't run away no matter what.
Naturally, gorillas are extremely obedient and friendly animals, so while they may try to intimidate another animal, they will rarely actually attack them.
It seems like Dr. Iwashiro properly knew that.



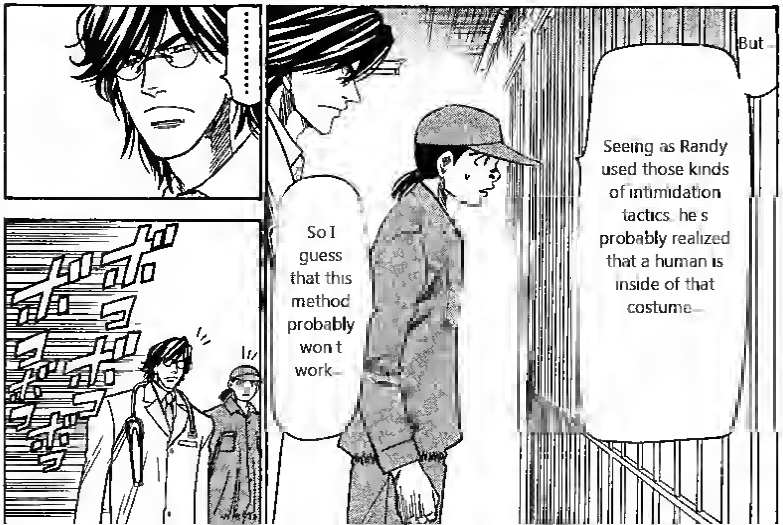
He didn't know that at all.
I...thought I was gonna die....
So that's how it was...you're amazing, Iwashiro-kun.



Because he s still lonely he hasn t stopped pulling out his fur either
Doesn t think of me as a fellow gorilla at all...
But, as I thought he...

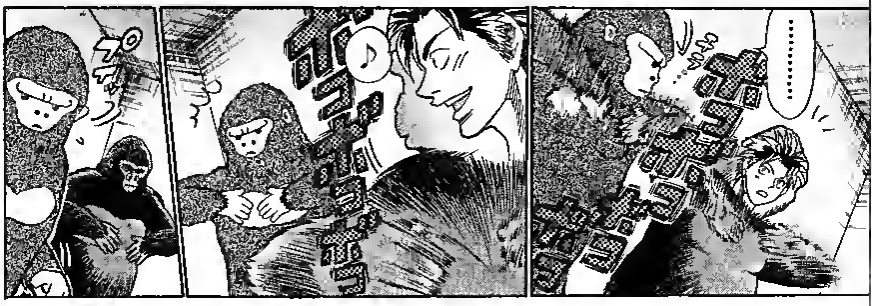


So I have fo hurry up and do something
There are cases where wild animals can die due to the weakened state caused by psychological issues

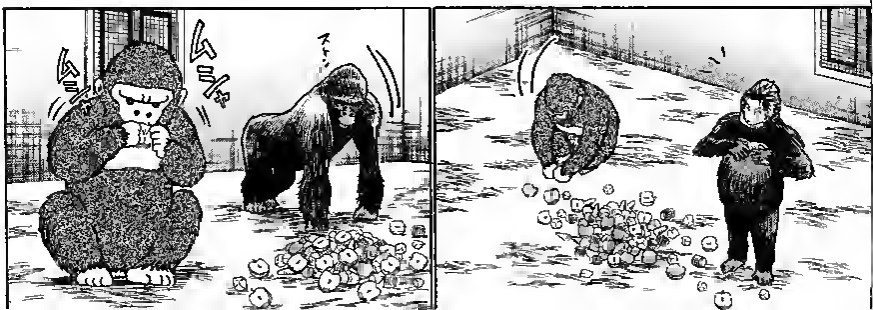


But...
Seeing as Randy used those kinds of intimidation tactics, he s probably realized that a human is inside of that costume...
So I guess that this method probably won t work...

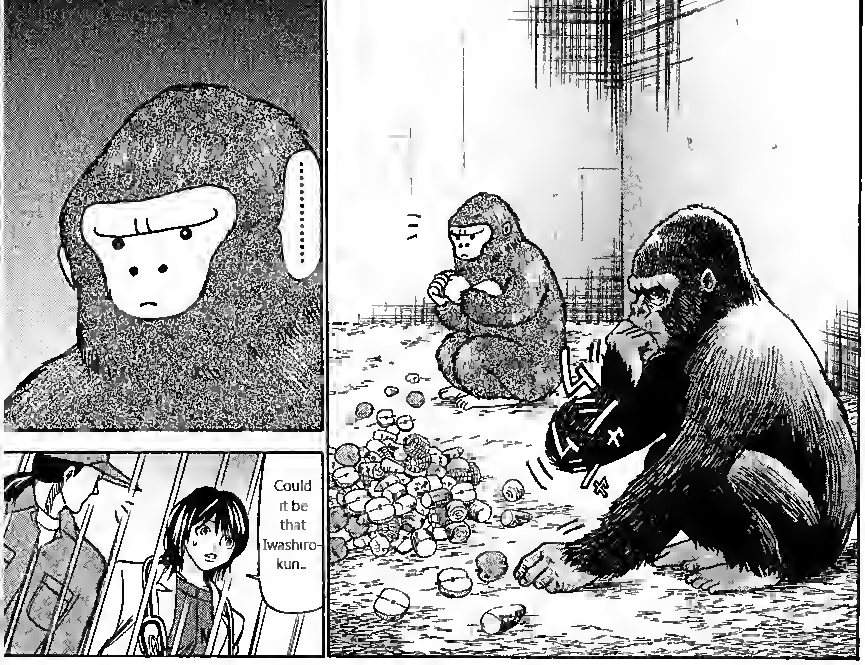
!?
ボコボコボコボコボコボコ



プッ
ボコボコボコ
……
ボコボコボコ



ムシャムシャ
スッ
ハ！



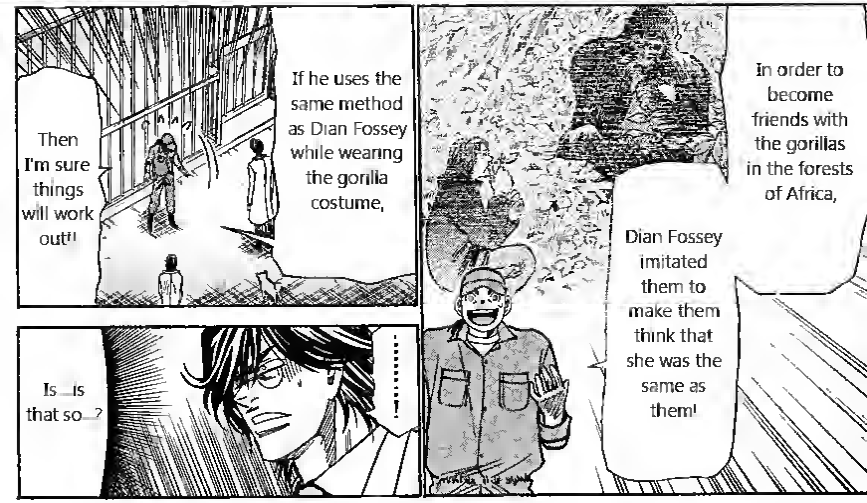
.....
Could it be that Iwashiro-kun..

ぱく ぱく
.....
Th... that's stupid ...!
That's way too stupid .....!
Is imitating a gorilla in order to have Randy think of him as a friend...?

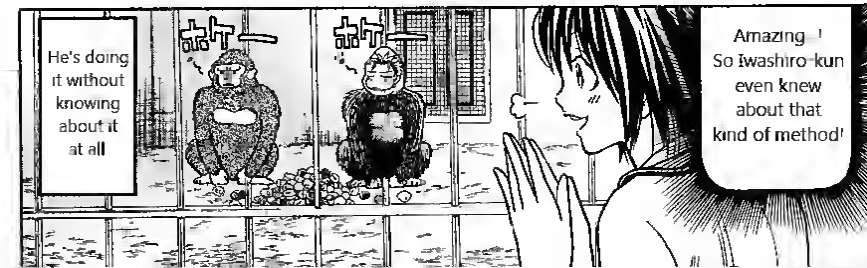
I see...!

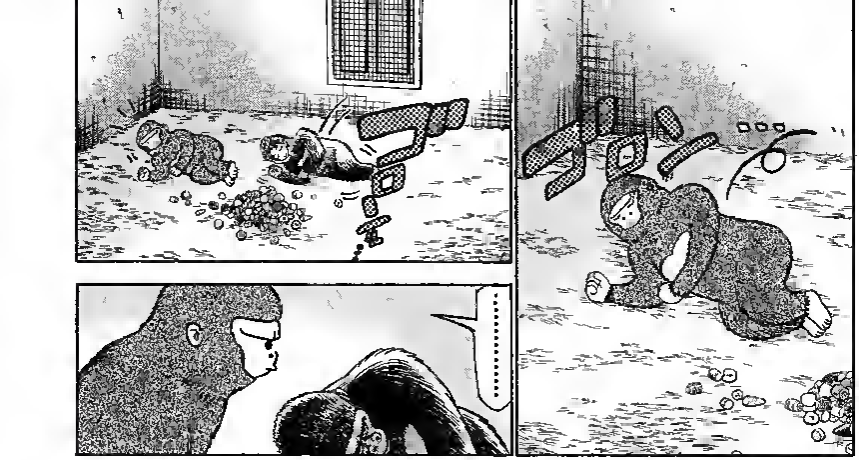
Eh?
I'm sure that Dr. Iwashiro is trying to use the same methods as Dian Fossey!
You know, from that famous movie "Gorillas in the Mist"!
Dian Fossey: a woman who existed in real life and poured her entire life into protecting African gorillas and the forest that they lived in. The book about her life's work, "Gorillas on the Mist" has also been made into a movie.

T/N: They actually call it "Love beyond the fog", which I assume is the Japanese name for Dian Fossey's book/movie.

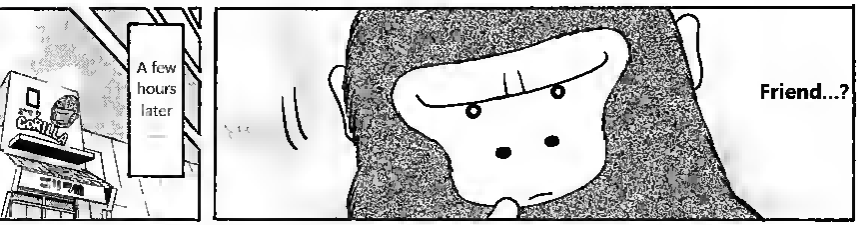


Then I'm sure things will work out!!
If he uses the same method as Dian Fossey while wearing the gorilla costume,
In order to become friends with the gorillas in the forests of Africa,
Dian Fossey imitated them to make them think that she was the same as them!
Is...is that so...?
.....!

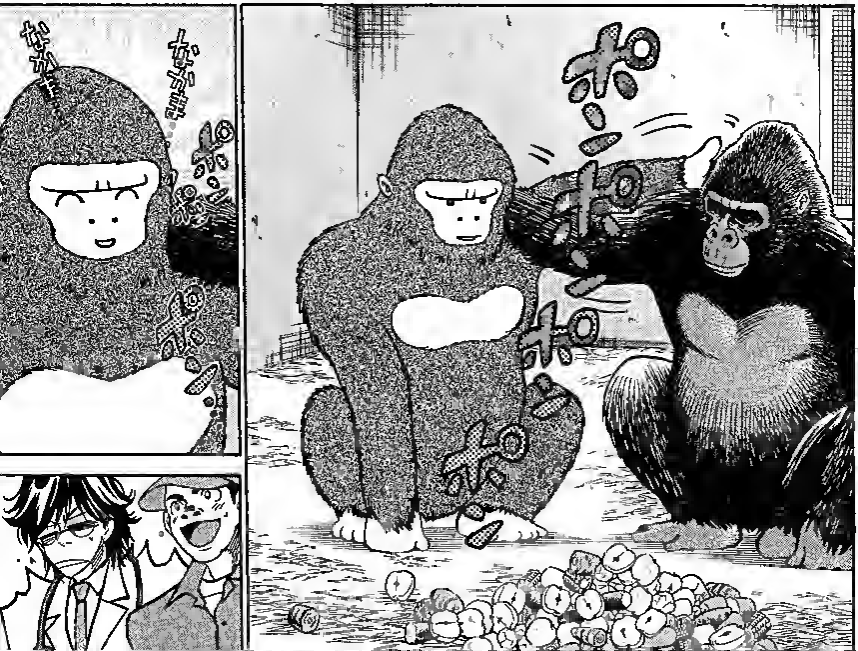




ゴロン
……



A few hours later
Friend...?



ポポポ
ポポポ
ポポポ
ポポポ
ポポポ
ポポポ

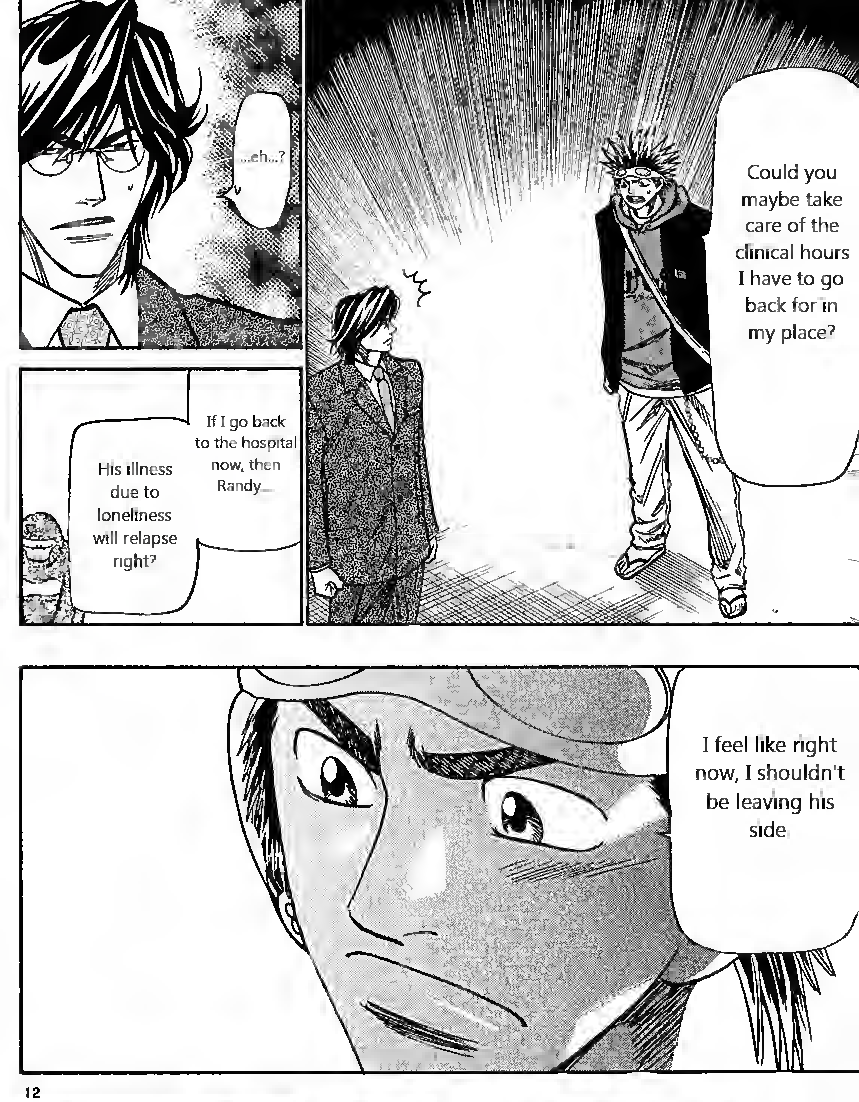
As we thought, Randy's illness was due to loneliness!
And for a while now, Randy hasn't been pulling out his hair, nor has he been throwing up anything he's been eating!
When gorillas hit each other's shoulders like that, it's a sign that they see each other as friends!
A..amazing..! To think that he's able to get along with Randy to that extent..!
.....

We have to go soon!
Iwashiro kun! It's almost time for your clinic hours!
Oh!? It's already this late?
Eh..? It's already that time?

Friend, where are you going?
Eh?

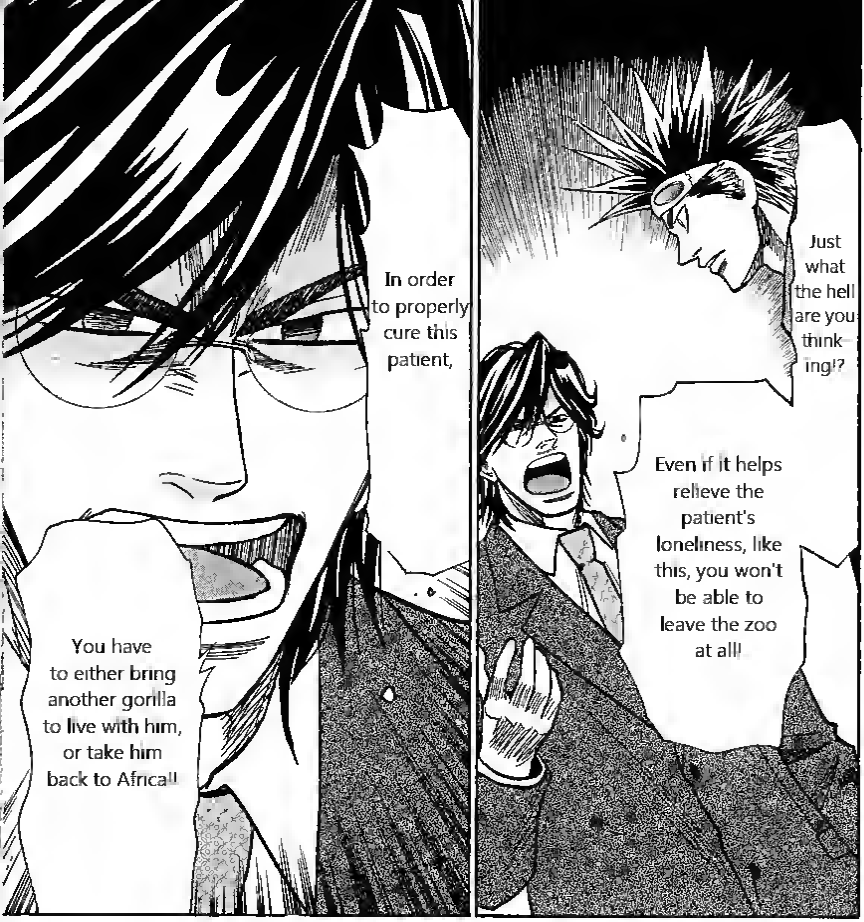
See you, Randy! I'll come back again!
ガラッ…
しょぼん…
Disappointed…
しょぼん…
……

ゴリラ館
Thank you very much for today!!
……
Say, Dr. Sakurazaka. I have a small favour to ask of you.
?

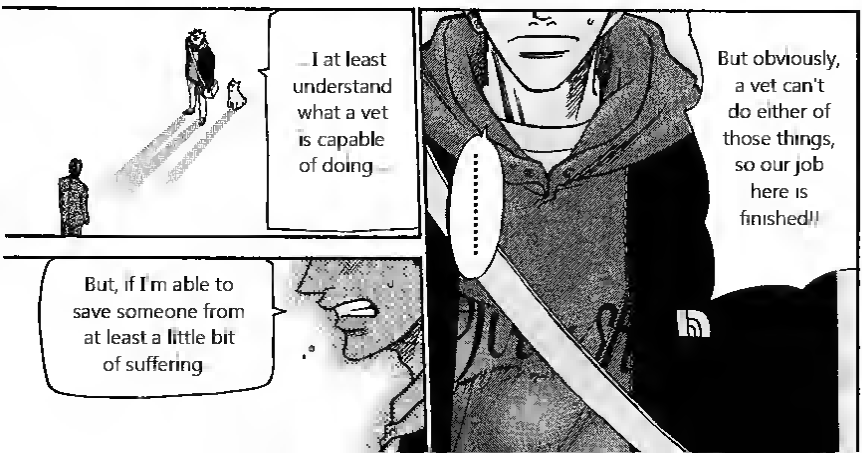


...eh...?
Could you maybe take care of the clinical hours I have to go back for in my place?
If I go back to the hospital now, then Randy...
His illness due to loneliness will relapse right?
I feel like right now, I shouldn't be leaving his side

I've been wanting to say this since earlier, but....
.....



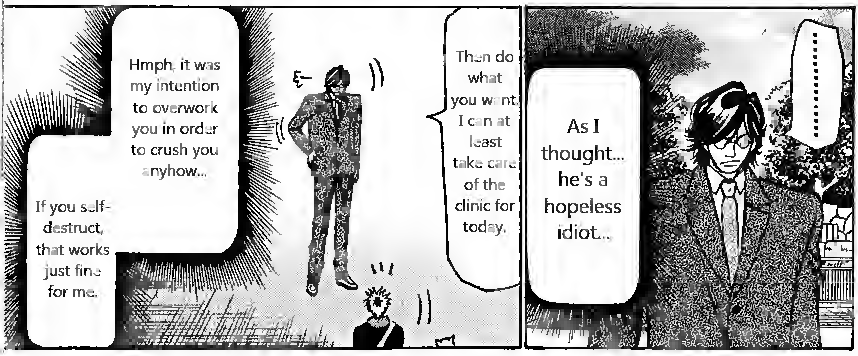
In order to properly cure this patient,
You have to either bring another gorilla to live with him, or take him back to Africa!!
Just what the hell are you thinking!?
Even if it helps relieve the patient's loneliness, like this, you won't be able to leave the zoo at all!



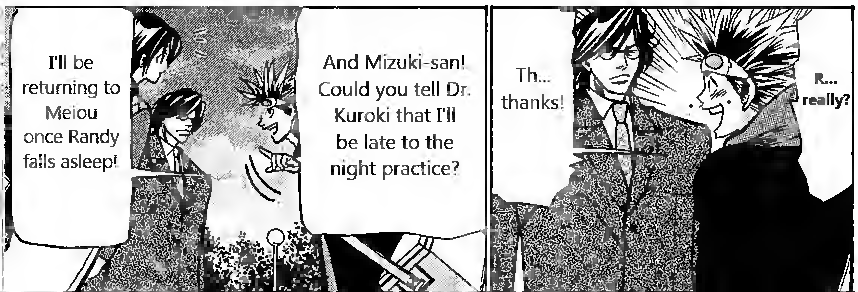
...I at least understand what a vet is capable of doing...
But, if I'm able to save someone from at least a little bit of suffering
.....
But obviously, a vet can't do either of those things, so our job here is finished!!

Let me stay here!!
Plea-se!
Then I want to do everything that I can!!
J...just what is he...
.....
14
Th...then, let me ask, but even if I take over your clinical duty for today,
What do you intend to do from tomo-rrow on?
Don't tell me you intend on having someone else take over your duties everyday
And then ght after your all-nighters for night practice come here again!!

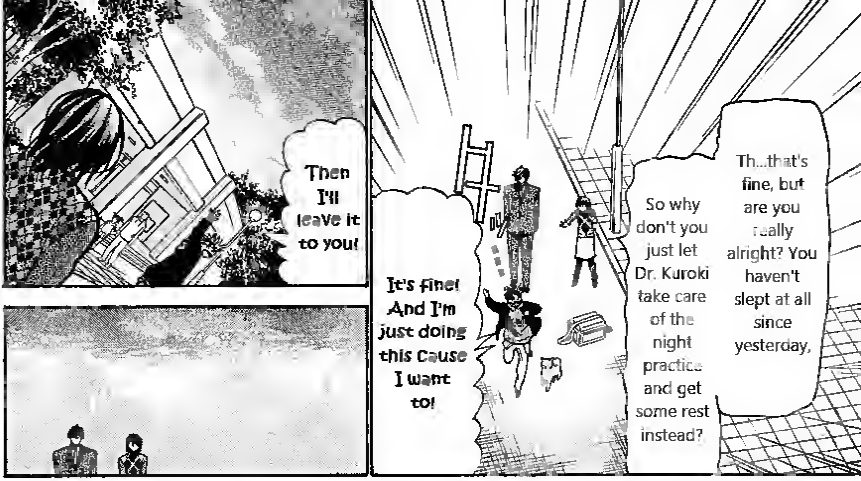
Yeah, even if I had to do that!!



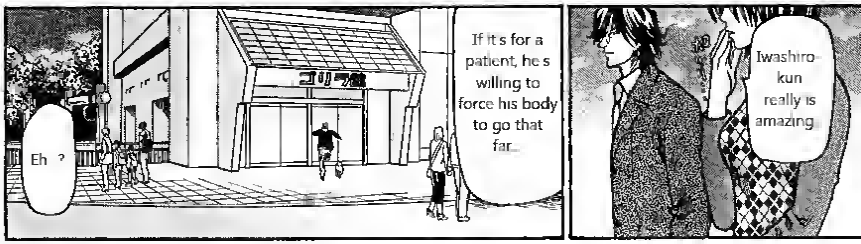
Hmph, it was my intention to overwork you in order to crush you anyhow...
If you self-destruct, that works just fine for me.
Then do what you want. I can at least take care of the clinic for today.
As I thought... he's a hopeless idiot...



I'll be returning to Meiou once Randy falls asleep!
And Mizuki-san! Could you tell Dr. Kuroki that I'll be late to the night practice?
Th... thanks!
R... really?



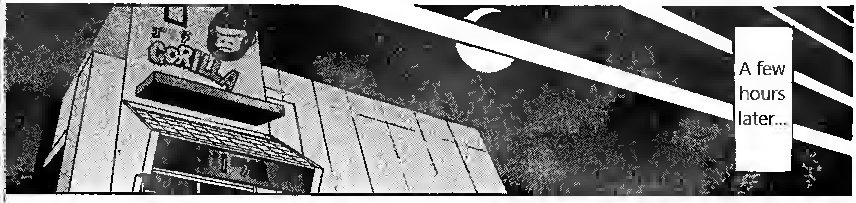
Th...that's fine, but are you really alright? You haven't slept at all since yesterday,
So why don't you just let Dr. Kuroki take care of the night practice and get some rest instead?
It's fine! And I'm just doing this cause I want to!
Then I'll leave it to you!



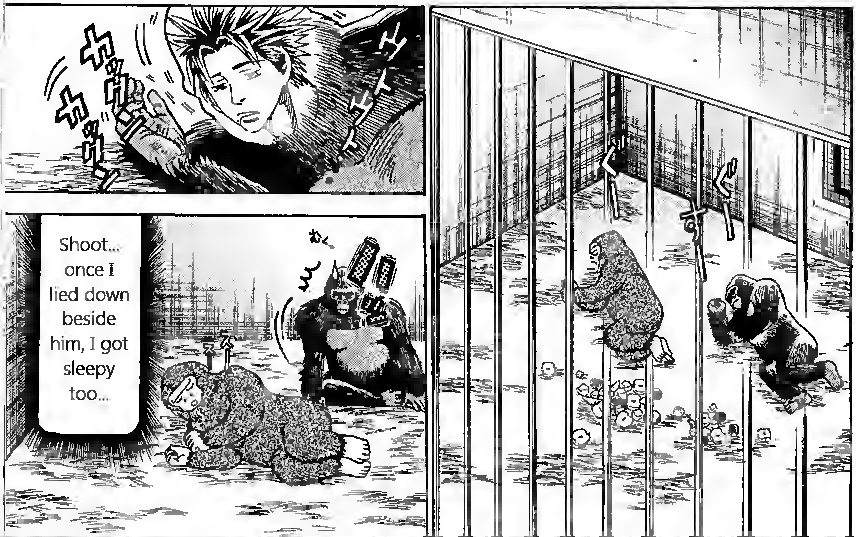
Iwashiro-kun really is amazing
If it's for a patient, he's willing to force his body to go that far...
Eh ?

He truly is a compassionate person...
.....

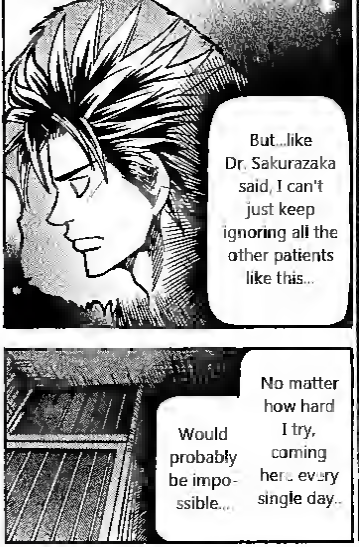
Don't joke around! He's just a womanizer and an idiot!!
Compass ionate... you say?
Truly compassionate people... are probably like that, aren't they.



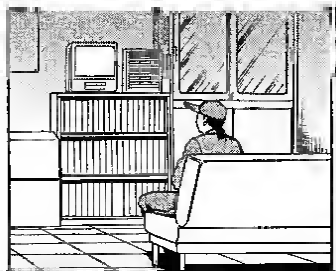
GORILLA
A few hours later...

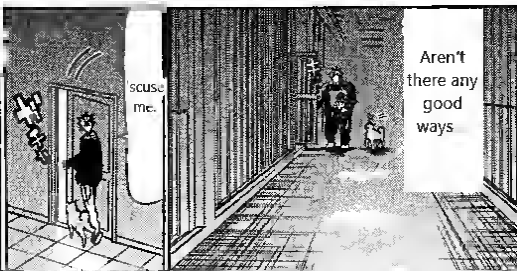


Shoot... once I lied down beside him, I got sleepy too...



If I truly want to help him, I have to find some way for him to live without getting lonely even if I'm not around...

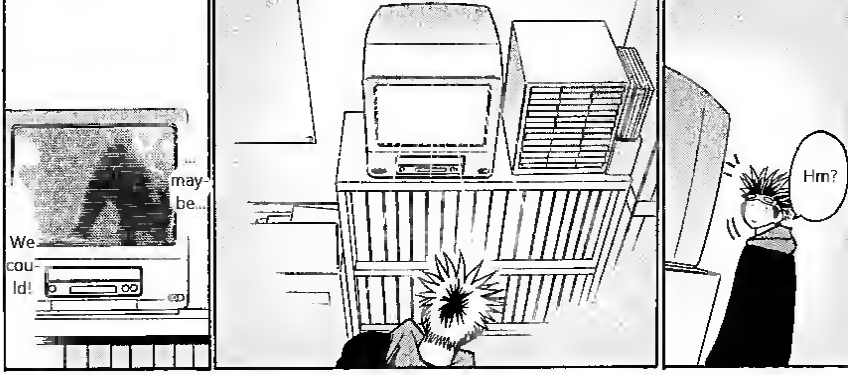


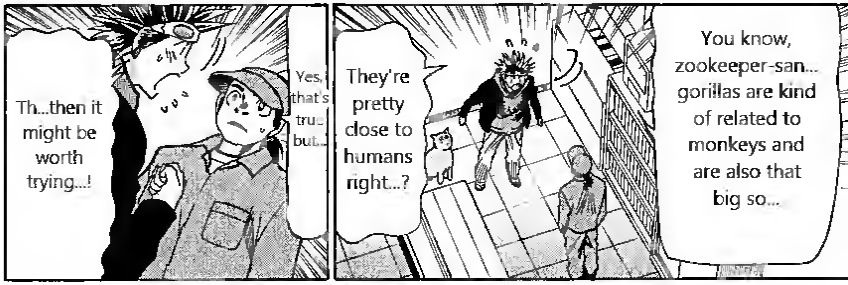


Even though doctor was working so hard, I was watching television...
I'm... very sorry!
Umm... he's already asleep, so I'm gonna be heading back but...
Ah!
Actually, it just so happens that **Dian Fossey's** "Gorillas in the mist" was playing on TV, so I just...

You mean an alternative treatment from what I'm currently doing!
Ah, I see!
Eh? What Dian?
What kind of alternative is **dying horsey*?**
Han?
Right now I'm also trying to think about that too~
Sorry for making you worry

*T/N: In Japanese, he says "Dai-en hoshii" which means "to want an alternative" but it sounds similar to Dian Fossey. This is the best joke I could really make out of it. Sorry.





Th...then it might be worth trying...!
Yes, that's true, but...
They're pretty close to humans right...?
You know, zookeeper-san... gorillas are kind of related to monkeys and are also that big so...

*T/N: Alternative (plan) in Japanese is "dian", which sounds like "Dian"

I hope you enjoyed the chapter!!

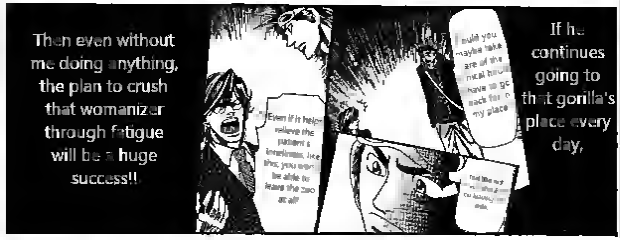
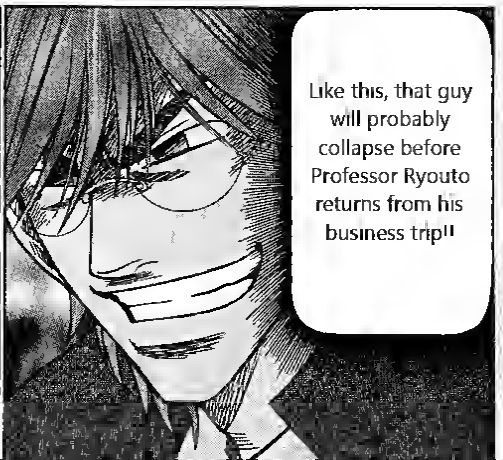
Chapter 104:

What surrounds Tesshou is...



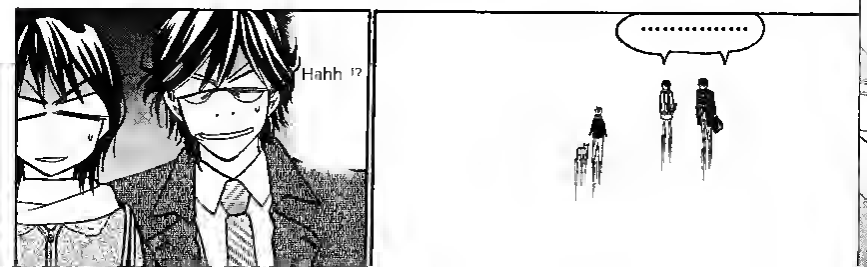
Then even without me doing anything, the plan to crush that womanizer through fatigue will be a huge success!!
If he continues going to that gorilla's place every day,

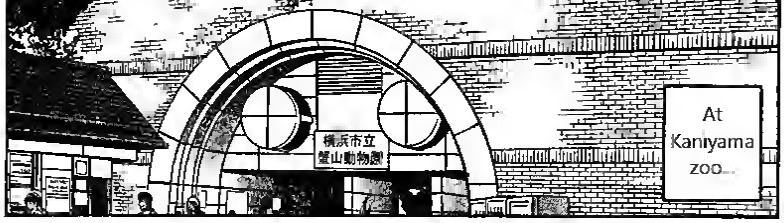


I was thinking of going to Randy's place again now, but you don't mind right?
You came at a great time!
I had something I wanted to talk to you about, so I was waiting!
If you want to do that, then do what you will.
Yeah.
Iwashiro-kun, if you're here right now, then that means that you ended up doing the night practice last night right?
Meaning that you haven't slept at all for 2 days already!
Alright, then I'll be going right now!
Wa... wait a moment!
You should at least rest for today...
No matter what, you're overdoing it!

An alternative where, even if I'm not there every day, he won't get lonely!!
Naw, I actually came up with something yesterday
3
Wha what...!?
It's not like I could just ignore all other patients forever,
And, like Dr. Sakurazaka said, going there everyday would be impossible.
J...just what did you think of?
Ahhh, actually...

What surrounds Tesshou is...

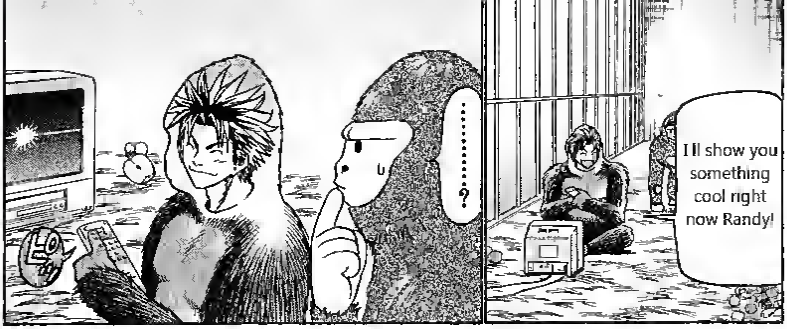




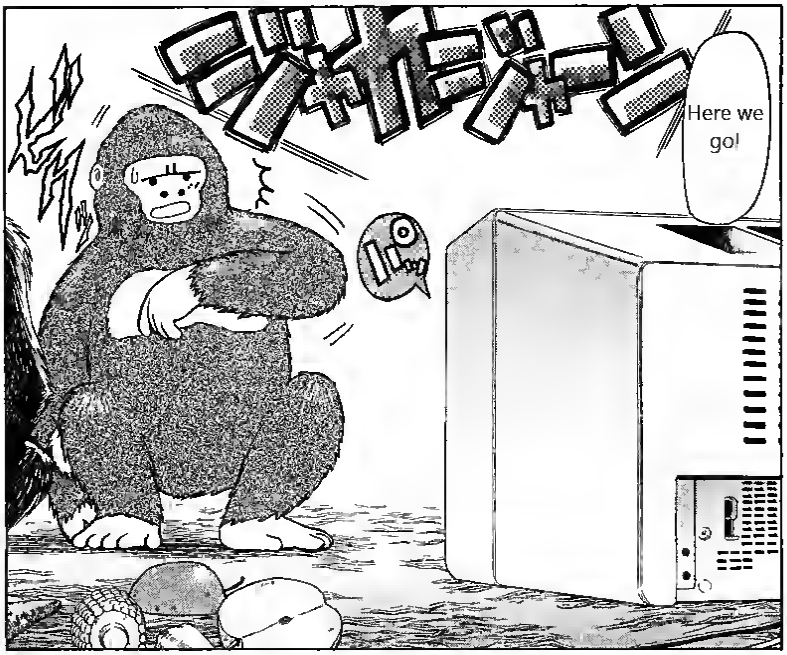
At Kaniyama zoo...

I... apologize zookeeper san
For making you go along with this idiotic plan...
GORILLA
ゴリラ館
Even though I've told him countless times that there's no way a gorilla can watch TV,
He kept saying that he wanted to try it out no matter what

Friend
Friend
It's just...even if gorillas are somewhat intelligent, I don't really think that Randy will be able to watch TV, but....
Then it doesn't hurt to at least try...
No, not at all. If Randy becomes energetic again with this
Alright, everything's all set up!

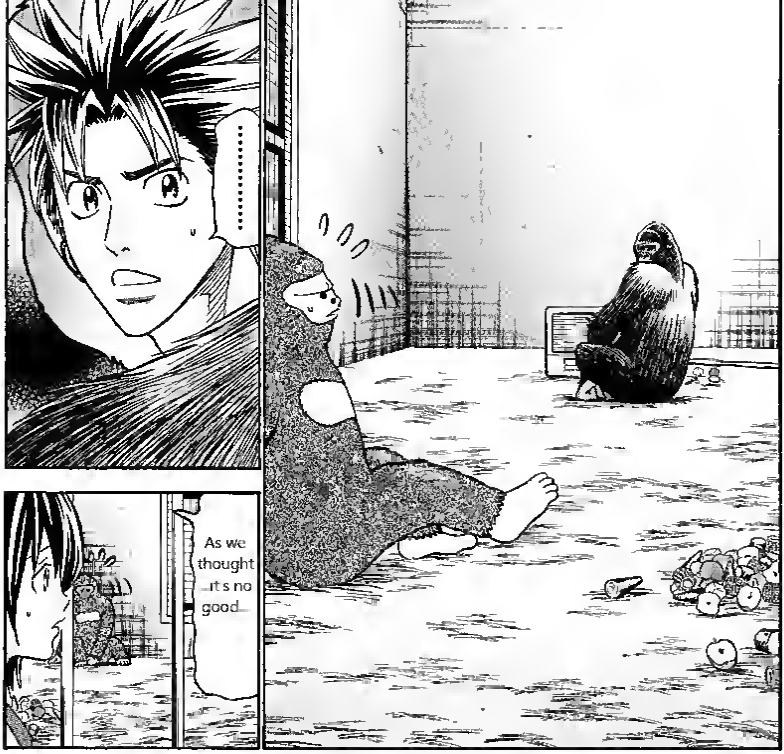


.....?
I'll show you something cool right now Randy!



ドガドガドーン
Here we go!

なに?
What's that?
Look Randy!
you know...
What's with that...

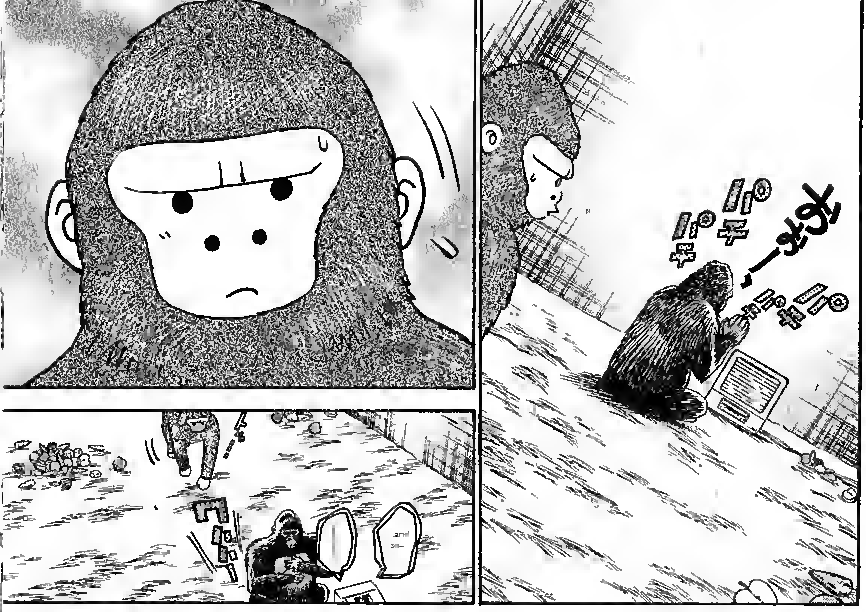


.....
As we thought ...it's no good...

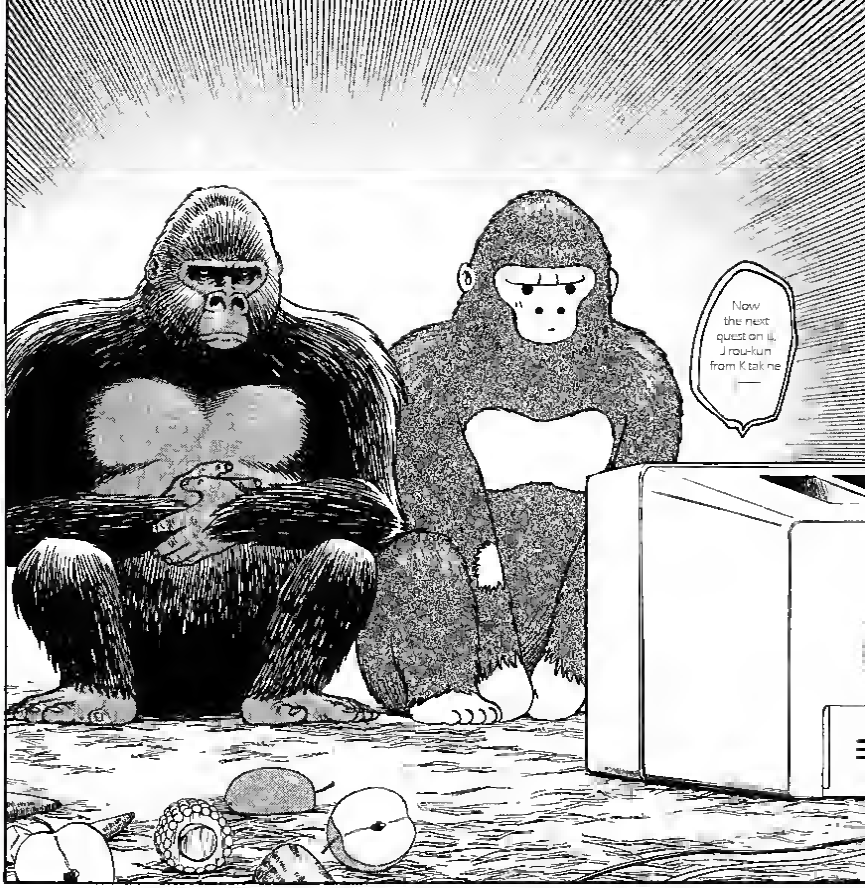
Of course!
If this doesn't work out, then there might not be any other way to save him.
I can't give up so easily...!!

ahh!!
Ohh go go go!!
We are actually biological separated from birth
No way Bekan

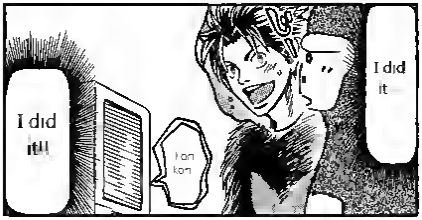
.....?
I wonder what Iwashiro-kun is doing...?
?
that's physical affa



ピピピ

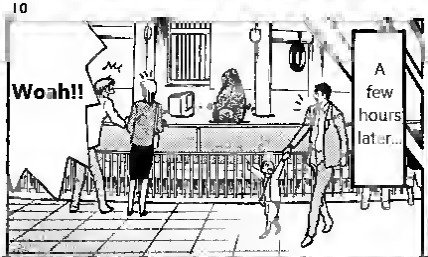


Now the next question is, Urou-kun from Kitakyu——

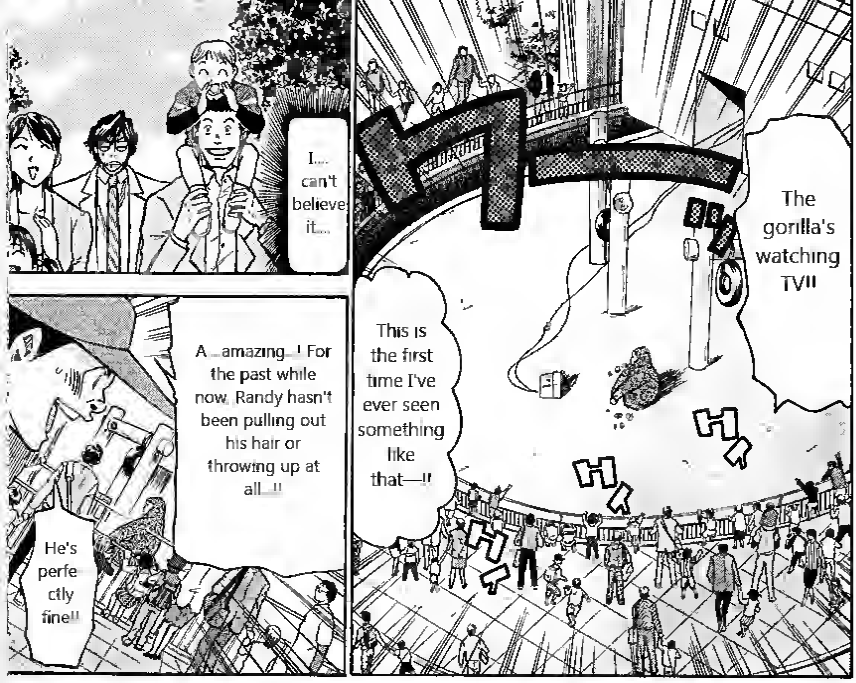


I did it!!
Ton ton
I did it

No way
How could it be
!!



Woah!!
A few hours later...



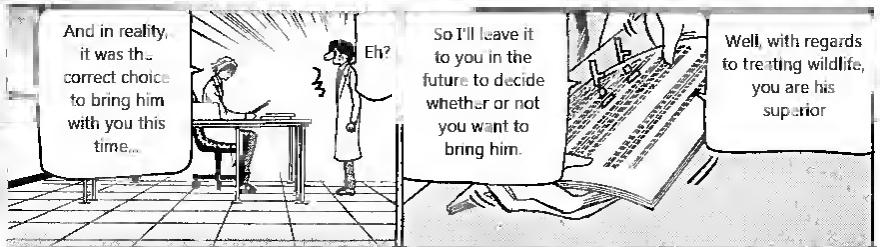
I.... can't believe it....
The gorilla's watching TV!!
This is the first time I've ever seen something like that—!!
A...amazing...! For the past while now, Randy hasn't been pulling out his hair or throwing up at all...!!
He's perfe ctly fine!!

It's great...
This is K-I's first win!
That you're all better now...
Thank you very much!
Everything is all thanks to you, doctor!!

Dr. Sakurazaka, today I've learned a lot.
A veterinarian must never give up...
あせっ
What is this .....
....wha .....
12
This is impossible...!!
Then it's possible that your feelings will get through ...
If you don't give up...

A few days later
I heard everything from Mizuki-san and the zookeeper at Kamiyama zoo
While I was on the business trip, you treated a gorilla together with Iwashiro-kun,
Who had pulled an all-nighter due to night practice
Y... yes...

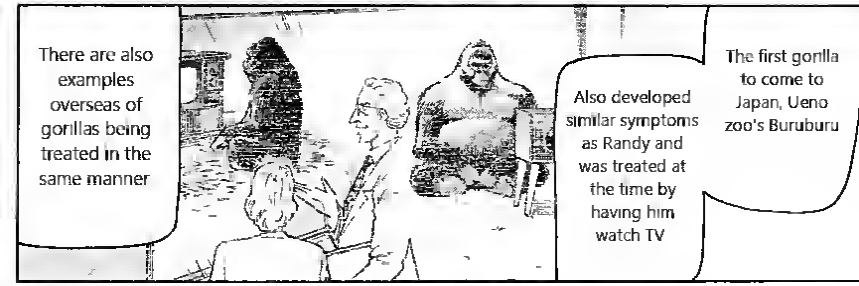
I won't let you complain about it!
I'm his **superior,** so I have the right to give him orders!!
Because gorillas are animals with many mysteries about them still, I thought it'd be better to put our heads together...



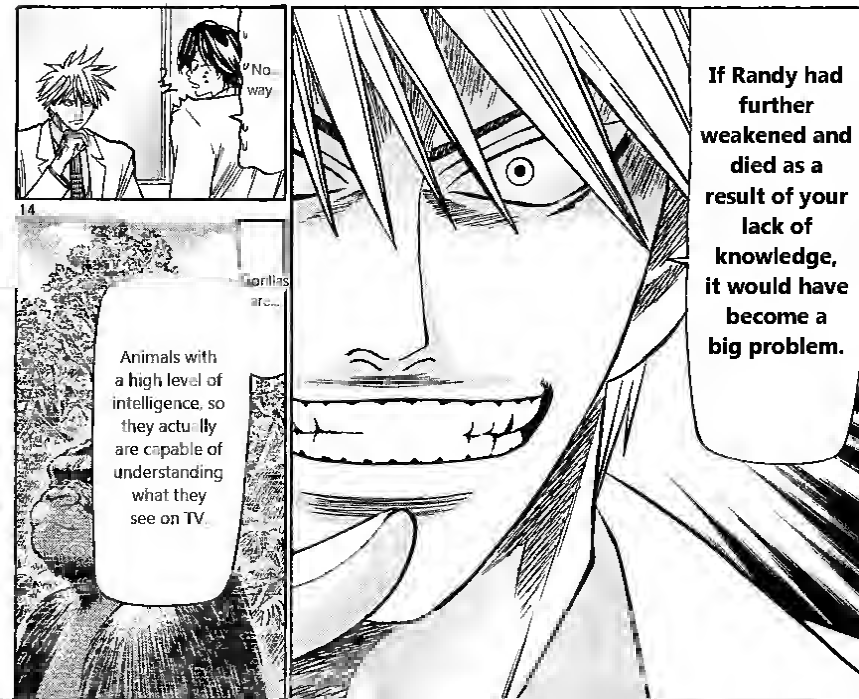
And in reality, it was the correct choice to bring him with you this time...
Eh?
So I'll leave it to you in the future to decide whether or not you want to bring him.
Well, with regards to treating wildlife, you are his superior

.....
ehh!?
Because you didn't know that having gorillas watch TV was a treatment that has actually already been established, right?

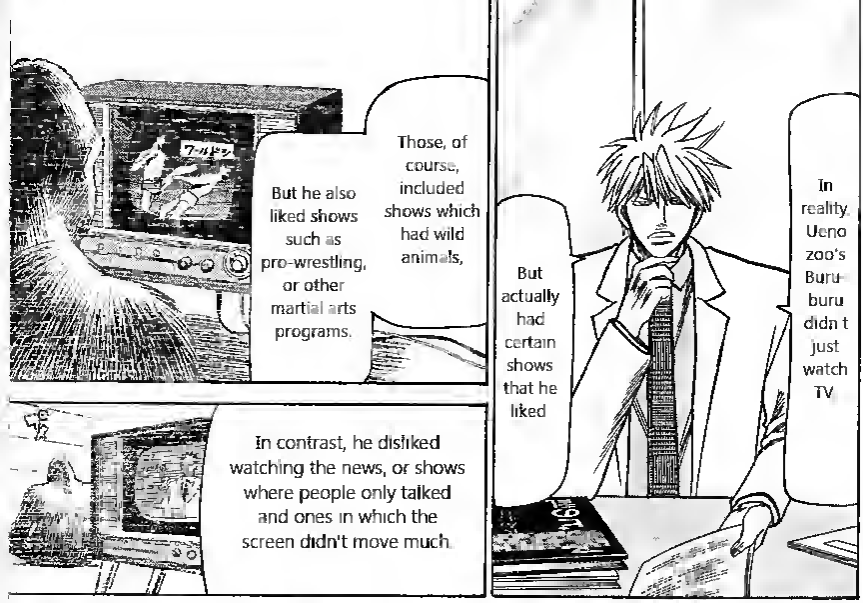
Text: Smiley



There are also examples overseas of gorillas being treated in the same manner
Also developed similar symptoms as Randy and was treated at the time by having him watch TV
The first gorilla to come to Japan, Ueno zoo's Buruburu

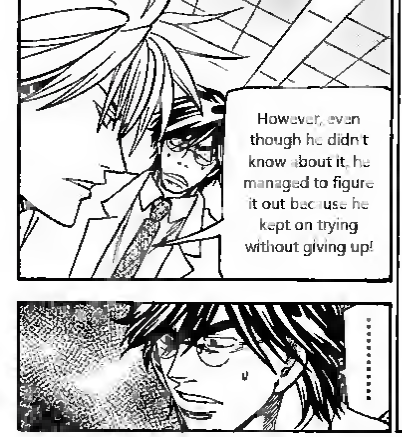


No way
14
Gorillas are...
Animals with a high level of intelligence, so they actually are capable of understanding what they see on TV.
If Randy had further weakened and died as a result of your lack of knowledge, it would have become a big problem.

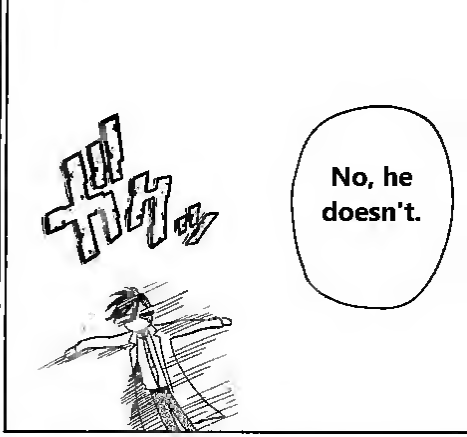


In reality, Ueno zoo's Buru-buru didn't just watch TV.
But actually had certain shows that he liked
Those, of course, included shows which had wild animals,
But he also liked shows such as pro-wrestling, or other martial arts programs.
In contrast, he disliked watching the news, or shows where people only talked and ones in which the screen didn't move much.

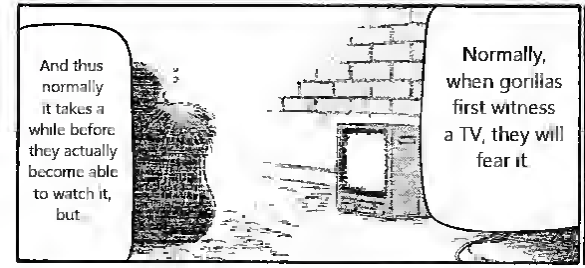
In other words, even if they don't understand the human language, they are able to understant the contents of TV shows to a certain extent.
Th..then, could it be that Iwashiro knew that...



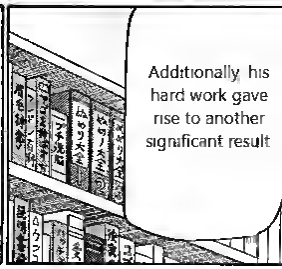
However, even though he didn't know about it, he managed to figure it out because he kept on trying without giving up!



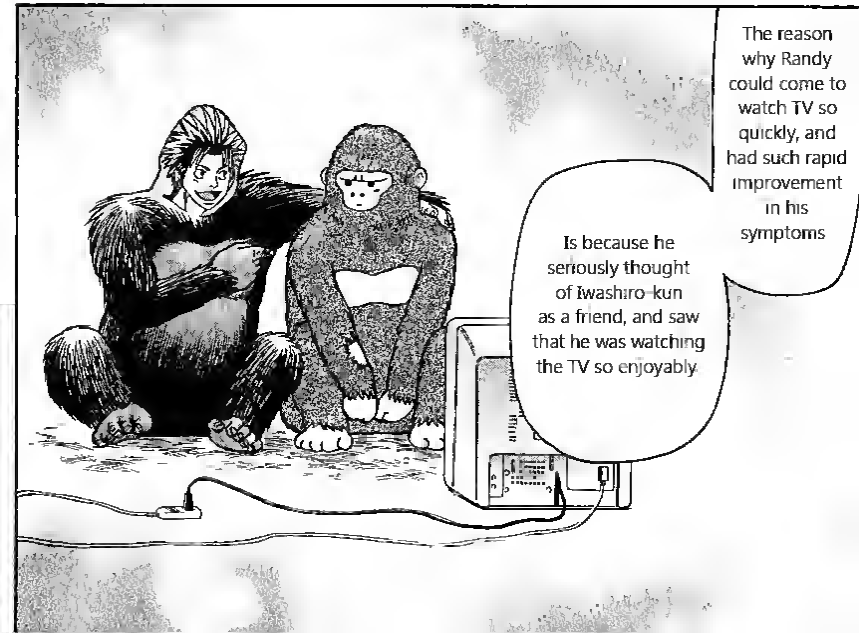
No, he doesn't.



And thus normally it takes a while before they actually become able to watch it, but
Normally, when gorillas first witness a TV, they will fear it

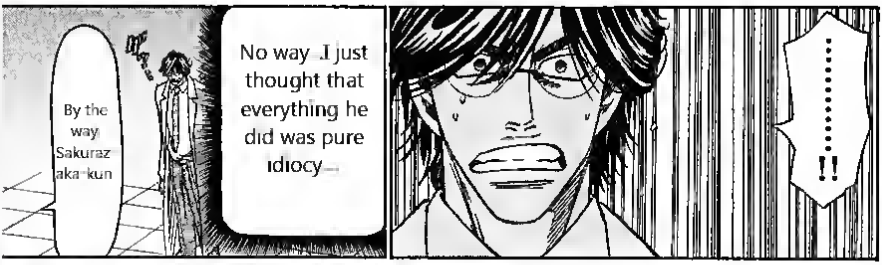


Additionally, his hard work gave rise to another significant result

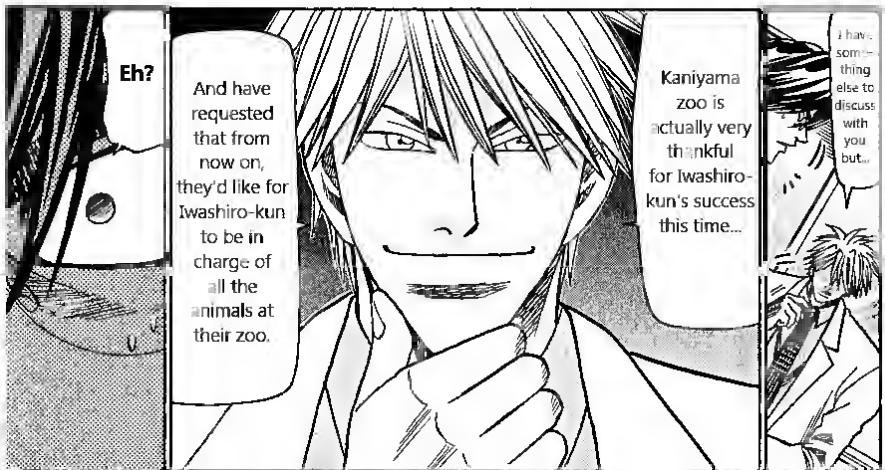


The reason why Randy could come to watch TV so quickly, and had such rapid improvement in his symptoms
Is because he seriously thought of Iwashiro-kun as a friend, and saw that he was watching the TV so enjoyably

In other words, because he put his body on the line trying to save Randy, Randy's recovery was able to advance more rapidly!



By the way Sakuraz aka-kun
No way .I just thought that everything he did was pure idiocy...
!!



Eh?
And have requested that from now on, they'd like for Iwashiro-kun to be in charge of all the animals at their zoo.
Kaniyama zoo is actually very thankful for Iwashiro-kun's success this time...
I have some-thing else to discuss with you but...

I'd like for you to take care of the night practice each day before Iwashiro-kun has to go to Kaniyama zoo instead.
I was thinking that having him do that would be okay, but doing that in addition to having night practice every night would make his burden a little too big.
So about that...
.....

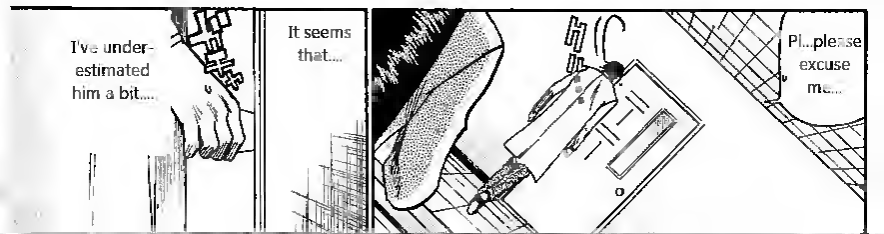
The president has also agreed to this matter And this is also...
In the first place, if that happens, then the plan to tire him out will all go to waste...!!
Wh why must I...?
Wa...wait a moment! That's...

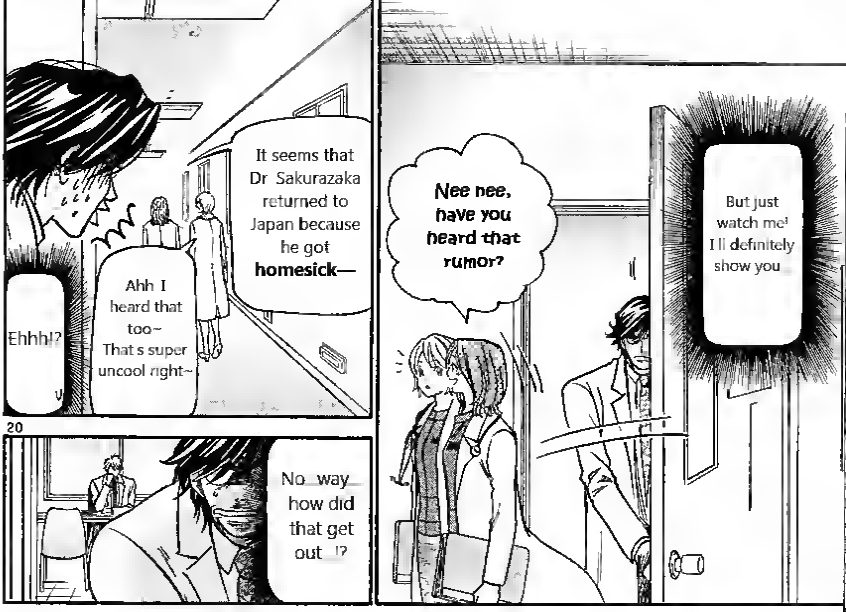
.....
A request from ME as YOUR superior.

He is just...
What's with that?
B...but Professor Ryouto!
You might not be aware of it, but he is an extreme **womanizer** and...
Womanizer?
A veterinarian who is **surrounded by the sweat of his hard work,** moreso than anyone else.

*T/N: In Japanese "womanizer" is pronounced as "onna-tarashi", so here Ryouto calls Tesshou "asemizu-tarashi" which basically means he drips with sweat. The name of this chapter references that, but there is no good way of translating it in English, so I've taken it as instead of being "surrounded by women", he is "surrounded by sweat"

Well...that might just be exactly why he becomes liked so naturally
By the zoos, the owners, and other veterinarians who work with him.
.....





But just watch me! I'll definitely show you
Nee nee, have you heard that rumor?
It seems that Dr. Sakurazaka returned to Japan because he got homesick—
Ahh I heard that too~ That's super uncool right~
Ehhh!?
No way how did that get out!?

Ah...
Is it true that Dr. Sakurazaka returned because you got homesick?
Well...when you curse someone, double the misfortune just comes on back to you ♡

I hope you enjoyed the chapter!!
